FEDERAL RESERVE SYSTEM

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. The application also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act (12 U.S.C. 1843). Unless otherwise noted, nonbanking activities will be conducted throughout the United States. Additional information on all bank holding companies may be obtained from the National Information Center Web site at <http://www.ffiec.gov/nic/>.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than June 16, 2006.

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 639-5960 or send an e-mail to omb@cdc.gov. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

Evaluation of the Effectiveness of the Smoke Alarm Installation and Fire Safety Education (SAIFE) Program—New—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Each year approximately 400,000 residential fires occur in the United States. Smoke alarms have been shown to reduce fire-related injury and fatality. This project will use data from in-person interviews, paper and pencil (PAPI) and telephone surveys to determine the degree to which the Smoke Alarm Installation and Fire Safety Education (SAIFE) program improves knowledge, attitudes, and practices about fire and burn safety and its efficacy in delivering fire safety information. The data will be collected from a convenience sample of adults 18 years of age or older who volunteer to participate in the SAIFE program. Program participants will be asked to complete a 15-minute survey twice while taking part in the SAIFE program, once immediately before the intervention and 6 months after equipment installation. Approximately 10% of the respondents surveyed will be randomly selected for an extensive 1 hour face to face interview 6 months following the installation period. The evaluation will measure changes across time, between groups, and within groups among communities involved in the program. CDC currently funds 16 states to provide installation of smoke alarms plus general fire safety education

in households at high risk for fire and fire-related injury and death. Programs of this type are thought to prevent fire-related injury and mortality, but have not been studied scientifically to assess their impact on fire-related injury outcomes. The proposed study

represents the first formal effort to evaluate the effectiveness and cost implications of the SAIFE program as implemented in North Carolina. The data collected in this study will have the potential to impact other smoke alarm installation programs, as well as

indicate future priorities in prevention and preparedness for residential fires. There are no costs to the respondents other than their time. The total estimated annualized burden hours are 251.

ESTIMATED ANNUALIZED BURDEN HOURS

Respondents	No. of respondents	No. of responses per respondent	Average burden per response (in hours).
Adult male and female (age 18+ years) screened	425	1	5/60
Adult male and female (age 18+ years) Pre/Post Evaluation survey	360	2	15/60
Adult male and female (age 18+ years) household visit	36	1	1

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

Privacy Act of 1974; Report of a New System of Records

AGENCY: Centers for Medicare & Medicaid Services (CMS), Department of Health and Human Services (HHS).

ACTION: Notice of a New System of Records (SOR).

SUMMARY: In accordance with the requirements of the Privacy Act of 1974, we are proposing to establish a new SOR titled, "Organ Procurement Organizations System (OPOS), System No. 09-70-0575." The Organ Procurement Organization (OPO) Certification Act of 2000 (§ 701 of Pub. L. 106-505) directs the Secretary of HHS to establish regulations that provide the statutory qualifications and requirements that an OPO must meet in order for organ procurement costs to be reimbursed under the Medicare and Medicaid programs. As part of the efficient administration of this program, CMS is charged with the responsibility to conduct investigations, analysis, and reporting of adverse events that are described as an untoward, undesirable, and unanticipated event that causes death or serious injury. At this time, individually-identifiable data is only requested from OPOs under two circumstances: (1) Due to the suspicion that an infectious disease has been

transmitted to a recipient; and (2) when there has been a complaint alleged against an OPO. CMS regional office survey and certification staff would request individually-identifiable data to complete the investigation. Due to certain investigatory activities related to this system, CMS proposes to exempt this system from the notification, access, correction and amendment provisions of the Privacy Act of 1974.

The purpose of this system is to collect and maintain individually identifiable information pertaining to complaint allegations filed by a complainant, beneficiary, or providers of services made against OPOs, information gathered during the complaint investigation, findings and results of the investigation, and correspondence relating to the outcome of the investigation. Information retrieved from this system will also be disclosed to: (1) Support regulatory, reimbursement, and policy functions performed within the agency, or by a contractor, consultant or grantee; (2) assist another Federal or state agency in the enforcement of OPO regulations where sharing the information is necessary to complete the processing of a complaint, contribute to the accuracy of CMS's proper payment of Medicare benefits, and/or enable such agency to administer a Federal health benefits program; (3) support constituent requests made to a Congressional representative; and (4) support litigation involving the agency. We have provided background information about the modified system in the "Supplementary Information" section below. Although the Privacy Act requires only that CMS provide an opportunity for interested persons to comment on the proposed routine uses, CMS invites comments on all portions of this notice. See "Effective Dates" section for comment period.
