### Minerals Management Service

#### Gulf of Mexico, Outer Continental Shelf, Western Planning Area, Oil and Gas Lease Sale 200 (2006) Environmental Assessment

**AGENCY:** Minerals Management Service, Interior.

**ACTION:** Notice of availability of an environmental assessment.

**SUMMARY:** The Minerals Management Service (MMS) is issuing this notice to advise the public, pursuant to the National Environmental Policy Act of 1969 (NEPA), as amended, 42 U.S.C. 4321 *et seq.*, that MMS has prepared an environmental assessment (EA) for proposed Outer Continental Shelf (OCS) oil and gas Lease Sale 200 in the Western Gulf of Mexico (GOM) (Lease Sale 200) scheduled for August 2006. Proposed Lease Sale 200 is the fifth Western Planning Area (WPA) lease sale scheduled in the Outer Continental Shelf Oil and Gas Leasing Program: 2002-2007 (5-Year Program, OCS EIS/EA MMS 2002-006). The preparation of this EA is an important step in the decisionmaking process for Lease Sale 200. The proposal for Lease Sale 200 (the offering of all available unleased acreage in the WPA) and its alternatives (the proposed action excluding the unleased blocks near biologically sensitive topographic features and no

action) were identified by the MMS Director in January 2002 following the Call for Information and Nominations/Notice of Intent to Prepare an Environmental Impact Statement (EIS) and were analyzed in the Gulf of Mexico OCS Oil and Gas Lease Sales: 2003-2007; Central Planning Area Sales 185, 190, 194, 198, and 201; Western Planning Area Sales 187, 192, 196, and 200—Final Environmental Impact Statement; Volumes I and II (Multisale EIS, OCS EIS/EA MMS 2002-052). The Multisale EIS analyzed the effects of a typical WPA lease sale by presenting a set of ranges for resource estimates, projected exploration and development activities, and impact-producing factors for any of the proposed WPA lease sales. The level of activities projected for proposed Lease Sale 200 falls within these ranges. In this EA, which tiers from the Multisale EIS and incorporates that document by reference, MMS reexamined the potential environmental effects of the proposed action and its alternatives based on any new information regarding potential impacts and issues that were not available at the time the Multisale EIS was prepared. No new significant impacts were identified for proposed Lease Sale 200 that were not already assessed in the Multisale EIS. As a result, MMS determined that a supplemental EIS is not required and prepared a Finding of No New Significant Impact (FONNSI).

**FOR FURTHER INFORMATION CONTACT:** Mr. Dennis Chew, Minerals Management Service, Gulf of Mexico OCS Region, 1201 Elmwood Park Boulevard, MS 5410, New Orleans, Louisiana 70123-2394. You may also contact Mr. Chew by telephone at (504) 736-2793.

**SUPPLEMENTARY INFORMATION:** In November 2002, MMS prepared a Multisale EIS that addressed nine proposed Federal actions that offer for lease areas on the GOM OCS that may contain economically recoverable oil and gas resources. Federal regulations allow for several related or similar proposals to be analyzed in one EIS (40 CFR 1502.4). Since each proposed lease sale and its projected activities are very similar each year for each planning area, a single EIS was prepared for the nine Central Planning Area (CPA) and WPA lease sales scheduled in the 5-Year Program. Under the 5-Year Program, five annual areawide lease sales are scheduled for the CPA (Lease Sales 185, 190, 194, 198, and 201) and five annual areawide lease sales are scheduled for the WPA (Lease Sales 184, 187, 192, 196, and 200). Lease Sale 184 was not addressed in the Multisale EIS; a separate EA was prepared for that

proposal. The Multisale EIS addressed CPA Lease Sales 185, 190, 194, 198, and 201 scheduled for 2003, 2004, 2005, 2006, and 2007, respectively, and WPA Lease Sales 187, 192, 196, and 200 scheduled for 2003, 2004, 2005, and 2006, respectively. Although the Multisale EIS addresses nine proposed lease sales, at the completion of the EIS process, decisions were made only for proposed CPA Lease Sale 185 and proposed WPA Lease Sale 187. In the year prior to each subsequent proposed lease sale, an additional NEPA review (an EA) has been conducted to address any new information relevant to that proposed action. After completion of the EA, MMS determines whether to prepare a FONNSI or a Supplemental EIS. The MMS then prepares and sends Consistency Determinations (CD's) to the affected States to determine whether the proposed lease sale is consistent with their federally-approved State coastal zone management programs. Finally, MMS will solicit comments via the Proposed Notice of Sale (PNOS) from the governors of the affected States on the size, timing, and location of the proposed lease sale. The tentative schedule for the prelease decision process for Lease Sale 200 is as follows: CD's sent to affected States, March 2006; PNOS sent to governors of the affected States, March 2006; Final Notice of Sale published in the **Federal Register**, July 2006; and Lease Sale 200, August 2006. To obtain single copies of the Multisale EIS, you may contact the Minerals Management Service, Gulf of Mexico OCS Region, Attention: Public Information Office (MS 5034), 1201 Elmwood Park Boulevard, Room 114, New Orleans, Louisiana 70123-2394 (1-800-200-GULF). You may also view the Multisale EIS or check the list of libraries that have copies of the Multisale EIS on the MMS Web site at <http://www.gomr.mms.gov>.

**Public Comments:** Interested parties are requested to send comments on this EA/FONNSI within 30 days of this Notice's publication. Comments may be submitted in one of the following three ways:

1. Comments may be submitted using MMS's Public Connect on-line commenting system at <http://ocscconnect.mms.gov>. This is the preferred method for commenting. From the Public Connect "Welcome" screen, search for "WPA Lease Sale 200 EA" or select it from the "Projects Open for Comment" menu.
