

In the *Part 1 Third Report and Order*, 65 FR 13540, May 27, 1997, the Commission explained that allowing bid withdrawals may facilitate efficient aggregation of licenses and the pursuit of efficient backup strategies as information becomes available during the course of an auction. In Auction No. 67, because bidders may bid only on licenses for which they previously submitted an application on FCC Form 601, it is unlikely that bidders will need to use withdrawals as anticipated by the *Part 1 Third Report and Order*. Accordingly, for this auction, the Bureau proposes that bidders not be permitted to withdraw bids placed in any round after it has closed. The Bureau seeks comment on these proposals.

C. Post-Auction Procedures

i. Default and Disqualification

40. Any winning bidder that defaults or is disqualified after the close of an auction (i.e., fails to remit the required down payment within the prescribed period of time, fails to submit a timely long-form application, fails to make full payment, or is otherwise disqualified) is liable for a default payment under 47 CFR 1.2104(g)(2). This payment consists of a deficiency payment, equal to the difference between the amount of the bidder's bid and the amount of the winning bid the next time a license covering the same spectrum is won in an auction, plus an additional payment equal to a percentage of the defaulter's bid or of the subsequent winning bid, whichever is less. Until recently this additional payment for non-combinatorial auctions has been set at 3 percent of the defaulter's bid or of the subsequent winning bid, whichever is less.

41. On January 24, 2006, the Commission released the CSEA/Part 1 Report and Order, 71 FR 6214, February 7, 2006, in which it modified 47 CFR 1.2104(g)(2) by, inter alia, increasing the 3 percent limit on the additional default payment for non-combinatorial auctions to 20 percent. Under the modified rule, the Commission will, in advance of each non-combinatorial auction, establish an additional default payment for that auction of 3 percent up to a maximum of 20 percent. As the Commission has indicated, the level of this payment in each case will be based on the nature of the service and the inventory of the licenses being offered.

42. For Auction No. 67, the Bureau proposes to establish an additional default payment of 10 percent. As noted in the *CSEA/Part 1 Report and Order*, defaults weaken the integrity of the

auctions process and impede the deployment of service to the public, and an additional default payment of more than the previous 3 percent will be more effective in deterring defaults. Because there are limited opportunities to provide general aviation air-ground service, defaults in this auction could potentially deprive the public of service in a particular locale, or at a minimum significantly delay such service. In light of this circumstance, the Bureau proposes an additional default payment of 10 percent of the relevant bid. The Bureau seeks comment on this proposal.

V. Conclusion

43. Comments are due on or before March 20, 2006, and reply comments are due on or before March 27, 2006. All filings related to the auction of 400 MHz Air-Ground Radiotelephone Service licenses should refer to AU Docket No. 06-38. Comments may be submitted using the Commission's Electronic Comment Filing System (ECFS) or by filing paper copies. The Bureau strongly encourages interested parties to file comments electronically, and requests submission of a copy via the Auction No. 67 e-mail box (auktion67@fcc.gov).

44. This proceeding has been designated as a permit-but-disclose proceeding in accordance with the Commission's ex parte rules. Persons making oral ex parte presentations are reminded that memoranda summarizing the presentations must contain summaries of the substance of the presentations and not merely a listing of the subjects discussed. More than a one or two sentence description of the views and arguments presented is generally required. Other rules pertaining to oral and written ex parte presentations in permit-but-disclose proceedings are set forth in 47 CFR 1.1206(b) of the Commission's rules.

publish periodic summaries of proposed projects to be submitted to the Office of Management and Budget (OMB) for review and approval.

Proposed Collection

Title: Outcome Evaluation of NCI's Activities to Promote Research Collaboration (APRC) Program.

Type of Information Collection Request: NEW.

Need and Use of Information Collection: The purpose of this study is to systematically assess the extent to which NCI's Activities to Promote Research Collaborations (APRC) program has been successful in accomplishing its intended goals of (1) capacity building and (2) generating innovative advances. The innovative advances outcome analysis will answer the question of whether APRC projects resulted in promising, novel concepts and advances in cancer research. The capacity building outcome analysis will determine whether participation in the APRC program has enabled the program participants to successfully integrate interdisciplinary approaches in their scientific investigations and enhanced their ability to pursue other collaborative research activities. The study will involve interviewing former APRC-funded researchers. The evaluation results will provide DCB with the information to make quality improvements to the APRC program and enhance program performance in generating significant outcomes. It will also strengthen our understanding of the value of collaborative and interdisciplinary research and inform NCI's approach to supporting and encouraging scientific collaboration among researchers from multiple disciplines in the future.

Frequency of Response: One time.

Affected Public: Individuals; scientific and research communities.

Type of Respondents: Researchers. The annual reporting burden is as follows:

Estimated Number of Respondents: 250;

Estimated Number of Responses per Respondent: 1;

Average Burden Hours per Response: .5; and

Estimated Total Annual Burden Hours Requested: 125.

The annualized cost to respondents is estimated at: \$4034. There are no Capital Costs, Operating Costs, and/or Maintenance Costs to report.
