

Rules and Regulations

Federal Register

Vol. 71, No. 100

Wednesday, May 24, 2006

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

7 CFR Part 301

[Docket No. APHIS–2006–0039]

Pine Shoot Beetle; Additions to Quarantined Areas; Wisconsin

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Interim rule and request for comments.

SUMMARY: We are amending the pine shoot beetle regulations by designating the State of Wisconsin, in its entirety, as a quarantined area based on the detection of new pine shoot beetle infested areas in the State, as well as its decision to no longer enforce intrastate movement restrictions. This action is necessary to prevent the spread of pine shoot beetle, a pest of pine trees, into noninfested areas of the United States.

DATES: This interim rule is effective May 24, 2006. We will consider all comments that we receive on or before July 24, 2006.

ADDRESSES: You may submit comments by any of the following methods:

- Federal eRulemaking Portal: Go to <http://www.regulations.gov> and, in the lower “Search Regulations and Federal Actions” box, select “Animal and Plant Health Inspection Service” from the agency drop-down menu, then click on “Submit.” In the Docket ID column, select APHIS–2006–0039 to submit or view public comments and to view supporting and related materials available electronically. Information on using Regulations.gov, including instructions for accessing documents, submitting comments, and viewing the docket after the close of the comment period, is available through the site’s “User Tips” link.

- Postal Mail/Commercial Delivery: Please send four copies of your comment (an original and three copies) to APHIS–2006–0039, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road Unit 118, Riverdale, MD 20737–1238. Please state that your comment refers to APHIS–2006–0039.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690–2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: Mr. Weyman Fussell, Program Manager, Pest Detection and Management Programs, PPQ, APHIS, 4700 River Road Unit 134, Riverdale, MD 20737–1231; (301) 734–5705.

SUPPLEMENTARY INFORMATION:

Background

The regulations in 7 CFR 301.50 through 301.50–10 (referred to below as the regulations) restrict the interstate movement of certain regulated articles from quarantined areas in order to prevent the spread of pine shoot beetle (PSB) into noninfested areas of the United States.

PSB is a pest of pine trees that can cause damage in weak and dying trees, where reproduction and immature stages of PSB occur. During “shoot feeding,” young beetles tunnel into the center of pine shoots (usually of the current year’s growth), causing stunted and distorted growth in host trees. PSB is also a vector of several diseases of pine trees. Factors that may result in the establishment of PSB populations far from the location of the original host tree include: (1) Adults can fly at least 1 kilometer, and (2) infested trees and pine products are often transported long distances. This pest damages urban ornamental trees and can cause economic losses to the timber, Christmas tree, and nursery industries.

PSB hosts include all pine species. The beetle has been found in a variety of pine species (*Pinus* spp.) in the United States. Scotch pine (*P. sylvestris*) is the preferred host of PSB. The Animal and Plant Health Inspection Service (APHIS) has determined, based on scientific data from European countries, that fir (*Abies* spp.), larch (*Larix* spp.), and spruce (*Picea* spp.) are not hosts of PSB.

The regulations in § 301.50–3 provide that the Administrator of APHIS will list as a quarantined area each State, or each portion of a State, in which PSB has been found by an inspector, in which the Administrator has reason to believe PSB is present, or that the Administrator considers necessary to regulate because of its inseparability for quarantine enforcement purposes from localities in which PSB has been found.

The regulations further provide that less than an entire State will be designated as a quarantined area only if the Administrator determines that: (1) The State has adopted and is enforcing a quarantine and regulations that impose restrictions on the intrastate movement of regulated articles that are equivalent to those imposed on the interstate movement of those articles and (2) the designation of less than the entire State as a regulated area will otherwise be adequate to prevent the artificial interstate spread of PSB.

In accordance with these criteria, the State of Wisconsin has contained nine counties designated as quarantined areas in the regulations. However, surveys¹ conducted by State and Federal inspectors have revealed that additional areas in the State of Wisconsin are infested with PSB, and the State has notified APHIS that it no longer wishes to enforce a quarantine and regulations on the intrastate movement of regulated articles within its borders. Therefore, we are amending § 301.50–3(c) to designate the State of Wisconsin, in its entirety, as a quarantined area.

Entities affected by this interim rule may include nursery stock growers, Christmas tree farms, logging operations, and others who sell, process, or move regulated articles. As a result of this interim rule, any regulated articles to be moved interstate from the State of

¹ Copies of the surveys may be obtained by writing to the individual listed under **FOR FURTHER INFORMATION CONTACT**.

Wisconsin must first be inspected and/or treated in order to qualify for a certificate or limited permit authorizing the movement.

Emergency Action

This rulemaking is necessary on an emergency basis to prevent PSB from spreading to noninfested areas of the United States. Under these circumstances, the Administrator has determined that prior notice and opportunity for public comment are contrary to the public interest and that there is good cause under 5 U.S.C. 553 for making this rule effective less than 30 days after publication in the **Federal Register**.

We will consider comments we receive during the comment period for this interim rule (see **DATES** above). After the comment period closes, we will publish another document in the **Federal Register**. The document will include a discussion of any comments we receive and any amendments we are making to the rule.

Executive Order 12866 and Regulatory Flexibility Act

This rule has been reviewed under Executive Order 12866. For this action, the Office of Management and Budget has waived its review under Executive Order 12866.

This emergency situation makes timely compliance with the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) impracticable. We are currently assessing the potential economic effects of this action on small entities. Based on that assessment, we will either certify that the rule will not have a significant economic impact on a substantial number of small entities or publish a regulatory flexibility analysis.

Executive Order 12372

This program/activity is listed in the Catalog of Federal Domestic Assistance under No. 10.025 and is subject to Executive Order 12372, which requires intergovernmental consultation with State and local officials. (See 7 CFR part 3015, subpart V.)

Executive Order 12988

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule: (1) Preempts all State and local laws and regulations that are inconsistent with this rule; (2) has no retroactive effect; and (3) does not require administrative proceedings before parties may file suit in court challenging this rule.

Paperwork Reduction Act

This interim rule contains no new information collection or recordkeeping requirements under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

List of Subjects in 7 CFR Part 301

Agricultural commodities, Plant diseases and pests, Quarantine, Reporting and recordkeeping requirements, Transportation.

■ Accordingly, we are amending 7 CFR part 301 as follows:

PART 301—DOMESTIC QUARANTINE NOTICES

■ 1. The authority citation for part 301 continues to read as follows:

Authority: 7 U.S.C. 7701–7772 and 7781–7786; 7 CFR 2.22, 2.80, and 371.3.

Section 301.75–15 also issued under Sec. 204, Title II, Pub. L. 106–113, 113 Stat. 1501A–293; sections 301.75–15 and 301.75–16 also issued under Sec. 203, Title II, Pub. L. 106–224, 114 Stat. 400 (7 U.S.C. 1421 note).

■ 2. In § 301.50–3, paragraph (c), the entry for Wisconsin is revised to read as follows:

§ 301.50–3 Quarantined areas.

* * * * *
(c) * * *

Wisconsin

The entire State.

Done in Washington, DC, this 18th day of May 2006.

W. Ron DeHaven,

Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410–34–P

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

7 CFR Part 301

[Docket No. APHIS–2006–0046]

Emerald Ash Borer; Quarantined Areas; Indiana, Michigan, and Ohio

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Interim rule and request for comments.

SUMMARY: We are amending the emerald ash borer regulations by adding areas in Indiana, Michigan, and Ohio to the list of areas quarantined because of emerald ash borer. As a result of this action, the interstate movement of regulated

articles from those areas is restricted. This action is necessary to prevent the artificial spread of the emerald ash borer from infested areas in the States of Indiana, Michigan, and Ohio into noninfested areas of the United States.

DATES: This interim rule was effective May 18, 2006. We will consider all comments that we receive on or before July 24, 2006.

ADDRESSES: You may submit comments by either of the following methods:

- Federal eRulemaking Portal: Go to <http://www.regulations.gov> and, in the lower “Search Regulations and Federal Actions” box, select “Animal and Plant Health Inspection Service” from the agency drop-down menu, then click on “Submit.” In the Docket ID column, select APHIS–2006–0046 to submit or view public comments and to view supporting and related materials available electronically. Information on using Regulations.gov, including instructions for accessing documents, submitting comments, and viewing the docket after the close of the comment period, is available through the site’s “User Tips” link.
- Postal Mail/Commercial Delivery:

Please send four copies of your comment (an original and three copies) to APHIS–2006–0046, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road Unit 118, Riverdale, MD 20737–1238. Please state that your comment refers to APHIS–2006–0046.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690–2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: Ms. Deborah McPartlan, Operations Officer, Pest Detection and Management Programs, PPQ, APHIS, 4700 River Road Unit 134, Riverdale, MD 20737–1236; (301) 734–4387.

SUPPLEMENTARY INFORMATION:

Background

The emerald ash borer (EAB) (*Agrilus planipennis*) is a destructive wood-boring insect that attacks ash trees (*Fraxinus* spp., including green ash, white ash, black ash, and several
