

comment period and ample opportunity for public consultation seems appropriate in view of its refined risk assessments.

All comments should be submitted using the methods in **ADDRESSES**, and must be received by EPA on or before the closing date. Comments will become part of the Agency Docket for the organic arsenic herbicides. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

B. What is the Agency's Authority for Taking this Action?

Section 4(g)(2) of FIFRA as amended directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product-specific data on individual end-use products and either reregistering products or taking other "appropriate regulatory action."

Section 408(q) of the FFDCA, 21 U.S.C. 346a(q), requires EPA to review tolerances and exemptions for pesticide residues in effect as of August 2, 1996, to determine whether the tolerance or exemption meets the requirements of section 408(b)(2) or (c)(2) of FFDCA. This review is to be completed by August 3, 2006.

Ethoprop, Addendum to the Interim Reregistration Eligibility Decision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of an Addendum to EPA's 2001 Interim Reregistration Eligibility Decision (IRED) for the organophosphate pesticide, ethoprop. The Agency's risk assessments and other related documents also are available in the ethoprop Docket. The 2001 IRED for ethoprop described the Agency's interim reregistration decision on granular formulated products. A decision on the emulsifiable concentrate (EC) formulation was deferred until the registrant submitted additional exposure data. The Agency has received and reviewed the additional data, and the review is available in the ethoprop Docket. This addendum to the 2001 IRED for ethoprop includes the regulatory decision on the EC formulation of ethoprop. EPA has reviewed ethoprop through the public participation process that the Agency uses to involve the public in developing pesticide reregistration and tolerance reassessment decisions. Through these programs, EPA is ensuring that all pesticides meet current health and safety standards.

A. What Action is the Agency Taking?

Under section 4 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is reevaluating existing pesticides to ensure that they meet current scientific and regulatory standards. EPA completed an IRED for the organophosphate pesticide ethoprop in 2001 that presented an interim reregistration eligibility decision for granular formulated products. The decision on the emulsifiable concentrate (EC) formulation was deferred until the registrant submitted additional occupational exposure information on the EC formulation. The Agency's review of the exposure data is available in the ethoprop docket. The addendum
