

D. Arbitration Services—Pay Voucher for Personal Services

Type of Review: New Collection.

Title: Arbitration Services—Pay Voucher for Personal Services.

Frequency: On occasion.

Affected Public: Arbitrators.

Reporting and Recordkeeping Hour Burden:

Responses: Approximately 624 annually.

Burden Hours: 156.

Abstract: Section 153, First and Second of the Railway Labor Act, 45 U.S.C. 153, First and Second, provide that the NMB shall compensate arbitrators who resolve the resolves under these sections of the Act. After the work is performed, the arbitrator must submit a written request for compensation. This form is the vehicle used to request compensation and is necessary for the NMB to fulfill its financial responsibilities.

E. Neutral's Report of Activity

Type of Review: New Collection.

Title: Neutral's Report of Activity.

Frequency: On occasion.

Affected Public: Arbitrators.

Reporting and Recordkeeping Hour Burden:

Responses: Approximately 624 annually.

Burden Hours: 156.

Abstract: Section 153, First and Second of the Railway Labor Act, 45 U.S.C. 153, First and Second, provide that the parties may use an arbitrator to resolve their disputes concerning the application or interpretation of the provisions of a collective bargaining agreement. The NMB must record the decisions rendered by the arbitrators selected by the parties and compensated by the NMB. This form is used to gather that information. This brief information is necessary for the NMB to fulfill its responsibilities under the Railway Labor Act.

F. Arbitration Services—Personal Data Sheet

Type of Review: New Collection.

Title: Arbitration Services—Personal Data Sheet.

Frequency: On occasion.

Affected Public: Arbitrators.

Reporting and Recordkeeping Hour Burden:

Responses: 25 annually.

Burden Hours: 25.

Abstract: Sections 183 and 153 of the Railway Labor Act, 45 U.S.C., 153 and 183, provide for the use of arbitrators in the resolution of disputes concerning the application or interpretation of provisions of a collective bargaining

agreement in the airline and railroad industries. The NMB maintains a roster of arbitrators for this purpose. The NMB must have a means for interested individuals to apply for inclusion on this roster. This form is the application for inclusion on the NMB roster. The brief information that the NMB solicits is necessary to perform this responsibility under the Railway Labor Act.

Requests for copies of the proposed information collection request may be accessed from <http://www.nmb.gov> or should be addressed to Roland Watkins, Director of Arbitration Services NMB, 1301 K Street NW., Suite 250 E, Washington, DC 20005 or addressed to the e-mail address arb@nmb.gov or faxed to 202-692-5086. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be directed to June D. W. King at 202-692-5010 or via Internet address king@nmb.gov.

Individuals who use a telecommunications device for the deaf (TDD/TDY) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

BILLING CODE 7550-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-280 and 50-281]

Virginia Electric and Power Company; Notice of Consideration of Issuance of Amendments to Facility Operating Licenses, Proposed No Significant Hazards Consideration Determination, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of amendments to Facility Operating License Nos. DPR-32 and DPR-37 issued to Virginia Electric and Power Company (the licensee) for operation of the Surry Power Station, Unit Nos. 1 and 2, located in Surry County, Virginia.

The proposed amendments would reinstate previous reactor coolant system (RCS) pressure and temperature (P/T) limits, low temperature overpressure protection system (LTOPS) setpoint, and LTOPS enable temperature basis.

Before issuance of the proposed license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

The Commission has made a proposed determination that the requested amendments involve no significant hazards consideration. Under the Commission's regulations in Title 10 of the Code of Federal Regulations (10 CFR), section 50.92, this means that operation of the facility in accordance with the proposed amendments would not (1) involve a significant increase in the probability or consequences of an accident previously evaluated; or (2) create the possibility of a new or different kind of accident from any accident previously evaluated; or (3) involve a significant reduction in a margin of safety. As required by 10 CFR 50.91(a), the licensee has provided its analysis of the issue of no significant hazards consideration, which is presented below:

1. Does the change involve a significant increase in the probability or consequences of an accident previously evaluated?

The proposed change does not impact the condition or performance of any plant structure, system or component. The proposed change does not affect the initiators of any previously analyzed event or the assumed mitigation of accident or transient events since the plant will be operated in the same manner and within the same operating limits that are currently in place. The proposed change merely restores the RCS P/T limit curves and LTOPS setpoint that were approved by the NRC prior to the issue of License Amendments 245/244, and which are currently in effect. As a result, the proposed change to the Surry TS [Technical Specifications] does not involve any increase in the probability or the consequences of any accident or malfunction of equipment important to safety previously evaluated since neither accident probabilities nor consequences are being affected by this proposed change.

2. Does the change create the possibility of a new or different kind of accident from any accident previously evaluated?

The proposed change does not involve any changes in station operation or physical modifications to the plant. In addition, no changes are being made in the methods used to respond to plant transients that have been previously analyzed. No changes are being made to plant parameters within which the plant is normally operated or in the setpoints, which initiate protective or mitigative actions, since the plant will be operated in the same manner and within the same operating limits that are currently in place. Since plant operation will not be affected by this change, no new failure modes are being introduced. Therefore, the proposed change to the Surry TS does not create the possibility of a new or different kind of accident or malfunction of equipment important to safety from any previously evaluated.

3. Does the change involve a significant reduction in the margin of safety?

The return to the previously approved RCS P/T operating limit curves and LTOPS

setpoint does not involve a significant reduction in the margin of safety. The proposed change does not impact station operation or any plant structure, system or component that is relied upon for accident mitigation. Furthermore, the margin of safety assumed in the plant safety analysis is not affected in any way by the proposed change since the plant will be operated in the same manner and within the same operating limits and setpoints that are currently in place. Therefore, the proposed change to the Surry [TSs] does not involve any reduction in a margin of safety.

The NRC staff has reviewed the licensee's analysis and, based on this review, it appears that the three standards of 10 CFR 50.92(c) are satisfied. Therefore, the NRC staff proposes to determine that the requested amendments involve no significant hazards consideration.

The Commission is seeking public comments on this proposed determination. Any comments received within 30 days after the date of publication of this notice will be considered in making any final determination.

Normally, the Commission will not issue the amendments until the expiration of 60 days after the date of publication of this notice. The Commission may issue the license amendments before expiration of the 60-day period provided that its final determination is that the amendments involve no significant hazards consideration. In addition, the Commission may issue the amendments prior to the expiration of the 30-day comment period should circumstances change during the 30-day comment period such that failure to act in a timely way would result, for example in derating or shutdown of the facility. Should the Commission take action prior to the expiration of either the comment period or the notice period, it will publish in the **Federal Register** a notice of issuance. Should the Commission make a final No Significant Hazards Consideration Determination, any hearing will take place after issuance. The Commission expects that the need to take this action will occur very infrequently.

Written comments may be submitted by mail to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. Written comments may also be delivered to Room 6D59, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland, from 7:30 a.m. to 4:15 p.m. Federal workdays.

Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland.

The filing of requests for hearing and petitions for leave to intervene is discussed below.

Within 60 days after the date of publication of this notice, the licensee may file a request for a hearing with respect to issuance of the amendments to the subject facility operating license and any person whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request for a hearing and a petition for leave to intervene. Requests for a hearing and a petition for leave to intervene shall be filed in accordance with the Commission's "Rules of Practice for Domestic Licensing Proceedings" in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309, which is available at the Commission's PDR, located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible from the Agencywide Documents Access and Management System's (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/doc-collections/cfr/>. If a request for a hearing or petition for leave to intervene is filed by the above date, the Commission or a presiding officer designated by the Commission or by the Chief Administrative Judge of the Atomic Safety and Licensing Board Panel, will rule on the request and/or petition; and the Secretary or the Chief Administrative Judge of the Atomic Safety and Licensing Board will issue a notice of a hearing or an appropriate order.

As required by 10 CFR 2.309, a petition for leave to intervene shall set forth with particularity the interest of the petitioner in the proceeding, and how that interest may be affected by the results of the proceeding. The petition should specifically explain the reasons why intervention should be permitted with particular reference to the following general requirements: (1) The name, address, and telephone number of the requestor or petitioner; (2) the nature of the requestor's/petitioner's right under the Act to be made a party to the proceeding; (3) the nature and extent of the requestor's/petitioner's property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the

requestors/petitioner's interest. The petition must also identify the specific contentions which the petitioner/requestor seeks to have litigated at the proceeding.

Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner/requestor shall provide a brief explanation of the bases for the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner/requestor must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. The petition must include sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner/requestor who fails to satisfy these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held. If the final determination is that the requested amendments involve no significant hazards consideration, the Commission may issue the amendments and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendments. If the final determination is that the requested amendments involve a significant hazards consideration, any hearing held would take place before the issuance of these amendments.

Nontimely requests and/or petitions and contentions will not be entertained absent a determination by the Commission or the presiding officer of the Atomic Safety and Licensing Board that the petition, request and/or the contentions should be granted based on a balancing of the factors specified in 10 CFR 2.309(c)(1)(i)-(viii).

A request for a hearing or a petition for leave to intervene must be filed by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; (2) courier, express mail, and expedited delivery services: Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852, Attention: Rulemaking and Adjudications Staff; (3) E-mail addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, HEARINGDOCKET@NRC.GOV; or (4) facsimile transmission addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC, Attention: Rulemaking and Adjudications Staff at (301) 415-1101, verification number is (301) 415-1966. A copy of the request for hearing and petition for leave to intervene should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and it is requested that copies be transmitted either by means of facsimile transmission to 301-415-3725 or by e-mail to OGCMailCenter@nrc.gov. A copy of the request for hearing and petition for leave to intervene should also be sent to Ms. Lillian M. Cuoco, Dominion Resources Services, Inc., Building 475, 5th Floor, Rope Ferry Road, Waterford, Connecticut 06385, attorney for the licensee.

For further details with respect to this action, see the application for amendments dated April 20, 2006, which is available for public inspection at the Commission's PDR, located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible from the Agencywide Documents Access and Management System's (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 21st day of April 2006.

For the Nuclear Regulatory Commission.
Stephen Monarque,
Project Manager, Plant Licensing Branch II-1, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Rectifications, Technical Corrections, and Conforming Changes to the Harmonized Tariff Schedule of the United States

AGENCY: Office of the United States Trade Representative.

ACTION: Rectifications, technical corrections, and conforming changes to the Harmonized Tariff Schedule of the United States.

SUMMARY: The United States Trade Representative (USTR) is making rectifications, technical corrections, and conforming changes to the Harmonized Tariff Schedule of the United States (HTS) as set forth in the annex to this notice, pursuant to authority delegated to the USTR in Presidential Proclamation 6969 of January 27, 1997 (62 FR 4415). These modifications correct several inadvertent errors and omissions in various Presidential Proclamations and make conforming changes to the HTS, as set forth herein, so that the intended tariff treatment is provided.

ADDRESSES: Office of the United States Trade Representative, 600 17th Street, NW., Washington, DC 20508.

DATES: *Effective Date:* As set forth in the Annex to this notice.

FOR FURTHER INFORMATION CONTACT: Elissa M. Alben, Assistant General Counsel, (202) 395-9622.

SUPPLEMENTARY INFORMATION: Pursuant to various statutes implementing trade agreements and to section 604 of the Trade Act of 1974, as amended (19 U.S.C. 2483), the President issued proclamations in order to reflect in the HTS the substance of those agreements and actions taken pursuant to such statutes. This notice corrects several inadvertent errors and omissions in the following Presidential Proclamations and makes conforming changes to the HTS, so that the intended tariff treatment is provided: (1) Presidential Proclamation 7616 of October 31, 2002, implementing the preferential tariff treatment authorized by the Andean Trade Promotion and Drug Eradication Act (the "ATPDEA"); (2) Presidential Proclamation No. 7747 of December 30,

2003 (68 FR 75793) implementing the United States-Singapore Free Trade Agreement; (3) Presidential Proclamation No. 7857 of December 20, 2004 (69 FR 77133) implementing the United States-Australia Free Trade Agreement; (4) Presidential Proclamation No. 7987 of February 28, 2006, implementing the Dominican Republic-Central America-United States Free Trade Agreement with respect to El Salvador; (5) Presidential Proclamation No. 7995 of March 31, 2006 (71 FR 16967) implementing the Agreement on Multi-Chip Integrated Circuits; and (6) Presidential Proclamation No. 7996 of March 31, 2006, implementing the Dominican Republic-Central America-United States Free Trade Agreement with respect to Honduras and Nicaragua.

Proclamation 6969 authorized the USTR to exercise the authority provided to the President under section 604 of the Trade Act of 1974 (19 U.S.C. 2483) to embody rectifications, technical or conforming changes, and similar modifications in the HTS. Under the authority vested in the USTR by Proclamation 6969, the rectifications, technical and conforming changes, and similar modifications set forth in the annex to this notice shall be embodied in the HTS with respect to goods entered, or withdrawn from warehouse for consumption, on or after the dates specified for the respective actions set forth in such annex.

Rob Portman,

United States Trade Representative.

Annex

Effective with respect to goods entered, or withdrawn from warehouse for consumption, on or after the dates specified below, the Harmonized Tariff Schedule of the United States is modified as provided herein. The subheadings and superior text of new tariff provisions are set forth in columnar format, and material in such columns is inserted in the columns of the HTS designated "Heading/Subheading", "Article Description", "Rates of Duty 1 General", and "Rates of Duty 2", respectively.

1. Effective with respect to goods of Singapore, under the terms of general note 25 to the tariff schedule, that are entered, or withdrawn from warehouse for consumption:

(A) Effective for such goods on or after January 1, 2004, general note 25(n) is modified by redesignating tariff classification rule (TCR) 72 to chapter 62 as TCR 74, by striking TCR 71, and by inserting in numerical sequence the following new TCRs:
