

antidumping duties, all entries entered, or withdrawn from warehouse, for consumption on or after December 16, 1998, the date of Valbruna S.r.l.'s name change to Valbruna S.p.A. This action is in accordance with the Department's practice of applying the results of changed circumstances determinations retroactively where the company in question was never subject to the order. *See Certain Hot-Rolled Lead and Bismuth Carbon Steel Products from the United Kingdom: Final Results of Changed-Circumstances Antidumping and Countervailing Duty Administrative Review*, 64 FR 66880, 66881 (Nov. 30, 1999). For further discussion of this issue, see the memorandum from Irene Darzenta Tzafolias to Stephen J. Claeys, entitled "Successor-In-Interest Determination for Acciaierie Valbruna S.r.l. in the Changed Circumstances Review of Stainless Steel Wire Rod from Italy," dated concurrently with this notice.

Interested parties are invited to comment on these preliminary results. Any written comments may be submitted no later than 14 days after date of publication of this notice. Rebuttal briefs, limited to arguments raised in case briefs, are due five days after the case brief deadline. Case briefs and rebuttal briefs must be served on interested parties in accordance with 19 CFR 351.209. The Department will publish the final results of the changed circumstances review including the results of its analysis of any issues raised in any such comments.

This initiation of review, preliminary results of review, and notice are in accordance with sections 751(b) and 777(i)(1) of the Act.

Dated: March 13, 2006.

David M. Spooner,

Assistant Secretary for Import Administration.

Certain Pasta From Turkey: Extension of Time Limit for Preliminary Results of the Countervailing Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* March 20, 2006.

FOR FURTHER INFORMATION CONTACT:

Brandon Farlander or Audrey Twyman, AD/CVD Operations, Office 1, Import

Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington DC 20230; telephone: (202) 482-0182 and (202) 482-3534, respectively.

Background

On July 24, 1996, the Department published in the *Federal Register* (61 FR 38546) the countervailing duty order on certain pasta from Turkey. On July 1, 2005, the Department published in the *Federal Register* a notice of "Opportunity to Request Administrative Review" of this countervailing duty order (70 FR 38099). We received one request for review on July 29, 2005, and initiated the review for calendar year 2004, on August 29, 2005 (70 FR 51009). The preliminary results for this review are currently due no later than April 3, 2006.

Extension of Time Limits for Preliminary Results

Section 7512(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department of Commerce ("Department") to issue the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested and the final results of review within 120 days after the date on which the preliminary results are published. If it is not practicable to complete the review within the time period, section 751(a)(3)(A) of the Act allows the Department to extend these deadlines to a maximum of 365 days and 180 days, respectively.

We currently analyzing supplemental information provided by the respondent and the Government of Turkey in this review. Because the Department requires additional time to review, analyze, and, if necessary, to issue additional supplemental questionnaires, it is not practicable to complete this review within the originally anticipated time limit (*i.e.*, by April 3, 2006). Therefore, the Department is extending the time limit for completion of the preliminary results to not later than June 5, 2006, in accordance with section 751(a)(3)(A) of the Act.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: March 14, 2006.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

National Oceanic and Atmospheric Administration

[I.D. 031006C]

Marine Mammal Authorization Program Integration of Registration for Selected Atlantic Ocean, Gulf of Mexico, and Caribbean Fisheries

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of integrated registration program for Southeast fisheries.

SUMMARY: NMFS is providing notice that it is increasing the number of fisheries for which the Marine Mammal Authorization Program (MMAP) registration is integrated with existing state and Federal fishery licensing and permitting programs. NMFS is integrating MMAP registration for state fisheries permitted through the states of North Carolina, South Carolina, Georgia, Florida, Louisiana, Alabama, Mississippi, Texas, Puerto Rico, and the U.S. Virgin Islands.

ADDRESSES: For east coast fisheries, MMAP marine mammal injury/mortality reporting forms may be obtained at the following Web address: http://www.nmfs.noaa.gov/pr/pdfs/interactions/mmap_reporting_form.pdf or from the following office:

NMFS, Southeast Regional office, Protected Resources Division, 263 13th Avenue South, St. Petersburg, FL 33701, Attn: Teletha Mincey.

FOR FURTHER INFORMATION CONTACT:

Vicki Cornish, Southeast Regional Office, 727-824-5312; or Patricia Lawson, Office of Protected Resources, 301-713-2322. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service at 1-800-877-8339 between 8 a.m. and 4 p.m. Eastern time, Monday through Friday, excluding Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

The Marine Mammal Protection Act (MMPA) prohibits the taking (defined as actual or attempted harassment, hunt, capture, or kill) of marine mammals, with certain exceptions. The MMAP provides an authorization for commercial fishermen that allows the incidental (*i.e.*, non-intentional) taking of marine mammals during the course of commercial fishing operations. NMFS must annually publish a List of

Fisheries (LOF)(71 FR 247, January 4, 2006), which categorizes commercial fisheries based on the rates or likelihood of serious injury or mortality (bycatch) of marine mammals incidental to each fishery. Specifically, Category I fisheries are those with frequent bycatch; Category II fisheries have occasional bycatch; and Category III fisheries have a remote likelihood of or no known bycatch. All fishermen who participate in a Category I or II fishery must be registered with the MMAP to receive an Authorization Certificate, which authorizes their incidental taking of marine mammals. Participants in Category III fisheries are not required to register with the MMAP. Fishermen participating in any commercial fishery, regardless of category, are required to report all incidental injuries and mortalities of marine mammals to NMFS within 48 hours of returning from a fishing trip. For a complete description of requirements for fishermen participating in Category I, II, and III fisheries, please consult 50 CFR part 229, subpart A.

Rather than requiring all participants in Category I and II fisheries to register individually, the MMPA directs NMFS to integrate registration with existing state or Federal fishery permitting or licensing programs (section 118(c)(5)(A)). NMFS' goals for the integrated registration program include ensuring consistency in registration procedures across a greater number of fisheries, increasing the number of registrants to better reflect the level of participation in the fisheries, and conducting outreach to the fishing industry with regard to MMPA requirements. Using data from existing fishery licensing programs, the MMAP integration will reduce the registration burden on the fishing industry while facilitating the protection and conservation of marine mammals through increased outreach efforts. In a licensing system that is integrated with the MMAP, fishermen will no longer have to submit an MMAP Registration/renewal form or the \$25 processing fee to NMFS in order to receive or renew their MMAP Authorization Certificates.

In the southeast U.S., MMAP integration has already been established for federally-permitted fisheries (67 FR 79905, December 31, 2002), but MMAP integration has not heretofore been established for state-permitted fisheries. For 2006 and beyond, NMFS will be integrating the MMAP registration process for all Southeast state-permitted fisheries as identified in the final 2005 LOF (71 FR 247, January 4, 2006). Southeast state fisheries include those permitted by the states of North

Carolina, South Carolina, Georgia, Alabama, Mississippi, Louisiana, Texas, Puerto Rico, and the U.S. Virgin Islands.

NMFS will make an annual data request to each of these states for permit or license-holder information. Using this information, NMFS will mail MMAP Authorization Certificates, marine mammal injury/mortality reporting forms, and other program information to each permit or license-holder. Fishermen who participate in an integrated Category I or II state fishery do not need to take any additional action to register under the MMAP, as long as they hold a valid state fishing permit or license for the affected fishery. However, fishermen who participate in state and/or Federal fisheries not yet integrated with the MMAP registration system (i.e., fisheries for which no Federal or state permits are required) must contact the NMFS, Southeast Regional Office, Protected Resources Division, in order to register and receive an MMAP authorization certificate. If a fisherman participating in a Category I or II fishery, who expects to receive automatic registration, does not receive their authorization certificate by March 31, 2006, or by January 1 of each calendar year thereafter, the fisherman should contact NMFS (see **FOR FURTHER INFORMATION CONTACT**) to inquire about the status of their registration. Alternatively, they may apply for registration directly, following the procedures in 50 CFR 229.4(b).

NMFS will work with the permit-issuing agencies in each state to identify and attempt to limit mailing of authorization certificates to only those participants in Category I and II fisheries. Some permit systems, however, do not allow identification of fishermen using specific gear types in a way that matches the fishery designation referenced in the LOF. In cases where NMFS or the state permit-issuing agency cannot confidently determine which specific fishery identified in the LOF each fisherman participates in, based on the permit or license information, NMFS may inadvertently issue Authorization Certificates to fishermen participating in Category III fisheries. This approach, which may be confusing to Category III fishermen who are not required to be registered under the MMAP, is necessary to ensure that fishermen who need to register with the MMAP are not unintentionally excluded.

Dated: March 13, 2006.

James H. Lecky,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 031406F]

Gulf of Mexico Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of Ecosystem Scientific and Statistical Committee (SSC) Meeting via Conference Call.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will convene its Ecosystem SSC via Conference Call to discuss planning of an ecosystem modeling workshop to be held by the SSC later in the year.

DATES: The Conference Call will be held on April 5, 2006.

ADDRESSES: *Meeting address:* The meeting will be held via conference call and listening stations will be available. For specific locations see

SUPPLEMENTARY INFORMATION.

Council address: Gulf of Mexico Fishery Management Council, 2203 North Lois Avenue, Suite 1100, Tampa, Florida 33607.

FOR FURTHER INFORMATION CONTACT: Mr. Steven Atran, Population Dynamics Statistician, Gulf of Mexico Fishery Management Council; telephone: 813.348.1630.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico Fishery Management Council (Council) will convene its Ecosystem Scientific and Statistical Committee (SSC) to discuss planning of an ecosystem modeling workshop to be held by the SSC later in the year. Specifically, the objectives of the conference call are to identify one, two, or three multispecies/ecosystem modeling projects that could be used to address some of the key policy issues facing the Council, and to identify ecosystem modeling experts who could be contracted to assist the SSC and to perform some of the pre-analyses prior to the workshop.

The conference call will begin at 10 a.m. EST and conclude no later than 11 a.m. EST. Listening stations are available at the following locations: The
