**Standards of Performance for Stationary Gas Turbines**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule; amendments.

**SUMMARY:** EPA is proposing to revise certain portions of the standards of performance for stationary gas turbines. We are proposing these revisions to clarify that EPA is not imposing new requirements for turbines constructed after 1977. Owners and operators of existing and new turbines may use monitoring that meets the pre-existing monitoring requirements. In addition, we have described a number of acceptable compliance monitoring options that owners and operators may elect to use for these units.

In the Rules and Regulations section of this **Federal Register**, we are taking direct final action on these proposed revisions because we view these revisions as noncontroversial, and we anticipate no adverse comments. We have explained our reasons for the revisions in the preamble to the direct final rule.

**DATES:** Comments must be received on or before March 27, 2006, unless a public hearing is requested. If requested by March 13, 2006, a public hearing will be held on March 27, 2006 and the comment period will be extended until April 25, 2006. Inquiries regarding a public hearing should be directed to the contact person listed below.

If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit.
