In order to allow determination of the study areas that are entitled to an expense adjustment, and the wire centers that are entitled to high-cost universal service support, incumbent and competitive telecommunications carriers must provide certain data to the National Exchange Carrier Association (NECA) or the Universal Service Administrative Company annually or quarterly. Local telecommunications carriers who want to participate in the federal universal service support program must make certain informational showings to demonstrate eligibility. The reporting requirements are necessary to implement the congressional mandate for universal service. The reporting requirements are necessary to verify that non-rural and rural local exchange carriers are eligible to receive universal service support. Information filed with NECA pursuant to section 36.611 is used to calculate universal service support payments to eligible carriers. Without this information, NECA would not be able to calculate such payments to eligible carriers.
