

Background

The Institute of Museum and Library Services is an independent Federal grant-making agency authorized by the Museum and Library Services Act, Public Law 104-208, as amended. The IMLS provides a variety of grant programs to assist the nation's museums and libraries in improving their operations and enhancing their services to the public. Museums and libraries of all sizes and types may receive support from IMLS programs.

The Museum and Library Services Act, 20 U.S.C. Section 9101, *et seq.* authorizes the Director of the Institute of Museum and Library Services to make grants to museums and other entities as the Director considers appropriate. In addition, the National Museum of African American History and Culture Act (the "Act") authorizes the Director of the Institute of Museum and Library Services to establish grant and scholarship programs to improve operations, care of collections, and development of professional management of African American museums throughout the country, and to establish grant programs with the purpose of providing internship and fellowship opportunities at African American Museums. See, generally, 20 U.S.C. Section 80r-5(b). The Institute's new Program is developed pursuant to the provisions of this Act.

I. The National Museum of African American History and Culture Act Authorizes the Institute To Develop, Among Other Things, the Following

(A) A grant program with the purpose of improving operations, care of collections, and development of professional management at African American museums;

(B) A grant program with the purpose of providing internship and fellowship opportunities at African American museums. 20 U.S.C. 80r-5(b). Pursuant to this authority, IMLS proposes the program of grants to support and enhance African American museums throughout the country.

IMLS received comments that the program guidelines support the current needs of the African American museum community and also reflect the needs of museums generally. IMLS was urged to monitor the program's implementation to measure systematic change and to consider the program as a test bed to develop approaches appropriate to improving operations within other museum communities. IMLS agrees that the program has the potential to effect systematic change and will plan

effective monitoring and evaluation strategies.

IMLS received questions about the eligibility criteria. IMLS has revised the criteria to clarify eligibility status.

The need for technical assistance, particularly for the smaller museums, was noted. IMLS agrees and will extend to this program the types of technical assistance provided to potential applicants in other IMLS programs.

II. Current Actions

To administer this program of grants, IMLS must develop application guidelines.

NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Submission for the Office of Management and Budget (OMB) Review; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of the OMB review of information collection and solicitation of public comment.

SUMMARY: The NRC has recently submitted to OMB for review the following proposal for the collection of information under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35). The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond

NATIONAL SCIENCE FOUNDATION

Committee Management Renewal

The NSF management officials having responsibility for the Advisory Committee for Environmental Research and Education (#9487) have determined that renewing this group for another two years is necessary and in the public interest in connection with the performance of duties imposed upon the Director, National Science foundation by 42 U.S.C. 1861 *et seq.* This determination follows consultation with the Committee Management Secretariat, General Services Administration.

Authority for this Committee will expire on April 19, 2006, unless they are renewed. For more information contact Susanne Bolton at (703) 292-7488.

to, a collection of information unless it displays a currently valid OMB control number.

1. *Type of submission, new, revision, or extension:* Extension.

2. *The title of the information collection:* Requests to Non-Agreement States for Information.

3. *The form number if applicable:* Not applicable.

4. *How often the collection is required:* 6 times per year.

5. *Who will be required or asked to report:* The 18 States (16 Non-Agreement States and 2 territories, the District of Columbia and the Commonwealth of Puerto Rico) that have not signed 274(b) Agreements with NRC. **Note:** Minnesota became an Agreement State effective March 31, 2006.

6. *An estimate of the number of annual responses:* 108.

7. *The estimated number of annual respondents:* 18 States (16 Non-Agreement States and 2 territories, the District of Columbia and Commonwealth of Puerto Rico).

8. *An estimate of the total number of hours needed annually to complete the requirement or request:* 891 hours.

9. *An indication of whether section 3507(d), Public Law 104-13 applies:* Not applicable.

10. *Abstract:* Requests may be made of States that are similar to those of Agreement States to provide a more complete overview of the national program for regulating radioactive materials. This information would be used in the decisionmaking of the Commission. With Agreement States and as part of the NRC cooperative post-agreement program with the States pursuant to section 274(b), information on licensing and inspection practices, and/or incidents, and other technical and statistical information are exchanged. Agreement State comments are also solicited in the areas of proposed implementing procedures relative to NRC Agreement State program policies. With the enactment of the Energy Policy Act of 2005, specifically section 651(e), NRC now has regulatory authority over use of accelerator-produced radioactive materials and discrete sources of radium-226 and other naturally occurring radioactive material as specified by the Commission. Therefore, information requests sought may take the form of surveys, e.g., telephonic and electronic surveys/polls and facsimiles.

NUCLEAR REGULATORY COMMISSION

NRC Enforcement Policy: Extension of Discretion Period of Interim Enforcement Policy

AGENCY: Nuclear Regulatory Commission.

ACTION: Policy Statement: Revision.

SUMMARY: The Nuclear Regulatory Commission (NRC) is revising the NRC "Interim Enforcement Policy Regarding Enforcement Discretion for Certain Fire Protection Issues," to extend the enforcement discretion period to 3 years for those licensees that commit to transition to 10 CFR 50.48(c), and to provide clarification and enhancements predominately in the areas of existing non-compliances and the treatment of non-compliances if a licensee withdraws from the transition.

DATES: This revision is effective April 18, 2006. Comments on this revision to the Enforcement Policy may be submitted on or before May 18, 2006.

ADDRESSES: Submit written comments to: Michael T. Lesar, Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mail Stop: T6D59, U.S. Nuclear Regulatory Commission,

Washington, DC 20555-0001. Hand-deliver comments to: 11555 Rockville Pike, Rockville, MD 20852, between 7:30 a.m. and 4:15 p.m., Federal workdays. Copies of comments received may be examined at the NRC Public Document Room, Room O1F21, 11555 Rockville Pike, Rockville, MD 20852. You may also e-mail comments to nrcprep@nrc.gov.

The NRC maintains the current Enforcement Policy on its Web site at <http://www.nrc.gov>, select "What We Do," then "Enforcement Policy."

FOR FURTHER INFORMATION CONTACT: Michael Johnson, Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, (301) 415-2741, e-mail mrj1@nrc.gov.

SUPPLEMENTARY INFORMATION: On June 16, 2004, the NRC published, in the **Federal Register**, a final rule amending 10 CFR 50.48 (69 FR 33536). This rule became effective on July 16, 2004, and allows licensees to adopt 10 CFR 50.48(c), a voluntary risk-informed, performance-based alternative to current fire protection requirements. The NRC concurrently revised its Enforcement Policy (69 FR 33684) to provide interim enforcement discretion during a "transition" period. The interim enforcement discretion policy includes provisions to address: (1) Noncompliances identified during the licensee's transition process; and (2) existing identified noncompliances.

In accordance with the current Enforcement Policy, for those noncompliances identified during the transition to 10 CFR 50.48(c), the enforcement discretion policy will be in effect for up to 2 years from the date of a licensee's letter of intent to adopt the requirements of 10 CFR 50.48(c). In addition, when the licensee submits a license amendment request to complete the transition to 10 CFR 50.48(c), the enforcement discretion will continue in effect until the NRC completes its review of the license amendment request.

The second element of the interim policy provides enforcement discretion for licensees that wish to take advantage of the rule to resolve existing noncompliances. The original rule required licensees wishing to take advantage of this interim policy to submit a letter of intent to adopt 10 CFR 50.48(c), within 6 months of the effective date of the final rule. However, the Nuclear Energy Institute (NEI) (ADAMS Accession No. ML042010132) sent a letter dated July 7, 2004, requesting that the NRC extend the deadline for the letter of intent to be
