

for the initiation of an anticircumvention inquiry.

Accordingly, the Department is initiating a formal anticircumvention inquiry concerning the antidumping duty order on petroleum wax candles from the PRC, pursuant to section 781(a) of the Tariff Act. Based upon the information included in NCA's Request and its April 4, 2006 submission, as well as our analysis of relevant CBP import data, the Department is initiating this anticircumvention inquiry with respect to the following firms: DECOR-WARE, Inc., A&M Wholesalers, Inc., Albert E. Price, and Northern Lights Enterprises.¹ See Memorandum to the File, dated May 11, 2006 (placing business proprietary CBP data on the record of this proceeding). In accordance with 19 CFR 351.225(l)(2), if the Department issues a preliminary affirmative determination that imports of wax forms and other candle components are circumventing the order on petroleum wax candles from the PRC, we will instruct CBP to suspend liquidation and require a cash deposit of estimated duties on the merchandise subject to this inquiry from the date of initiation.

The Department notes that at this time it is initiating this inquiry solely with respect to the four firms listed above. Based on the record developed to date, the Department does not have sufficient evidence that other firms mentioned by NCA are engaging in the activities that NCA alleges are circumventing the Candles Order. See Memorandum to the File, dated May 11, 2006. However, if within 45 days of the date of this initiation, the Department receives sufficient evidence that other importers are importing wax forms for completion into finished candles in the United States, we will consider examining any such additional importers.

The Department will establish a schedule for questionnaires and comments on the issues. Pursuant to Section 781(f) of the Tariff Act, the Department intends to issue its final determination within 300 days from the date of signature of this initiation.

This notice is published in accordance with section 781(a) of the Tariff Act and 19 CFR 351.225.

Dated: May 11, 2006.

Assistant Secretary for Import
Administration.

Final Results of Countervailing Duty Administrative Review: Certain Hot-Rolled Carbon Steel Flat Products from India

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On January 10, 2006, the Department of Commerce (the Department) published in the **Federal Register** its preliminary results of administrative review of the countervailing duty (CVD) order on certain hot-rolled carbon steel flat products from India for the period January 1, 2004, through December 31, 2004. See *Notice of Preliminary Results of Countervailing Duty Administrative Review: Certain Hot-Rolled Carbon Steel Flat Products from India*, 71 FR 1512 (January 10, 2006) (*Preliminary Results*). The Department has now completed the administrative review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act).

Based on our analysis of the comments received, the Department has revised the net subsidy rate for Essar Steel Ltd. (Essar), the producer/exporter of subject merchandise covered by this review. For further discussion of our analysis of the comments received for these final results, see the May 10, 2006, Issues and Decision Memorandum from Stephen J. Claeys, Deputy Assistant Secretary for Import Administration, to David M. Spooner, Assistant Secretary for Import Administration, concerning the Final Results of Countervailing Duty Administrative Review: Certain Hot-Rolled Carbon Steel Flat Products from India (HRC Decision Memorandum 2004). The final net subsidy rate for Essar is listed below in "Final Results of Review."

EFFECTIVE DATE: May 17, 2006.

SUPPLEMENTARY INFORMATION:

Background

Pursuant to 19 CFR 351.213(b), this review covers only those producers or exporters of the subject merchandise for which a review was specifically requested. Accordingly, this review

covers only Essar. The review covers the period January 1, 2004, through December 31, 2004, and 11 programs. On January 10, 2006, the Department published in the **Federal Register** its preliminary results. See *Preliminary Results* at 71 FR 1512. We invited interested parties to comment on the results. On February 21, 2006, we received case briefs from both petitioner¹ and the respondent, Essar. On February 28, 2006, we received rebuttal briefs from petitioner and Essar. On March 2, 2006, a public hearing was held at the Department of Commerce with respect to Essar.

Scope of Order

The merchandise subject to this order is certain hot-rolled flat-rolled carbon-quality steel products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this order.

Specifically included in the scope of this order are vacuum-degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high-strength low-alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low-carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products included in the scope of this order, regardless of definitions in the Harmonized Tariff Schedule of the United States (HTSUS), are products in which: i) Iron predominates, by weight, over each of the other contained elements; ii) the carbon content is 2

¹ Petitioner in this case is United States Steel Corporation.

percent or less, by weight; and iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 1.80 percent of manganese, or
- 2.25 percent of silicon, or
- 1.00 percent of copper, or
- 0.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 1.25 percent of nickel, or
- 0.30 percent of tungsten, or
- 0.10 percent of molybdenum, or
- 0.10 percent of niobium, or
- 0.15 percent of vanadium, or
- 0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this order unless otherwise excluded. The following products, by way of example, are outside or specifically excluded from the scope of this order:

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including, *e.g.*, ASTM specifications A543, A387, A514, A517, A506).
- SAE/AISI grades of series 2300 and higher.
- Ball bearings steels, as defined in the HTSUS.
- Tool steels, as defined in the HTSUS.
- Silico-manganese (as defined in the HTSUS) or silicon electrical steel with a silicon level exceeding 2.25 percent.
- ASTM specifications A710 and A736.
- USS Abrasion-resistant steels (USS AR 400, USS AR 500).
- All products (proprietary or otherwise) based on an alloy ASTM specification (sample specifications: ASTM A506, A507).
- Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTSUS.

The merchandise subject to this order is currently classifiable in the HTSUS at subheadings: 7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30, 7208.27.00.60, 7208.36.00.30, 7208.36.00.60, 7208.37.00.30, 7208.37.00.60, 7208.38.00.15, 7208.38.00.30, 7208.38.00.90, 7208.39.00.15, 7208.39.00.30, 7208.39.00.90,

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this review are addressed in the HRC Decision Memorandum 2004, which is hereby adopted by this notice. A list of the issues contained in that decision memorandum is attached to this notice as Appendix I. Parties can find a complete discussion of the issues raised in this review and the corresponding recommendations in that public memorandum, which is on file in the Central Records Unit (CRU), room B-099 of the Main Commerce Building. The paper copy and electronic version of the decision memorandum are identical in content.

Final Results of Review

In accordance with section 705(c)(1)(B)(i) of the Act, we calculated an ad valorem net subsidy rate for Essar. For the period of review (POR), we determine the net subsidy rate to be 4.56 percent *ad valorem*.

We intend to issue liquidation instructions to U.S. Customs and Border Protection (CBP) for entries or exports made during the period January 1, 2004, through December 31, 2004. We will instruct CBP, within 15 days of publication of the final results of this review, to collect cash deposits of

estimated countervailing duties at 4.56 percent *ad valorem* of the f.o.b. price on all shipments of the subject merchandise from Essar, entered, or withdrawn from warehouse, for consumption on or after the date of publication of the final results.

We will instruct CBP to continue to collect cash deposits for non-reviewed companies at the most recent company-specific rate applicable to the company. Accordingly, the cash deposit rate that will be applied to non-reviewed companies covered by this order will be the rate for that company established in the investigation or the most recently completed administrative review. See *Notice of Amended Final Determination and Notice of Countervailing Duty Orders: Certain Hot-Rolled Carbon Steel Flat Products from India and Indonesia*, 66 FR 60200 (December 3, 2001). The "all others" rate shall apply to all non-reviewed companies until a review of a company assigned this rate is requested.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and this notice are issued and published in accordance with section 751(a)(1) and 777(i)(1) of the Act.
