

Kennedy International Airport Final Environmental Impact Statement (EIS), May 1994.

The scope of the EIS will be changed to include management of risks associated with bird species already addressed in the 1994 EIS and hazards associated with additional wildlife species including, but not limited to, double-crested cormorants and Canada geese. The SEIS will review the efficacy and impacts of current wildlife hazard management efforts and analyze impacts of new and/or expanded alternatives and methods for wildlife hazard management at JFK. We anticipate that the draft SEIS will be available for review by the general public in September 2006.

The SEIS will be prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1), and (4) APHIS' NEPA Implementing Procedures (7 CFR part 372).

Done in Washington, DC, this 29th day of March 2006.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
