Background

Authority To Grant Exemptions

Section 4007 of the Transportation Equity Act for the 21st Century (Public Law 105-178, 112 Stat. 107, June 9, 1998) (TEA-21) amended 49 U.S.C. 31315 and 31136(e) to provide FMCSA with authority to grant exemptions from its safety regulations. On December 8, 1998, the Federal Highway Administration's Office of Motor Carriers, the predecessor to FMCSA, published an interim final rule implementing section 4007 (63 FR 67600). On August 20, 2004, FMCSA published a final rule (69 FR 51589) on this subject. By this rule, FMCSA must publish a Notice of each exemption request in the **Federal Register** (49 CFR part 381), provide the public with an opportunity to inspect the information relevant to the application to include any safety analyses that have been conducted, and provide an opportunity for public comment on the request.

The Agency must then examine the safety analyses and the public comments, and determine whether the exemption would achieve a level of safety equivalent to, or greater than, the level that would be achieved by complying with the current regulation (49 CFR 381.305). The Agency's decision must be published in the **Federal Register** (49 CFR 381.315(b)). If the Agency denies the request, it must state the reason for doing so. If the decision is to grant the exemption, the Notice must specify the person or class of persons receiving the exemption, and the regulatory provision or provisions from which an exemption is being granted. The Notice must also specify

the effective period of the exemption (up to two years), and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

Establishment of FMCSA's Diabetes Exemption Program

FMCSA published a Notice of intent to issue exemptions to drivers with ITDM on July 31, 2001 (66 FR 39548). On September 3, 2003, the Agency published a Notice of final disposition announcing its decision to issue exemptions to certain insulin-using diabetic drivers of CMVs from the diabetes mellitus prohibition under 49 CFR 391.41(b)(3). [68 FR 5241] ("2003 Notice"). The 2003 Notice explained that in considering exemptions, FMCSA must ensure that the issuance of diabetes exemptions will not be contrary to the public interest and that the exemption achieves an acceptable level of safety. The Agency indicated it will only grant exemptions to insulin-using diabetic drivers that meet the eligibility criteria provided in its notice of final disposition.

Because FMCSA established eligibility criteria for use in determining whether the granting of a diabetes exemption would achieve the requisite level of safety, the Agency only publishes for public comment, the names of exemption applicants that satisfy the eligibility requirements, based upon the information provided by the applicant. Applicants that do not meet the requirements are notified by letter that their applications are denied and the Agency periodically publishes the names of those individuals to satisfy the statutory requirement for disclosing such information to the public.

Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU)

Section 4129 of SAFETEA-LU (Public Law 109-59, 119 Stat., August 10, 2005) required FMCSA to revise its diabetes exemption program established on September 3, 2003 (68 FR 52441). The revision must provide for individual assessment of drivers with ITDM, and be consistent with the criteria described in section 4018 of TEA-21.¹ Section 4129 required two substantive changes to be made in the exemption process set out in the 2003 Notice.

In response to section 4129, FMCSA made immediate revisions to the diabetes exemption program established

¹ Section 4129(a) refers to the 2003 notice as a "final rule." However, as indicated above, the 2003 Notice did not issue a "final rule" but did establish the procedures and standards for issuing exemptions for drivers with ITDM.
