Title: Remedial Measures for Failure to Construct Digital Television Stations (DTV Policy Statement).

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions.

Number of Respondents: 400.

Estimated Time per Response: 0.50—2 hours.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 460 hours.

Total Annual Cost: \$304,000.

Privacy Impact Assessment: No impact(s).

Needs and Uses: On April 16, 2003, the FCC released a Report and Order and Memorandum Opinion and Order on Reconsideration, *In the Matter of Remedial Steps for Failure to Comply with Digital Television Construction Schedule*, MM Docket No. 02-113, FCC 03-77. The Commission adopted a series of remedial measures for stations that fail to construct their digital

television (DTV) facilities in a timely fashion and fail to justify an extension of their DTV construction deadline. Stations will be subject to periodic reporting requirements.

Under the first step, the Commission will deny the request for an unqualified extension and admonish the station for its failure to comply with its DTV construction obligation. The station must submit a report within thirty days outlining the steps it intends to take to complete construction and the approximate date that it expects to reach each of these construction milestones. Sixty days after its initial report, the station must submit a report detailing its progress on meeting its proposed construction milestones and justifying any delays it has encountered.

Under the second step in the approach, if the station has not come into compliance with the DTV construction rule within a six-month period, then, absent extraordinary and compelling circumstances, the Commission will issue a Notice of Apparent Liability for forfeiture to the licensee and require that the station report every thirty days on its proposed construction milestones and its efforts to meet those milestones. Once again, failure to adequately demonstrate that the station was taking all reasonable steps towards construction and to justify any additional delays that were encountered will result in the imposition of additional sanctions.

Under the third and final step in the approach, if the station still had failed to come into compliance with the DTV construction rule within an additional six-month period of time (i.e., one year from the date of the formal admonition), then, absent extraordinary and compelling circumstances, the Commission will consider its construction permit for its DTV facilities to have expired and will rescind the station's DTV authorization. The Commission concluded that no hearing was necessary prior to rescinding the station's DTV authorization. The Commission also concluded that it would not make the station's vacant DTV allotment available. The Commission also announced that the station will be required to surrender its analog authorization at the end of the DTV transition.
