

components that are the subject of this notice that occur 90 days after the date of this notice must take place in accordance with the ITAR.

In addition, for purposes of analysis, the Department requires information from exporters who previously used the Department of Commerce procedures to export airframe parts and components common to the C-130 and L-100 aircraft. Exporters must provide a report to DDTC within 90 days of the effective date of this notice (see above section entitled **FOR FURTHER INFORMATION CONTACT** for contact information). Reports should be based on available records for the past five years and should specify the following: (1) The type of aircraft supported; (2) the estimated value of the parts exported; and (3) the end user countries to which the parts were exported. In addition, exporters have an affirmative duty to notify foreign parties in receipt of such airframe parts and components that any retransfer of these parts that occur 90 days from the date of this notice will require the authorization of the Directorate of Defense Trade Controls (DDTC) in accord with current regulation and practice.

As regards L-100 aircraft that were exported prior to the effective date of this notice under the terms of a Department of Commerce authorization, such exports will continue to be governed by the terms of such authorization so long as: (1) The aircraft continues to operate in the manner and for the purpose for which the Department of Commerce authorization was granted, (2) the aircraft is not modified, configured, or adapted for a military application, and (3) ownership of the aircraft is not transferred to a party in or from a third country. L-100 aircraft that do not meet these criteria are subject to the controls of the ITAR. In addition, exporters of L-100 aircraft must advise end users that, effective 90 days from the date of this notice, L-100 aircraft in their possession may not travel to or transit countries identified in Section 126.1 of the ITAR without the express approval of the Directorate of Defense Trade Controls (DDTC). Further, consistent with current practice, U.S. exporters seeking to export L-100 aircraft should consult with both the Departments of Commerce and State regarding jurisdictional licensing requirements.

This notice involves a foreign affairs function of the United States and, therefore, is not subject to the procedures required by 5 U.S.C. 553 and 554. It is exempt from review under Executive Order 12866; but has been reviewed internally within the

Department of State to ensure consistency with the purposes thereof. This rule does not require analysis under the Regulatory Flexibility Act or the Unfunded Mandates Reform Act. It has been found not be a major rule within the meaning of the Small Business Regulatory Enforcement Act of 1966. It will not have substantial direct effects on the States, the relationship between the National Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with section 6 of Executive Order 13132, it is determined that this rule does not have sufficient federalism implications to warrant application of Executive Orders Nos. 12372 and 13123. However, affected U.S. persons are invited to submit written comments to the Department of State, Office of Defense Trade Controls, ATTN: Stephen Tomchik, Regulatory Change, USML Category VIII, 12th Floor, SA-1, Washington, DC 20522.
