

bidding rules, governs default payments that must be paid by winning bidders that default on a down payment or final payment obligation or are disqualified after the close of an auction. Under the modified rule, the Commission will, as part of its determination of competitive bidding procedures in advance of a particular auction, establish the amount of the additional payment component of such default payments for that auction. Because § 1.2104(g)(2) was modified after the release of the *Auction No. 65 Comment Public Notice*, the Bureau did not seek comment therein on the appropriate level of this payment for Auction No. 65, nor did it establish the amount of this payment in the *Auction No. 65 Procedures Public Notice* released on February 21, 2006.

Therefore, as explained below, the Commission seeks comment in this Public Notice on the appropriate level of this payment for Auction No. 65.

3. Section 1.2104(g)(2) provides that if, after the close of an auction, a winning bidder defaults on a down payment or final payment obligation or is disqualified (e.g., fails to submit a timely long-form application), the bidder is liable for a default payment. This payment consists of a deficiency payment, equal to the difference between the amount of the bidder's bid and the amount of the winning bid the next time a license covering the same spectrum is won in an auction, plus an additional payment equal to a percentage of the defaulter's bid or of the subsequent winning bid, whichever is less. Until recently this additional payment for non-combinatorial auctions has been set at 3 percent of the defaulter's bid or of the subsequent winning bid, whichever is less.

4. Pursuant to the modification of § 1.2104(g)(2) adopted in the *CSEA/Part 1 Report and Order*, the 3 percent limit on the additional default payment for non-combinatorial auctions has been increased to 20 percent. Thus, the Commission will, for each non-combinatorial auction, establish an additional default payment from 3 percent up to a maximum of 20 percent. As the Commission has indicated, the level of this payment in each case will be based on the nature of the service and the inventory of the licenses being offered.

5. For Auction No. 65, the Bureau proposes to establish an additional default payment of 20 percent. In this auction, licenses in three band plans will be available, but the only licenses that will be awarded will be those that comprise the band plan that receives the highest aggregate bid. Consequently, a bid on a single license may determine

not only the winner of that license but also the winning band plan, and thus affect the ability of other bidders to win other licenses in the auction. By contrast, a bid on a license in an auction using the Commission's standard simultaneous multiple round auction format ("SMR") may determine only the winner of that license. Because of the particular interdependence among bids in Auction No. 65 and the potential effects of one winning bidder's default on bidders for other licenses, the Commission believes that the detrimental effects of a default may be significantly greater than in a standard SMR auction. Accordingly, the Commission proposes a higher additional default payment in order to deter such defaults. The Commission seeks comment on this proposal.

6. Comments are due on or before March 7, 2006, and reply comments are due on or before March 14, 2006. All filings must be addressed to the Commission's Secretary Attn: WTb/ASAD, Office of the Secretary, Federal Communications Commission. Parties who file comments by paper must file an original and four copies of each filing. U.S. Postal Service first-class, Express, and Priority mail should be addressed to 445 12th Street, SW., Washington, DC 20554. Filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. The Bureau also requires that all comments and reply comments be filed electronically to the following address: [auction65@fcc.gov](mailto:auction65@fcc.gov). The electronic mail containing the comments or reply comments must include a subject or caption referring to "Auction No. 65 Comments" and the name of the commenting party. The Bureau requests that parties format any attachments to electronic mail as Adobe® Acrobat® (pdf) or Microsoft® Word documents. Copies of comments and reply comments will be available for public inspection between 8 a.m. and 4:30 p.m. eastern time (e.t.) Monday through Thursday or 8 a.m. to 11:30 a.m. e.t. on Fridays in the FCC Reference Information Center, Room CY-A257, 445 12th Street, SW., Washington, DC 20554, and will also be posted on the Web page for Auction No. 65 at <http://wireless.fcc.gov/auctions/65/>.

7. This proceeding has been designated as a "permit-but-disclose" proceeding in accordance with the Commission's *ex parte* rules. Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentations must contain summaries of the substance of the

presentations and not merely a listing of the subjects discussed. More than a one or two sentence description of the views and arguments presented is generally required. Other rules pertaining to oral and written *ex parte* presentations in permit-but-disclose proceedings are set forth in § 1.1206(b) of the Commission's rules.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Administration for Children and Families

#### Proposed Information Collection Activity; Comment Request

*Proposed Project:*

*Title:* Relationship Quality Instrument for Mentoring Children of Prisoners Program.

*OMB No.:* New Collection.

*Description:* The Promoting Safe and Stable Families Amendments of 2001 (Pub. L. 107-133) amended Title IV-B of the Social Security Act (42 U.S.C. 629-629e) to provide funding for nonprofit agencies that recruit, screen, train, and support mentors for children with an incarcerated parent or parents. The Family and Youth Services Bureau (FYSB) of the Administration for Children and Families, United States Department of Health and Human Services, administers the Mentoring Children of Prisoners (MCP) program. The MCP program creates lasting, high-quality one-to-one mentoring relationships that provide young people with caring adult role models. The quality of these relationships is an important indicator of success in mentoring programs.

Previous research has shown an association between high-quality mentoring relationships and positive changes in youth behavior associated with positive youth benefits, such as improved school attendance, reductions in risk behavior, and other benefits.

The Relationship Quality Instrument consists of 15 rigorously field-tested questions<sup>1</sup> about the relationship, plus several questions that establish context (age, gender, duration of relationship and frequency of contacts, etc.). The answer to the questions help assess how satisfied the youth (mentee) is with the relationship; whether the mentee is happy in the relationship; whether the mentee trusts the mentor; and whether the mentor has helped the mentee to cope with problems. Researchers in the field of mentoring have tested and validated the questions.

FYSB requires grantees receiving funding to provide information that can be used to evaluate outcomes for participating children. FYSB will use the information provided by the instrument to assure effective service delivery and program management and
