SUPPLEMENTARY INFORMATION:

Description

The information collection submitted for OMB review contains the following:

1. *Collection of Information:* FERC-716 "Good Faith Request for Transmission Service and Response by Transmitting Utility under sections 211(a) & 213(a) of the FPA".
2. *Sponsor:* Federal Energy Regulatory Commission.
3. *Control No.:* 1902-0170.

The Commission is now requesting that OMB approve and extend the expiration date for an additional three years with no changes to the existing collection. The information is not filed with the Commission but is used in conjunction with FERC-716A which is mandatory.

4. *Necessity of the Collection of Information:* Submission of the information is necessary for the Commission to carry out its responsibilities in implementing the statutory provisions of sections 211 and 213 of the Federal Power Act (FPA) as amended and added by the Energy Policy Act of 1992. The information is not filed with the Commission, however, the request and response may be analyzed as a part of a section 211 proceeding. This collection of information covers the information that must be contained in the request and in the response.

The Energy Policy Act of 1992 amended section 211 of the FPA and expanded the Commission's authority to order transmission service. Under the revised section 211, the Commission may order transmission services if it finds that such action would be in the public interest, would not unreasonably impair the continued reliability of electric systems affected by the order, and would, meet the requirements of amended section 211 of the FPA.

The Commission's policy statement in Public Law 93-3, Policy Statement Regarding Good Faith Requests for Transmission Services and Responses by Transmitting Utilities under sections 211(a) and 213(a) of the Federal Power Act, as amended, implemented a data exchange between a transmission requester and a transmitting utility prior to the submission of a section 211 request with the Commission. Components of the data exchange are identified in the Code of Federal Regulations (CFR), 18 CFR 2.20. The general policy sets forth standards by which the Commission determines whether and when a valid good faith request for transmission has been made under section 211 of the FPA. In developing the standards, the Commission sought to encourage an open exchange of information with a reasonable degree of specificity and completeness between the party requesting transmission services and the transmitting utility. As a result, twelve components of a good faith estimate are identified under 18 CFR 2.20.

5. *Respondent Description:* The respondent universe currently comprises 8 companies (on average) subject to the Commission's jurisdiction.

6. *Estimated Burden:* 800 total hours, 8 respondents (average), 1 response per respondent, and 100 hours per response (average).

7. *Estimated Cost Burden to respondents:* 800 hours/2080 hours per years × \$112,767 per year = \$43,372. The cost per respondent is equal to \$5,421.

Statutory Authority: Sections 211 and 213 of the Federal Power Act as amended and added by the Energy Policy Act 1992.

Magalie R. Salas,

Secretary.
