

the Updated Final Safety Analysis Report (UFSAR) to include a revision to the methodology for splicing reinforcing steel bars during restoration of the Unit 1 concrete shield building dome as part of the steam generator replacement project.

Date of issuance: April 27, 2006.

Effective date: As of the date of issuance and shall be implemented as part of the next UFSAR update made in accordance with 10 CFR 50.71(e).

Amendment No. 60.

Facility Operating License No. NPF-90: Amendment authorizes revision of the Updated Final Safety Analysis Report.

Date of initial notice in the Federal Register: January 4, 2005 (70 FR 405). The supplemental letters provided clarifying information that was within the scope of the initial notice and did not change the initial proposed no significant hazards consideration determination.

The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated April 27, 2006.

No significant hazards consideration comments received: No.

Wolf Creek Nuclear Operating Corporation, Docket No. 50-482, Wolf Creek Generating Station, Coffey County, Kansas

Date of amendment request: October 30, 2003, as supplemented by letters dated August 31 and November 18, 2005, and March 6, 2006.

Brief description of amendment: The amendment increases the completion times (CTs) for Technical Specification (TS) 3.8.1, "AC Sources—Operating," and adds requirements on the diesel generators at the Sharpe Station when a diesel generator at Wolf Creek Generating Station is in an extended CT greater than 72 hours. The proposed changes to TS 3.8.9, "Distribution Systems—Operating," are withdrawn. The amendment also revises a page in the license and adds conditions to Appendix D, "Additional Conditions," of the license.

Date of issuance: April 26, 2006.

Effective date: As of its date of issuance and shall be implemented within 90 days of the date of issuance.

Amendment No.: 163.

Facility Operating License No. NPF-42: The amendment revised the license including Appendix D, "Additional Conditions," and Appendix A, "Technical Specifications."

Date of initial notice in Federal Register: January 6, 2004 (69 FR 700).

The supplemental letters dated August 31 and November 18, 2005, and March 2, 2006, provided additional

information that clarified the application, did not expand the scope of the application as originally noticed, and did not change the NRC staff's original proposed no significant hazards consideration determination published in the **Federal Register**.

The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated April 26, 2006.

No significant hazards consideration comments received: No

Wolf Creek Nuclear Operating Corporation, Docket No. 50-482, Wolf Creek Generating Station, Coffey County, Kansas

Date of amendment request: November 3, 2005, and supplemental letters dated February 21 and March 28, 2006.

Brief description of amendment: The amendment revised the Technical Specifications associated with steam generator tube integrity consistent with Revision 4 to Technical Specification Task Force (TSTF) Standard Technical Specification Change Traveler, TSTF-449, "Steam Generator Tube Integrity." A notice of availability for this TS improvement using the consolidated line item improvement process was published in the **Federal Register** on May 6, 2005 (70 FR 24126).

Date of issuance: May 8, 2006.

Effective date: The license amendment is effective as of its date of issuance and shall be implemented prior to the entry into Mode 5 in the restart from Refueling Outage 15, which is scheduled to begin in October 2006.

Amendment No.: 164.

Facility Operating License No. NPF-42: The amendment revised the Technical Specifications.

Date of initial notice in Federal Register: December 6, 2005 (70 FR 72676) The supplemental letters dated February 21 and March 28, 2006, provided additional clarifying information, did not expand the scope of the application as originally noticed, and did not change the staff's original proposed no significant hazards consideration determination published in the **Federal Register**.

The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated May 8, 2006.

No significant hazards consideration comments received: No.

Dated at Rockville, Maryland, this 15th day of May 2006.

For the Nuclear Regulatory Commission

Catherine Haney,

Director, Division of Operating Reactor Licensing, Office of Nuclear Reactor Regulation.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Trade Policy Staff Committee; Initiation of Environmental Review of Proposed Free Trade Agreement Between the United States and Malaysia; Public Comments on Scope of Environmental Review

AGENCY: Office of the United States Trade Representative.

ACTION: Notice and request for comments.

SUMMARY: This publication gives notice that, pursuant to the Trade Act of 2002, and consistent with Executive Order 13141 (64 FR 63169) (Nov. 18, 1999) and its implementing guidelines (65 FR 79442), the Office of the United States Trade Representative (USTR), through the Trade Policy Staff Committee (TPSC), is initiating an environmental review of the proposed free trade agreement (FTA) between the United States and Malaysia. The TPSC is requesting written comments from the public on what should be included in the scope of the environmental review, including the potential environmental effects that might flow from the free trade agreement and the potential implications for U.S. environmental laws and regulations, and identification of complementarities between trade and environmental objectives such as the promotion of sustainable development. The TPSC also welcomes public views on appropriate methodologies and sources of data for conducting the review. Persons submitting written comments should provide as much detail as possible on the degree to which the subject matter they propose for inclusion in the review may raise significant environmental issues in the context of the negotiation.

DATES: Public comments should be received no later than July 7, 2006.

ADDRESSES:

Submissions by electronic mail: FR06017@ustr.eop.gov.

Submissions by facsimile: Gloria Blue, Executive Secretary, Trade Policy Staff Committee, at (202) 395-6143.

FOR FURTHER INFORMATION CONTACT: For procedural questions concerning public comments, contact Gloria Blue,

Executive Secretary, TPSC, Office of the USTR, 1724 F Street, NW., Washington, DC 20508, telephone (202) 395-3475. Questions concerning the environmental review should be addressed to Mara Burr or Carlos Pachon, Environment and Natural Resources Section, USTR, telephone (202) 395-7320.

SUPPLEMENTARY INFORMATION:

1. Background Information

On March 8, 2006, in accordance with section 2104(a)(1) of the Trade Act of 2002, the United States Trade Representative, Ambassador Robert Portman, notified Congress of the President's intent to enter into trade negotiations with Malaysia. Ambassador Portman outlined specific U.S. objectives for these negotiations in the notification letter to Congress. A copy of the letter is available at: http://www.ustr.gov/Trade_Agreements/Bilateral/Malaysia_FTA/Section_Index.html.

The TPSC also invited the public to provide written comments and/or oral testimony at a public hearing held May 3, 2006, to assist USTR in amplifying and clarifying negotiating objectives for the proposed FTA and to provide advice on how specific goods and services and other matters should be treated under the proposed agreement (see 71 FR 14558).

Malaysia is an upper middle income economy of 27 million people, with a GDP of almost \$250 billion in 2005. Malaysia is the United States' largest trading partner in Southeast Asia and our 10th largest trading partner in the world. The U.S. had more than \$44 billion in two-way trade with Malaysia in 2005, 60 percent more than our trade with India and about a quarter of our trade with Japan. Malaysia's economy has sustained rapid growth—an average of 5 percent a year for the past ten years—and presents opportunities for U.S. exporters. An FTA with Malaysia also will provide U.S. companies with a gateway to the dynamic Southeast Asian region—a market approaching \$3 trillion.

2. Environmental Review

USTR, through the TPSC, will perform an environmental review of the agreement pursuant to the Trade Act of 2002 and consistent with Executive Order 13141 (64 FR 63169) and its implementing guidelines (65 FR 79442).

Environmental reviews are used to identify potentially significant, reasonably foreseeable environmental impacts (both positive and negative), and information from the review can help facilitate consideration of

appropriate responses where impacts are identified. Reviews address potential environmental impacts of the proposed agreement and potential implications for environmental laws and regulations. The focus of the review is on impacts in the United States, although global and transboundary impacts may be considered, where appropriate and prudent.

3. Requirements for Submissions

In order to facilitate prompt processing of submissions, USTR strongly urges and prefers electronic (e-mail) submissions in response to this notice.

Persons making submissions by e-mail should use the following subject line: "FTA between the United States and Malaysia Environmental Review" followed by "Written Comments." Documents should be submitted as a WordPerfect, MSWord, or text (.TXT) file. Supporting documentation submitted as spreadsheets are acceptable as Quattro Pro or Excel. For any document containing business confidential information submitted electronically, the file name of the business confidential version should begin with the characters "BC-", and the file name of the public version should begin with the characters "P-". The "P-" or "BC-" should be followed by the name of the submitter. Persons who make submissions by e-mail should not provide separate cover letters; information that might appear in a cover letter should be included in the submission itself. To the extent possible, any attachments to the submission should be included in the same file as the submission itself, and not as separate files.

Written comments submitted in response to this request will be placed in a file open to public inspection pursuant to 15 CFR 2003.5, except business confidential information exempt from public inspection in accordance with 15 CFR 2003.6. Business confidential information submitted in accordance with 15 CFR 2003.6 must be clearly marked "BUSINESS CONFIDENTIAL" at the top of each page, including any cover letter or cover page, and must be accompanied by a nonconfidential summary of the confidential information. All public documents and nonconfidential summaries shall be available for public inspection in the USTR Reading Room. The USTR Reading Room is open to the public, by appointment only, from 10 a.m. to 12 noon and 1 p.m. to 4 p.m., Monday through Friday. An appointment to review the file must be scheduled at least 48 hours in advance

and may be made by calling (202) 395-6186.

USTR also welcomes and will take into account the public comments on environmental issues submitted in response to a previous notice—the **Federal Register** notice dated March 22, 2006 (71 FR 14558)—requesting comments from the public to assist USTR in formulating positions and proposals with respect to all aspects of the negotiation of an FTA between the United States and Malaysia, including environmental issues. These comments will also be made available for public inspection.

General information concerning the Office of the United States Trade Representative may be obtained by accessing its Internet Web site (<http://www.ustr.gov>).

Carmen Suro-Bredie,

Chair, Trade Policy Staff Committee.

BILLING CODE 3190-W6-P

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon written request, copies available from: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension:

Rule 6e-2 and Form N-6EI-1, SEC File No. 270-177, OMB Control No. 3235-0177.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget requests for extension of the previously approved collections of information discussed below.

Rule 6e-2 (17 CFR 270.6e-2) under the Investment Company Act of 1940 ("Act") is an exemptive rule that permits separate accounts, formed by life insurance companies, to fund certain variable life insurance products. The rule exempts such separate accounts from the registration requirements under the Act, among others, on condition that they comply with all but certain designated provisions of the Act and meet the other requirements of the rule. The rule sets forth several information collection requirements.

Rule 6e-2 provides a separate account with an exemption from the registration provisions of section 8(a) of the Act if
