BACKGROUND INFORMATION:

1. Hawaii Bottomfish Overfishing Options (ACTION ITEM)

On the basis of fishery information analyzed by NMFS Pacific Islands Fisheries Science Center (PIFSC), NMFS's Pacific Islands Regional Office (PIRO) has determined that overfishing of the bottomfish species complex is occurring within the Hawaii Archipelago. The Regional Administrator for PIRO notified the Council of this overfishing determination on May 27, 2005. The Magnuson-Stevens Act requires that the Council take action to amend the Bottomfish FMP to end bottomfish overfishing within 1 year following NMFS' notification of the bottomfish overfishing.

The Council has been preparing an amendment to the Bottomfish FMP, as well as a Draft Supplemental Environmental Impact Statement (DSEIS) to address the "overfishing" of Hawaii's bottomfish stocks. Contained in the FMP amendment and DSEIS are management measures to end bottomfish overfishing in the Hawaii Archipelago.

Hawaii's bottomfish are managed as a single archipelagic-wide multi-species stock complex, however, bottomfish fisheries in the Hawaii Archipelago occur in two broad management areas, the Northwestern Hawaiian Islands and the Main Hawaiian Islands (MHI). NMFS has determined that the bottomfish overfishing problem is primarily occurring in the MHI and, therefore, reducing fishing mortality (effort) there would be the most effective means to end the overfishing in the Hawaii Archipelago. The management measures considered in the amendment and DSEIS (except for the no action alternative) target a 15 percent or greater reduction in bottomfish fishing mortality in the MHI which has been determined by PIFSC to be the appropriate level of reduction to end overfishing.

The Alternatives considered include: (1) No Action; (2a) Closure of Federal waters around Penguin and Middle Banks; (2b) Closure of 15 large area across the main Hawaiian Islands; (3) Annual seasonal closure from May to August; (4a) Total annual quota; (4b) Individual fishing quotas; (5a) Annual

seasonal closure from May to September except for a limited number of fishermen who fish under individual fishing quotas; and (5b) Annual seasonal closure from June to August and a partial closure of the southwestern portion of Penguin Bank.

The Council will consider these alternatives and will take final action on measures to end overfishing in the Hawaii bottomfish stock.

2. Northwestern Hawaiian Islands Fishing Regulations (ACTION ITEM)

On January 18, 2006, the Council was informed by the Under Secretary of Commerce for Oceans and Atmosphere, that NOAA is developing alternatives in the Draft Environmental Impact Statement for the proposed Northwestern Hawaiian Islands National Marine Sanctuary that would enable the Council to continue to recommend management measures to limit bottomfish and pelagic fisheries through regulations under the Magnuson-Stevens Fishery Conservation and Management Act, consistent with the goals and objectives of the proposed sanctuary.

The Council was also informed that if, by May 1, 2006, it transmits for Secretarial review, an amendment to the Bottomfish and Pelagics FMPs and corresponding proposed regulations implementing limits to bottomfish and pelagic fishing, NOAA may review those Magnuson-Stevens Fishery Conservation and Management Act regulations as potential mechanisms to implement NOAA's preferred alternative for the proposed sanctuary, rather than implementing the alternative via the National Marine Sanctuaries Act.

The Council will conduct public hearings on options to limit bottomfish and pelagic fishing in the NWHI.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
