[CFDA No.: 84.224C]

Assistive Technology Act of 1998, as Amended—Assistive Technology Alternative Financing Program

AGENCY: Office of Special Education and Rehabilitative Services, Department of Education.

ACTION: Notice of intent to fund down the grant slate for the Assistive Technology Act of 1998, as Amended (AT Act)—Assistive Technology Alternative Financing Program (AFP).

SUMMARY: The Secretary intends to use the grant slate developed for the AT Act AFP in Fiscal Year (FY) 2005 to make new grant awards in FY 2006. The Secretary takes this action because a significant number of high-quality applications remain on the last year's grant slate and limited funding is available for new grant awards in FY 2006.

FOR FURTHER INFORMATION CONTACT: Jeremy Buzzell, U.S. Department of Education, 400 Maryland Avenue, SW., room 5025, Potomac Center Plaza, Washington, DC 20202-2800. Telephone: (202) 245-7319.

SUPPLEMENTARY INFORMATION:

Background

On June 30, 2005, we published a notice in the **Federal Register** (70 FR 37794) inviting applications for new awards under the AT Act AFP. This notice indicated that the selection criteria, absolute priority, competitive preference priorities, and application requirements contained in the notice would apply to the FY 2005 grant competition only.

We received a significant number of applications for AFP grants in FY 2005 and made eight new grant awards. Because some applications that met the same standard as those that received funding did not receive funding last year and limited funding is available for new awards under this program in FY 2006, we intend to select grantees in FY 2006 from the existing slate of applicants. This slate was developed during the FY 2005 competition using the selection criteria, absolute priority, competitive preference priorities, and application requirements included in the June 30, 2005, notice. No changes to the selection criteria, absolute priority, competitive preference priorities, or application requirements will be required by this action.

ACTION: Notice and request for comments.

SUMMARY: The Department of Energy (DOE) invites public comment on a proposed collection of information that

DOE is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995. The proposed collection of information is in a final rule pertaining to test procedures for distribution transformers that DOE is publishing in the "Rules" section of today's **Federal Register**.

DATES: Consideration will be given to comments submitted by June 26, 2006.

ADDRESSES: Written comments may be submitted to: Department of Energy, Attn: Cyrus Nasser, Office of Energy Efficiency and Renewable Energy (EE-2J), Forrestal Building, 1000 Independence Ave., SW., Washington, DC 20585. (202) 586-9138, E-mail: cyrus.nasser@ee.doe.gov.

SUPPLEMENTARY INFORMATION:

Collection title: Test Procedures for Distribution Transformers.

Type of review: New collection.

OMB number: None.

Type of respondents: Manufacturers of low-voltage dry-type distribution transformers.

Estimated number of respondents: 57 companies.

Estimated total burden hours: 96 hours total per company per year; based on 56 hours of technician/technical work and 40 hours clerical work.

Frequency of recordkeeping or reporting: Recordkeeping: maintenance of (1) data and (2) calibration procedures and actions.

Abstract: DOE today is publishing a final rule that establishes test procedures for measuring the energy efficiency of distribution transformers, pursuant to sections 323(b)(10) and 346(a)(1) of the Energy Policy and Conservation Act. (42 U.S.C. 6293(b)(10) and 6317(a)(1)) (See "Rules" section of this issue of the **Federal Register**.) That rule contains the following recordkeeping requirements that must be approved by OMB pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) before manufacturers can be required to comply with them: (1) Section 431.197(a)(4)(i) would require manufacturers of distribution transformers to have records as to alternative efficiency determination methods available for DOE inspection; (2) section 6.2(f) of Appendix A to subpart K of Part 431 would require maintenance of calibration records; and (3) section 6.2(b) and (c) of Appendix A would require documentation of calibration procedures.

Request for Comments: Pursuant to 44 U.S.C. 3506(c)(2)(A), DOE invites comment on: (1) Whether the recordkeeping requirements in DOE's

final rule are necessary; (2) the accuracy of DOE's estimate of the burden of the proposed information collection; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who choose to respond. Additional information about DOE's proposed information collection may be obtained from the contact person named in this notice.
