SUPPLEMENTARY INFORMATION: On September 9, 2004, the Commission adopted a Report and Order and Further Notice of Proposed Rule Making, 70 FR 25 (January 3, 2005) (“Order”) in the above-captioned proceeding. The Order addresses matters related to two areas: the obligation of television licensees to provide educational programming for children and the requirement that television licensees protect children from excessive and inappropriate commercial messages. Some of the rules and policies adopted in the Order apply only to digital broadcasters while others apply to both analog and digital broadcasters as well as cable operators. A number of parties have petitioned for Commission reconsideration of the Order. In addition, petitions for judicial review of the Order and other requests for relief are pending before the U.S. Court of Appeals for the Sixth Circuit.

On December 16, 2005, the Commission adopted an Order Extending Effective Date, FCC 05-211, MM Docket No. 00-167 (rel. December 16, 2005) extending the effective date of most of the rules adopted in the Order until 60 days after publication in the **Federal Register** of an order on reconsideration in this proceeding; see 71 FR 5176 (February 1, 2006). The Commission noted that representatives of the broadcast and cable industries and public interest groups interested in children’s television issues had been meeting in an attempt to resolve their differences regarding the new rules that are the subject of the litigation. The Commission further noted that those parties had informed the Commission that they had reached an agreement on a recommendation to the Commission that, if adopted, would resolve their concerns with the Commission’s rules. In light of that agreement and the issues raised in the pending petitions for reconsideration, the Commission found that the public interest would be served by delaying the effective date of the new rules to permit the Commission to act on the petitions for reconsideration and to afford broadcasters and cable operators additional time to come into compliance with the revised children’s television requirements, as such requirements may be modified on reconsideration. The Commission noted that it would seek comment on the parties’ recommendation separately.

On February 9, 2006, the broadcast and cable industry representatives and

children’s television public interest groups involved in negotiations regarding the Order filed with the Commission a “Joint Proposal of Industry and Advocates on Reconsideration of Children’s Television Rules” (“Joint Proposal”). The Joint Proposal contains a somewhat more detailed discussion of the parties’ recommendations regarding modifications of the rules adopted in the Order. A copy of the Joint Proposal is attached to the Second Further Notice of Proposed Rulemaking. The Joint Proposal can also be found in MM Docket 00-167 using the Commission’s Electronic Comment Filing System (“ECFS”) available at <http://www.fcc.gov/cgb/ecfs/>.

We hereby invite the public to comment on the rules and policies adopted in the Order in light of the recommendations reflected in the Joint Proposal. In particular, we seek comment on whether, and to what extent, the Commission should adopt these recommendations for modification of the rules adopted in the Order or any alternative modifications. The Commission will consider the Joint Proposal and the comments filed in response to this Second Further Notice of Proposed Rule Making together with the petitions for reconsideration previously filed in response to the Order in determining what action to take on reconsideration in this proceeding.

Ex Parte Rules. This is a permit-but-disclose notice and comment rulemaking proceeding. Ex parte presentations are permitted, except during the Sunshine Agenda period, provided that they are disclosed as provided in the Commission’s Rules. See generally 47 CFR 1.1202, 1.1203, and 1.1206(a).

Initial Paperwork Reduction Act Analysis

This Second Further Notice of Proposed Rulemaking (“Second Further

Notice”) contains proposed information collection requirements subject to the Paperwork Reduction Act of 1995. As part of our continuing effort to reduce paperwork burdens, we invite OMB, the general public, and other Federal agencies to take this opportunity to comment on the information collections contained in this Second Further Notice, as required by the Paperwork Reduction Act of 1995, Public Law 104–13. Public and agency comments are due May 26, 2006. Comments should address: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. In addition, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4), we seek specific comment on how we might “further reduce information collection burden on small business concerns with fewer than 25 employees.” In addition to filing comments with the Secretary, a copy of any comments on the information collections contained herein should be submitted to Cathy Williams, Federal Communications Commission, 445 Twelfth Street, SW., Room 1–C823, Washington, DC 20554, or via the Internet to Cathy.Williams@fcc.gov and to Kristy L.
