**Pesticides; NAFTA Guidance Document on Requirements for Tolerances on Imported Commodities in the U.S. and Canada; Notice of Availability****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

**SUMMARY:** This notice announces the availability of the NAFTA Guidance Document on Requirements for Tolerances on Imported Commodities in the United States and Canada. It follows up on an April 16, 2003 notice, which made a proposed version of the document available for a 60-day public comment period. The document provides detailed guidance on data requirements that meet NAFTA standards for the establishment of pesticide import tolerances or maximum residue levels in Canada and the United States, and has been developed consistently with the goals of the North American Free Trade Agreement. This guidance document does not change the U.S. data requirements for obtaining a U.S. import tolerance. This common approach to the establishment of import tolerances is expected to promote trade between North America and the rest of the world and maintain North American high standards for food safety.

**II. Background***A. What Action is the Agency Taking?*

This notice announces the availability of the NAFTA Guidance Document on Data Requirements for Tolerances on Imported Commodities. It has been developed consistently with the goals of the North American Free Trade Agreement (NAFTA). A common NAFTA approach to import tolerances will promote trade between North America and the rest of the world.

*B. What is the Agency's Authority for Taking this Action?*

On June 1, 2000, EPA issued in the **Federal Register** U.S. guidance on import tolerances. The NAFTA Guidance Document on Data Requirements for Tolerances on Imported Commodities in the United States and Canada is consistent with the earlier guidance.

EPA regulates pesticides under two major statutes: The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA)

and the Federal Food, Drug, and Cosmetic Act (FFDCA). FIFRA requires that pesticides be registered (licensed) by EPA before they may be sold or distributed for use in the United States. Section 408 of the FFDCA authorizes EPA to establish, modify or maintain tolerances or tolerance exemptions for pesticide residues in or on food. Any food with pesticide residues not covered by a tolerance or tolerance exemption (or with residues in excess of the tolerance) may be subject to regulatory action by the U.S. government (including seizure). Pesticide tolerances and exemptions are enforced by individual states and the U.S. Food and Drug Administration for most foods, and by the U.S. Department of Agriculture for meat, poultry, and some egg products.

EPA has an obligation under section 408 of the FFDCA to establish tolerances for pesticide chemicals at levels that are “safe.” EPA also has an obligation to ensure that the tolerances continue to be “safe” over time, since new information may alter EPA’s earlier safety finding under the FFDCA.

**SUPPLEMENTARY INFORMATION:**

*OMB Control Number:* 3060-01041.

*Title:* Remedial Measures for Failure to Construct Digital Television Stations (DTV Policy Statement).

*Form Number:* Not applicable.

*Type of Review:* Extension of a currently approved collection.

*Respondents:* Business or other for-profit entities; Not-for-profit institutions.

*Number of Respondents:* 400.

*Estimated Time per Response:* 0.50—2 hours.

*Frequency of Response:* On occasion reporting requirement.

*Total Annual Burden:* 460 hours.

*Total Annual Cost:* \$304,000.

*Privacy Impact Assessment:* No impact(s).

*Needs and Uses:* On April 16, 2003, the FCC released a Report and Order and Memorandum Opinion and Order on Reconsideration, *In the Matter of Remedial Steps for Failure to Comply with Digital Television Construction Schedule*, MM Docket No. 02-113, FCC 03-77. The Commission adopted a series of remedial measures for stations that fail to construct their digital

television (DTV) facilities in a timely fashion and fail to justify an extension of their DTV construction deadline. Stations will be subject to periodic reporting requirements.

Under the first step, the Commission will deny the request for an unqualified extension and admonish the station for its failure to comply with its DTV construction obligation. The station must submit a report within thirty days outlining the steps it intends to take to complete construction and the approximate date that it expects to reach each of these construction milestones. Sixty days after its initial report, the station must submit a report detailing its progress on meeting its proposed construction milestones and justifying any delays it has encountered.

Under the second step in the approach, if the station has not come into compliance with the DTV construction rule within a six-month period, then, absent extraordinary and compelling circumstances, the Commission will issue a Notice of Apparent Liability for forfeiture to the licensee and require that the station report every thirty days on its proposed construction milestones and its efforts to meet those milestones. Once again, failure to adequately demonstrate that the station was taking all reasonable steps towards construction and to justify any additional delays that were encountered will result in the imposition of additional sanctions.

Under the third and final step in the approach, if the station still had failed to come into compliance with the DTV construction rule within an additional six-month period of time (i.e., one year from the date of the formal admonition), then, absent extraordinary and compelling circumstances, the Commission will consider its construction permit for its DTV facilities to have expired and will rescind the station's DTV authorization. The Commission concluded that no hearing was necessary prior to rescinding the station's DTV authorization. The Commission also concluded that it would not make the station's vacant DTV allotment available. The Commission also announced that the station will be required to surrender its analog authorization at the end of the DTV transition.
