

the decision must demonstrate that the vehicle is equipped with an occupant crash protection system that conforms to the standard.

(8) FMVSS No. 209 *Seat Belt Assemblies*: The petition stated that the seat belt assemblies in the non-U.S. certified model are identical to those in the U.S. certified model. VW stated that the rear seat belt load limiters in the non-U.S. certified model vehicles had not been certified to the requirements of FMVSS No. 209. Web responded that rear seat belts and load limiters that conform to the requirements of the standard will be installed in the vehicles.

NHTSA's Analysis: The modifications Web identified as needed to comply with the standard would not preclude the vehicle from being deemed eligible for importation. Conformity packages submitted for vehicles imported under the decision must demonstrate that the vehicle is equipped with seat belts that conform to the standard.

Conclusion

In view of the above considerations, NHTSA decided to grant the petition.

Vehicle Eligibility Number for Subject Vehicles

The importer of a vehicle admissible under any final decision must indicate on the form HS-7 accompanying entry the appropriate vehicle eligibility number indicating that the vehicle is eligible for entry. VSP-443 is the vehicle eligibility number assigned to vehicles admissible under this notice of final decision.

Final Decision

Accordingly, on the basis of the foregoing, NHTSA decided that 2003 Audi RS6 and RS6 Avant passenger cars that were not originally manufactured to comply with all applicable FMVSS, are substantially similar to 2003 Audi RS6 and RS6 Avant passenger cars originally manufactured for importation into and sale in the United States and certified under 49 U.S.C. 30115, and are capable of being readily altered to conform to all applicable FMVSS.
