Certain Small Diameter Carbon and Alloy Seamless Standard, Line, and Pressure Pipe from Romania: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce. SUMMARY: On January 10, 2006, the Department of Commerce published the preliminary results of the administrative review of the antidumping duty order on certain small diameter carbon and alloy seamless standard, line, and pressure pipe (seamless pipe) from Romania. The period of review is August 1, 2004, through July 31, 2005. We did not receive comments from interested parties, and we did not make any changes to the margin for the final results. The final margin for S.C. Silcotub S.A. is listed below in the section entitled "Final Results of Review."

DATE: March 22, 2006.

FOR FURTHER INFORMATION CONTACT: John Holman at (202) 482–3683 or Janis Kalnins at (202) 482–1392, AD/CVD Operations, Office 5, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230. SUPPLEMENTARY INFORMATION:

SOFFEEMENTANT INI ON

Background

On January 10, 2006, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on seamless pipe from Romania. See Certain Small Diameter Carbon and Alloy Seamless Standard, Line, and Pressure Pipe from Romania: Preliminary Results of Antidumping Duty Administrative Review, 71 FR 1509 (January 10, 2006) (Preliminary Results). We invited interested parties to comment on the Preliminary Results. We did not receive comments from interested parties, and we did not make any changes to the margin for the final results. The Department has conducted this

administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of the Order

The products covered by the order are seamless carbon and alloy (other than stainless) steel standard, line, and pressure pipes and redraw hollows produced, or equivalent, to the ASTM A–53, ASTM A–106, ASTM A–333. ASTM A-334, ASTM A-335, ASTM A-589, ASTM A-795, and the API 5L specifications and meeting the physical parameters described below, regardless of application. The scope of the order also includes all products used in standard, line, or pressure pipe applications and meeting the physical parameters described below, regardless of specification. Specifically included within the scope of the order are seamless pipes and redraw hollows, less than or equal to 4.5 inches (114.3 mm) in outside diameter, regardless of wallthickness, manufacturing process (hot finished or cold-drawn), end finish (plain end, beveled end, upset end, threaded, or threaded and coupled), or surface finish.

The seamless pipes subject to the order are currently classifiable under the subheadings 7304.10.10.20, 7304.10.50.20, 7304.31.30.00, 7304.31.60.50, 7304.39.00.16, 7304.39.00.20, 7304.39.00.24, 7304.39.00.28, 7304.39.00.32, 7304.51.50.05, 7304.51.50.60, 7304.59.60.00, 7304.59.80.10, 7304.59.80.15, 7304.59.80.20, and 7304.59.80.25 of the Harmonized Tariff Schedule of the United States (HTSUS).

Although the HTSUS subheadings are provided for convenience and U.S. Customs and Border Protection (CBP) purposes, our written description of the merchandise subject to the scope of this order is dispositive. For a further and more specific description of the scope of the order, please see *Certain Small Diameter Carbon and Alloy Seamless Standard, Line, and Pressure Pipe from Romania: Preliminary Results of Antidumping Duty Administrative Review and Preliminary Determination Not to Revoke in Part,* 70 FR 24520 (May 10, 2005).

Facts Available

For these final results, we continue to find that S.C. Silcotub S.A. did not act to the best of its ability by not submitting a response to our antidumping duty questionnaire, thus withholding information necessary to calculate an accurate dumping margin and information which we requested. Accordingly, we continue to find that the use of adverse facts available is warranted under section 776 of the Act. For a detailed discussion of our application, selection, and corroboration of the rate we selected as adverse facts available, see *Preliminary Results*, 71 FR at 1510.

Final Results of Review

As a result of our review, we determine that a weighted–average dumping margin of 15.15 percent exists for S.C. Silcotub S.A. for the period August 1, 2004, through July 31, 2005.

Duty Assessment and Cash–Deposit Requirements

The Department will determine, and CBP shall assess, antidumping duties on all appropriate entries. Because we are applying adverse facts available to all exports of subject merchandise produced or exported by S.C. Silcotub S.A., we will instruct CBP to assess the final percentage margin against the entered customs values on all applicable entries during the period of review. The Department will issue appropriate assessment instructions directly to CBP within 15 days of publication of these final results of review.

The following deposit requirements will be effective upon publication of these final results of this administrative review for all shipments of seamless pipe from Romania entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results, as provided by section 751(a)(2)(C) of the Act: (1) The cash-deposit rate for S.C. Silcotub S.A. will be 15.15 percent; (2) for merchandise exported by producers or exporters that were previously reviewed or investigated, the cash deposit will continue to be the most recent rate published in the final determination or final results for which the producer or exporter received an individual rate; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value investigation but the manufacturer is, the cash–deposit rate will be the rate established for the most recent period for the manufacturer of the subject merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review, the cash-deposit rate shall be 13.06 percent, the all-others rate established in the 2002–03 administrative review. See Notice of Final Results of Antidumping Duty Administrative Review and Final Determination Not To Revoke Order in Part: Certain Small Diameter Carbon and Alloy Seamless Standard, Line, and Pressure Pipe From Romania, 70 FR 7237 (February 11, 2005). These cash-deposit requirements

shall remain in effect until publication of the final results of the next administrative review.

Notification of Interested Parties

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during the review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO as explained in the administrative protective order itself. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

These final results of administrative review and notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: March 16, 2006.

David M. Spooner,

Assistant Secretaryfor Import Administration. [FR Doc. E6–4150 Filed 3–21–06; 8:45 am] BILLING CODE 3510–DS–S

Stainless Steel Sheet and Strip in Coils from Taiwan: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATE: March 22, 2006.

FOR FURTHER INFORMATION CONTACT: Melissa Blackledge or Karine Gziryan, AD/CVD Operations, Office 4, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482–3518 or (202) 482– 4081, respectively.

SUPPLEMENTARY INFORMATION:

Background

On August 29, 2005, the Department of Commerce (the Department) published a notice of initiation of an administrative review of the antidumping duty order on stainless steel sheet and strip in coils from Taiwan, covering the period July 1, 2004, through June 30, 2005. See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part, 70 FR 51009. The preliminary results of review are currently due no later than April 3, 2006.

Extension of Time Limit for Preliminary Results of Review

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order or finding for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the 245-day time limit for the preliminary determination to a maximum of 365 days and the time limit for the final determination to 180 days (or 300 days if the Department does not extend the time limit for the preliminary determination) from the date of publication of the preliminary determination.

We determine that it is not practicable to complete the preliminary results of this review within the original time limit because the review involves examining certain complex cost issues. Therefore, the Department is fully extending the time limit for completion of the preliminary results until no later than July 31, 2006, which is 365 days from the last day of the anniversary month of the date of publication of the order. The deadline for the final results of this administrative review continues to be 120 days after the publication of the preliminary results.

This notice is issued and published in accordance with section 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: March 16, 2006.

Stephen J. Claeys,

Deputy Assistant Secretaryfor Import Administration. [FR Doc. E6–4148 Filed 3–21–06; 8:45 am]

Proposed Information Collection; Comment Request; Atlantic Highly Migratory Species Recreational Landings Reports

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce. **ACTION:** Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. DATES: Written comments must be submitted on or before May 22, 2006. **ADDRESSES:** Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Margo Schulze-Haugen, (301) 713–2347 or *Margo.Schulze-Haugen@noaa.gov.*

SUPPLEMENTARY INFORMATION:

I. Abstract

Recreational catch reporting supplements existing data collection programs and provides important data used to monitor catches of highly migratory species. The data collected through this program are currently used for both domestic and international management and stock assessment purposes. The intent of Atlantic bluefin tuna (BFT) catch reporting is to provide real-time catch information for monitoring the recreational BFT fishery. Under the Atlantic Tunas Convention Act of 1975 (ATCA, 16 U.S.C. 971), the United States is required to abide by recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT), including a specified BFT quota. This program supports BFT management and scientific research authorized under ATCA and the Magnuson Stevens Fishery Conservation and Management Act (MSFMCA,16 U.S.C. 1801 et seq.). Recreational anglers are required to report specific information regarding
