

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[CGD01-006-007]

RIN 1625-AA00

Safety Zone; Wantagh Parkway 3 Bridge over the Sloop Channel, Town of Hempstead, NY

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone in the waters surrounding the Wantagh Parkway Number 3 Bridge across the Sloop Channel in Town of Hempstead, New York. This zone is necessary to protect vessels transiting in the area from hazards imposed by construction barges and equipment that are being utilized to construct a new bascule bridge over the Sloop Channel. Entry into this zone is prohibited unless authorized by the Captain of the Port Long Island Sound, New Haven, Connecticut.

DATES: This rule is effective from 12:01 a.m. on February 20, 2006 until 11:59 p.m. December 31, 2006.

ADDRESSES: Documents indicated in this preamble as being available in the docket are part of docket CGD01-06-007 and will be available for inspection or copying at Sector Long Island Sound, New Haven, CT, between 9 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Lieutenant Junior Grade D. Miller, Assistant Chief, Waterways Management Division, Coast Guard Sector Long Island Sound at (203) 468-4596.

SUPPLEMENTARY INFORMATION:

Regulatory History

We did not publish notice of proposed rulemaking (NPRM) for this regulation. Under 5 U.S.C. 553 (b)(B), the Coast Guard finds that good cause exists for not publishing an NPRM and for making this regulation effective less than 30 days after **Federal Register** publication. Any delay encountered in this regulation's effective date would be impracticable and contrary to public interest since immediate action to restrict and control maritime traffic transiting in the vicinity of the Sloop Channel under the Wantagh Parkway Number 3 Bridge in the Town of Hempstead, Nassau County, Long

Island, New York, is needed to ensure the safety of vessels transiting the area.

In 2003, the Coast Guard approved bridge construction and issued a permit for bridge construction for the Wantagh Parkway Number 3 Bridge over the Sloop Channel. Contractors began work constructing the two bascule piers for the new bridge in early June 2004. A safety zone was not deemed necessary at the inception of the construction, as this channel is primarily used by smaller recreational vessels, which could maneuver outside of the channel. However, bridge construction equipment that remains under the Wantagh Parkway Number 3 Bridge poses a potential hazard greater than originally anticipated. A safety zone was deemed necessary and was established on October 9, 2004 through December 31, 2004, the date when construction impacting the navigable channel was estimated to be complete. A second safety zone was implemented on January 1, 2005 and extended until December 31, 2005 due to delays in construction, requiring equipment to be in the channel in a manner that would leave the waterway unsafe to marine traffic. The contractor for this project continues to experience significant delays in bridge construction. In order to continue construction in a more rapid and safe manner, barges will need to continuously block the channel under the bridge. Accordingly, the New York State Department of Transportation (NYSDOT) has requested that a safety zone be in place through December 31, 2006.

As these barges are presently obstructing the navigable channel, immediate action is needed to prevent accidents by limiting vessel movement in the area with the construction equipment. Traffic exists in this area year round and increases significantly in the summer months with the return of recreational traffic.

Background and Purpose

Currently, there is a fixed bridge over the Wantagh Parkway Number 3 Bridge over the Sloop Channel in the Town of Hempstead, New York. New York Department of Transportation determined that a moveable bridge would benefit the boating community. In 2003, the Coast Guard approved bridge construction and issued a permit for bridge construction for the Wantagh Parkway Number 3 Bridge over the Sloop Channel. Contractors began work constructing the two-basculer piers for the new bridge in early June 2004. The equipment necessary for the construction of the bridge occupies the entire navigable channel. While there

are side channels, which can be navigated, the equipment in the channel is extensive and poses a hazard to recreational vessels attempting to transit the waterway via the side channels under the bridge. Construction, requiring equipment in the navigable channel, was originally scheduled to end on December 31, 2004. Numerous delays in the construction have required construction equipment to continue to occupy the navigable channel and have required subsequent extensions of the established safety zone through December 31, 2005. Due to continued construction delays, the NYSDOT has requested that a safety zone be in place through December 31, 2006. To ensure the continued safety of the boating community, the Coast Guard is reestablishing the safety zone in place in all waters of the Sloop Channel within 300 yards of the Wantagh Parkway Number 3 Bridge. This safety zone is necessary to protect the safety of the boating community who wish to utilize the Sloop Channel. Vessels may utilize the Goose Neck Channel as an alternative route to using the Sloop Channel, adding minimal additional transit time. Marine traffic may also transit safely outside of the safety zone during the effective dates of the safety zone, allowing navigation in the Sloop Channel, except the portion delineated by this rule.

Discussion of Rule

This regulation establishes a temporary safety zone on the waters of the Sloop Channel within 300 yards of the Wantagh Parkway Bridge. This action is intended to prohibit vessel traffic in a portion of the Sloop Channel in the Town of Hempstead, New York to provide for the safety of the boating community due to the hazards posed by significant construction equipment and barges located in the waterway for the construction of a new bascule bridge. The safety zone is being established from 12:01 a.m. on February 20, 2006 to 11:59 p.m. on December 31, 2006. Marine traffic may continue to transit safely outside of the safety zone during the effective dates of the safety zone, allowing navigation in the Sloop Channel, except the portion delineated by this rule. Entry into this zone is prohibited unless authorized by the Captain of the Port, Long Island Sound.

Any violation of the safety zone described herein is punishable by, among other things, civil and criminal penalties, *in rem* liability against the offending vessel, and the initiation of suspension or revocation proceedings against Coast Guard-issued merchant mariner credentials.

Regulatory Evaluation

This rule is not a “significant regulatory action” under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not “significant” under the regulatory policies and procedures of the Department of Homeland Security (DHS). We expect the economic impact of this rule will be so minimal that a full Regulatory Evaluation under the regulatory policies and procedures of DHS is unnecessary. This regulation may have some impact on the public, but the potential impact will be minimized for the following reasons: Vessels may transit in all areas of the Sloop Channel other than the area of the safety zone, and may utilize other routes with minimal increased transit time.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule will have a significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule may affect the following entities, some of which may be small entities: the owners or operators of vessels intending to transit or anchor in those portions of the Sloop Channel in the Town of Hempstead, New York covered by the safety zone. For the reasons outlined in the Regulatory Evaluation section above, this rule will not have a significant impact on a substantial number of small entities.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

Assistance for Small Entities

Under subsection 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 [Pub. L. 104–121], the Coast Guard wants to assist small entities in understanding this rule so

that they can better evaluate its effects on them and participate in the rulemaking. If this rule will affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please call Lieutenant Junior Grade D. Miller, Assistant Chief, Waterways Management Division, Coast Guard Sector Safety Office Long Island Sound at (203) 468–4596.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247).

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in such expenditure, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not affect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and will not concern an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it will not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

To help the Coast Guard establish regular and meaningful consultation and collaboration with Indian and Alaskan Native tribes, we published a notice in the **Federal Register** (66 FR 36361, July 11, 2001) requesting comments on how to best carry out the Order. We invite your comments on how this rule might impact tribal governments, even if that impact may not constitute a “tribal implication” under the Order.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action, therefore it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an

explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies. This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

The Coast Guard analyzed this rule under Commandant Instruction M16475.1D, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) 42 U.S.C. 4321–4370f, and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(g) from further environmental documentation. This rule fits the category selected from paragraph (34)(g), as it establishes a safety zone. An Environmental Analysis Checklist and Categorical Exclusion Determination are available for review at the location listed under **ADDRESSES**.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

■ For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1225 and 1231; 46 U.S.C. Chapter 701; 50 U.S.C. 191; 33 CFR 1.05–1(g), 6.04–1, 6.04–6, and 160.5; Pub. L. 107–295, 116 Stat. 2064; Department of Homeland Security Delegation No. 0170.1.

■ 2. From 12:01 a.m. on February 20, 2006 until 11:59 p.m. December 31, 2006 add temporary § 165.T01–007 to read as follows:

§ 165.T01–007 Safety Zone: Wantagh Parkway Number 3 Bridge over the Sloop Channel, Town of Hempstead, NY.

(a) *Location:* The following areas are a safety zone: All waters of the Sloop Channel in Hempstead, NY within 300 yards of the Wantagh Parkway Number 3 Bridge over the Sloop Channel.

(b) *Effective date:* This rule is effective from 12:01 a.m. on February 20, 2006 until 11:59 p.m. December 31, 2006.

(c) *Regulations.* (1) In accordance with the general regulations in 165.23 of this part, entry into or movement within this zone by any person or vessel is prohibited unless authorized by the Captain of the Port (COTP), Long Island Sound.

(2) All persons and vessels must comply with the Coast Guard Captain of the Port or designated on-scene patrol personnel. On-scene Coast Guard patrol personnel include commissioned, warrant, and petty officers of the Coast Guard on board Coast Guard, Coast Guard Auxiliary, and local, state, and federal law enforcement vessels. Upon being hailed by siren, radio, flashing light or other means from a U.S. Coast Guard vessel or other vessel with on-scene patrol personnel aboard, the operator of the vessel shall proceed as directed.

Dated: February 17, 2006.

Peter J. Boynton,

Captain, U.S. Coast Guard, Captain of the Port, Long Island Sound.

Pesticide Management and Disposal; Standards for Pesticide Containers and Containment; Notification to the Secretary of Agriculture

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notification to the Secretary of Agriculture.

SUMMARY: This document notifies the public that the Administrator of EPA has forwarded to the Secretary of Agriculture a draft final rule as required by section 25(a) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). As described in the Agency's semi-annual Regulatory Agenda, the draft final rule would establish standards for removal of pesticides from containers and for rinsing containers; facilitate the safe use, refill, reuse, and disposal of pesticide containers by establishing standards for container design, labeling and refilling; and establish requirements for containment of large, stationary pesticide containers and for

containment of pesticide dispensing areas.

ADDRESSES: EPA has established a docket for this action under Docket ID No. EPA–HQ–OPP–2005–0327. All documents in the docket are listed on the <http://www.regulations.gov> web site. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1801 S. Bell St., Arlington, VA, Monday through Friday, excluding legal holidays. The Docket telephone number is (703) 305–5805.

FOR FURTHER INFORMATION CONTACT:

Nancy Fitz, Field and External Affairs Division, (7506C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington DC 20460–0001; telephone number: 703–305–7385; e-mail address: fitz.nancy@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general. It simply announces the submission of a draft final rule to USDA and does not otherwise affect any specific entities. This action may, however, be of particular interest to pesticide formulators, agrichemical dealers, and independent commercial pesticide applicators. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be interested in this action. If you have any questions regarding this action, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Access Electronic Copies of this Document and Other Related Information?

In addition to using <http://www.regulations.gov>, you may access this **Federal Register** document electronically through the EPA Internet under the “**Federal Register**” listings at <http://www.epa.gov/fedrgstr/>. A frequently updated electronic version of 40 CFR part 180 is available on E-CFR Beta Site Two at <http://www.gpoaccess.gov/ecfr/>.
