SUPPLEMENTARY INFORMATION:**I. Background**

FDA is announcing the availability of a draft guidance for industry entitled "Providing Regulatory Submissions in Electronic Format—Orphan-Drug and Humanitarian Use Device Designation Requests and Related Submissions." This draft document provides guidance to industry regarding submissions of designation requests and related submissions to OPD in electronic format. It describes the two methods by which submissions can be made

electronically to OPD. The first is totally electronic through use of FDA's electronic submission gateway pathway and the second is directly to OPD through the use of physical media (e.g., CD-ROMs). Recommendations are described for the formatting and organization of these submissions. A listing of agency contacts for assistance is also provided.

This draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the agency's current thinking on providing designation requests and related submissions in electronic format. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.

II. Comments

Interested persons may submit to the Division of Dockets Management (see **ADDRESSES**) written or electronic comments on the draft guidance. Submit a single copy of electronic comments or two paper copies of any mailed comments, except that individuals may submit one paper copy. Comments are to be identified with the docket number found in brackets in the heading of this document. The draft guidance and received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

III. Paperwork Reduction Act of 1995

This notice contains no new collections of information. The information requested for designation requests and related submissions is already covered by the regulations for orphan-drugs under 21 CFR 316.20 and for HUDs under 21 CFR 814.102. This notice announces the availability of a guidance that provides applicants with an alternative mechanism for submitting designation requests and related submissions to the agency. Therefore, clearance by the Office of Management and Budget under the Paperwork Reduction Act of 1995 is not required.

IV. Electronic Access

Persons with access to the Internet may obtain the document at <http://www.fda.gov/orphan/esub/esub.htm> or at <http://www.fda.gov/ohrms/dockets/default.htm>.

These programs were designed to aid construction and modernization of health care facilities by increasing the access of facilities to

capital through the assumption of the mortgage credit risk by the Federal Government.

Operating statistics and financial information are collected annually from hospitals with mortgages that are
