Extension of Time Limit for Sunset Review of the Agreement Suspending the Antidumping Investigation on Uranium from the Russian Federation

AGENCY: Import Administration, International Trade Administration, U.S. Department of Commerce.

EFFECTIVE DATE: February 24, 2006.

FOR FURTHER INFORMATION CONTACT: Sally C. Gannon or Aishe Allen, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW, Washington, DC 20230; (202) 482-0162 or (202) 482-0172, respectively.

SUPPLEMENTARY INFORMATION:

Extension of Time Limit for Sunset Review:

On November 10, 2005, the Department of Commerce ("the Department") extended the time limit for the sunset review of the agreement suspending the antidumping investigation on uranium from the Russian Federation in accordance with section 751(c)(5)(B) of the Tariff Act of 1930, as amended ("the Act"). See, *Extension of Time Limit for Sunset Review of the Agreement Suspending the Antidumping Investigation on Uranium from the Russian Federation*, 70 FR 68397 (November 10, 2005) ("Notice of Extension"). On January 17, 2006, the Department determined to conduct a full sunset review of this suspended investigation. See, Memorandum from Sally C. Gannon to Ronald K. Lorentzen; "Sunset Review of Uranium from the Russian Federation: Adequacy of Domestic and Respondent Interested Party Responses to the Notice of Initiation and Decision to Conduct Full Sunset Review," dated January 17, 2006. On January 24, 2006, the Department determined to provide an additional extension of the time limit for the preliminary results of this sunset review until February 17, 2006. See, *Extension of Time Limit for Sunset Review of the Agreement Suspending the Antidumping Investigation on*

Uranium from the Russian Federation, 71 FR 3824 (January 24, 2006).

Pursuant to section 351.218(f) of the Department's regulations, the Department normally will issue its preliminary results in a full sunset review not later than 110 days after the date of publication in the **Federal Register** of the notice of initiation. However, as determined in the *Notice of Extension*, the sunset review of the agreement suspending the antidumping investigation on uranium from the Russian Federation is extraordinarily complicated and requires additional time for the Department to complete its analysis. Therefore, the Department is extending the deadline for the preliminary results in this proceeding by an additional 35 days and, as a result, intends to issue the preliminary results of the full sunset review no later than March 24, 2006. The Department will issue its final results of the full sunset review on May 30, 2006, as specified in the *Notice of Extension*.

This notice is issued in accordance with sections 751(c)(5)(B) and (C)(v) of the Act.

Dated: February 17, 2006.

Carole Showers,

Acting Director Office of Policy.

Western Pacific Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meetings and hearings.

SUMMARY: The Western Pacific Fishery Management Council (Council) will hold several public hearings in Hawaii to seek input on measures to end bottomfish overfishing in Hawaii and options for fishing regulations for bottomfish and pelagics in the Northwestern Hawaiian Islands (NWHI). Further, the Council will hold its 131st meeting and convene a meeting of its Advisory Panel to consider and take actions on fishery management issues in the Western Pacific Region.

DATES: The 131st Council meeting and Advisory Panel meetings will be held on March 13 - 16, 2006. The public

hearings on the Hawaii bottomfish overfishing options and NWHI Fishing regulations will be held in March 2006. See **SUPPLEMENTARY INFORMATION** for specific times and times of these public hearings.

ADDRESSES: The 131st Council meeting and Advisory Panel meetings and public hearings will be held at the Ala Moana Hotel, 410 Atkinson Drive, Honolulu, HI; telephone: (808) 955-4811. See **SUPPLEMENTARY INFORMATION** for specific locations of the public hearings on the bottomfish overfishing options and NWHI Fishing regulations.

FOR FURTHER INFORMATION CONTACT: Kitty M. Simonds, Executive Director; telephone: (808) 522-8220.

SUPPLEMENTARY INFORMATION:

The location, dates, and times for the public hearings on bottomfish overfishing options and NWHI fishing regulations are listed below:

1. Kahului, Maui, Hawaii—Thursday, March 2, 2006, from 6 p.m. to 9 p.m., at the Maui Beach Hotel, 170 Kaahumanu Ave., Kahului, HI 96732;

BACKGROUND INFORMATION:

1. Hawaii Bottomfish Overfishing Options (ACTION ITEM)

On the basis of fishery information analyzed by NMFS Pacific Islands Fisheries Science Center (PIFSC), NMFS's Pacific Islands Regional Office (PIRO) has determined that overfishing of the bottomfish species complex is occurring within the Hawaii Archipelago. The Regional Administrator for PIRO notified the Council of this overfishing determination on May 27, 2005. The Magnuson-Stevens Act requires that the Council take action to amend the Bottomfish FMP to end bottomfish overfishing within 1 year following NMFS' notification of the bottomfish overfishing.

The Council has been preparing an amendment to the Bottomfish FMP, as well as a Draft Supplemental Environmental Impact Statement (DSEIS) to address the "overfishing" of Hawaii's bottomfish stocks. Contained in the FMP amendment and DSEIS are management measures to end bottomfish overfishing in the Hawaii Archipelago.

Hawaii's bottomfish are managed as a single archipelagic-wide multi-species stock complex, however, bottomfish fisheries in the Hawaii Archipelago occur in two broad management areas, the Northwestern Hawaiian Islands and the Main Hawaiian Islands (MHI). NMFS has determined that the bottomfish overfishing problem is primarily occurring in the MHI and, therefore, reducing fishing mortality (effort) there would be the most effective means to end the overfishing in the Hawaii Archipelago. The management measures considered in the amendment and DSEIS (except for the no action alternative) target a 15 percent or greater reduction in bottomfish fishing mortality in the MHI which has been determined by PIFSC to be the appropriate level of reduction to end overfishing.

The Alternatives considered include: (1) No Action; (2a) Closure of Federal waters around Penguin and Middle Banks; (2b) Closure of 15 large area across the main Hawaiian Islands; (3) Annual seasonal closure from May to August; (4a) Total annual quota; (4b) Individual fishing quotas; (5a) Annual

seasonal closure from May to September except for a limited number of fishermen who fish under individual fishing quotas; and (5b) Annual seasonal closure from June to August and a partial closure of the southwestern portion of Penguin Bank.

The Council will consider these alternatives and will take final action on measures to end overfishing in the Hawaii bottomfish stock.

2. Northwestern Hawaiian Islands Fishing Regulations (ACTION ITEM)

On January 18, 2006, the Council was informed by the Under Secretary of Commerce for Oceans and Atmosphere, that NOAA is developing alternatives in the Draft Environmental Impact Statement for the proposed Northwestern Hawaiian Islands National Marine Sanctuary that would enable the Council to continue to recommend management measures to limit bottomfish and pelagic fisheries through regulations under the Magnuson-Stevens Fishery Conservation and Management Act, consistent with the goals and objectives of the proposed sanctuary.

The Council was also informed that if, by May 1, 2006, it transmits for Secretarial review, an amendment to the Bottomfish and Pelagics FMPs and corresponding proposed regulations implementing limits to bottomfish and pelagic fishing, NOAA may review those Magnuson-Stevens Fishery Conservation and Management Act regulations as potential mechanisms to implement NOAA's preferred alternative for the proposed sanctuary, rather than implementing the alternative via the National Marine Sanctuaries Act.

The Council will conduct public hearings on options to limit bottomfish and pelagic fishing in the NWHI.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
