POSTAL SERVICE

39 CFR Part 111

New Preparation for Periodicals Flats in Mixed Area Distribution Center Bundles and Sacks

AGENCY: Postal Service.

ACTION: Proposed rule.

SUMMARY: The Postal Service currently allows Periodicals mailers to prepare two types of mixed area distribution center (ADC) bundles and sacks, including a new type of optional mixed ADC bundle and sack that improves service for Periodicals without adding processing costs. We are proposing to make this optional separation a requirement beginning July 6, 2006.

DATES: We must receive comments on our proposed standards on or before April 6, 2006.

ADDRESSES: Mail or deliver written comments to the Manager, Mailing Standards, U.S. Postal Service, 475 L'Enfant Plaza SW., Room 3436, Washington DC 20260-3436. You may inspect and photocopy all written comments between 9 a.m. and 4 p.m., Monday through Friday, at USPS Headquarters Library, 475 L'Enfant Plaza SW., 11th Floor North, Washington DC 20260.

FOR FURTHER INFORMATION CONTACT: Donald Lagasse, 202-268-7269.

SUPPLEMENTARY INFORMATION: On October 27, 2005, the Postal Service provided Periodicals mailers an option to separate their residual mail prepared in mixed area distribution center (ADC) bundles and sacks and to create a new type of mixed ADC bundle and sack. We offered this option because it improves service for some Periodicals without adding processing costs. The new separation allows us to integrate Periodicals flats into the First-Class mailstream for Periodicals addressed to destinations within the First-Class Mail surface transportation reach of the office of entry.

Under the new preparation, mailers separate some mixed ADC mail according to the destination ZIP Codes in new labeling list L201. Pieces prepared according to L201 are processed with First-Class Mail by the entry office. The remaining mixed ADC mail destined for ZIP Codes farther from the office of entry is sent to one of the 34 origin facilities designated in labeling list L009 for consolidated processing.

To fully benefit from this new preparation, Periodicals mailers should begin preparing Periodicals mail under these standards as soon as possible.

Having all mixed ADC mail prepared uniformly allows us to establish a consistent network and operating procedure for handling this mail across our processing facilities. Processing some Periodicals mail with the existing outgoing First-Class Mail at approximately 330 locations will have little impact on the operations at these offices but will relieve the 34 locations currently processing this consolidated volume of a significant amount of work. Finally, splitting the mixed ADC mail currently prepared in one or more sacks into two separations will have minimal or, in some cases, no impact on the number of containers that are prepared in Periodicals mailings.

Although we are exempt from the notice and comment requirements of the Administrative Procedure Act [5 U.S.C. of 553(b), (c)] regarding proposed rulemaking by 39 U.S.C. 410(a), we invite comments on the following proposed revisions to *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM)*, incorporated by reference in the Code of Federal Regulations. Endangered and Threatened Wildlife and Plants; 12-Month Finding on a Petition To List Agave eggersiana and Solanum conocarpum as Endangered

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 12-month petition finding.

SUMMARY: We, the Fish and Wildlife Service (Service), announce a 12-month finding on a petition to list the plants Agave eggersiana (no common name) and Solanum conocarpum (marrón bacora) as endangered under the Endangered Species Act of 1973, as amended (Act). After reviewing the best available scientific and commercial information, we find that listing A. eggersiana and S. conocarpum is not warranted at this time. However, we will continue to seek new information on the biology of these species as well as potential threats. We also ask the public to submit to us any new information that becomes available concerning the status of, or threats to, A. eggersiana and S. conocarpum. This information will help us monitor the status of these species. If additional data become available, we may reassess the need for listing.

DATES: The finding announced in this document was made on February 22, 2006.

ADDRESSES: The complete file for this finding is available for inspection, by appointment, during normal business hours at the Boquerón Ecological Services Field Office, U.S. Fish and Wildlife Service, Road 301, Km. 5.1 in Boquerón, Puerto Rico. Please submit any new information, materials, comments, or questions concerning these species or this finding to the above address or P.O. Box 491, Boquerón, Puerto Rico 00622.
