National Oceanic and Atmospheric Administration

[I.D. 051706A]

Stock Assessment of Dusky Shark in the U.S. Atlantic and Gulf of Mexico

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability.

SUMMARY: NMFS announces the availability of a stock assessment report on dusky sharks in the Atlantic and Gulf of Mexico, prepared by the NMFS Southeast Fisheries Science Center. The stock assessment summarizes the relevant biological data, discusses the fisheries affecting the species, and details the data and methods used to assess stock status. Some recommendations were also made regarding future avenues of research and issues to consider in future stock assessments.

ADDRESSES: Requests for copies of the report should be sent to Sarah McTee, Highly Migratory Species Management Division (F/SF1), National Marine Fisheries Service (NMFS), 1315 East-West Highway, Silver Spring, MD 20910, or may be sent via facsimile (fax) to 301-713-1917 or phone 301-713-2347. Electronic copies of the stock assessment may also be obtained on the internet at: http://www.sefscpanamalab.noaa.gov/shark/pdf/Dusky_Shark_Assessment.zip.

FOR FURTHER INFORMATION CONTACT: For information on the methods, data, and results of the stock assessment, contact Eric Cortes by phone at (850) 234-6541 or by fax at (850) 235-3559.

SUPPLEMENTARY INFORMATION: The dusky shark (*Carcharhinus obscurus*) is one of 19 species for which retention is prohibited under the Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks implemented and amended in 1999 and 2003, respectively. Due to potential

identification problems and catch data originating from a variety of sources, the magnitude of dusky shark catch has been difficult to ascertain. The dusky shark has not previously been individually assessed; however, low population growth rates, coupled with declines in both the catch per unit effort (CPUE) and size of individuals landed since the early 1990s, created concern that the dusky shark was being heavily exploited.

Using recent biological data on the growth and reproduction of dusky sharks, landing estimates from recreational and commercial fisheries, commercial bycatch estimates, four fishery-dependent and one fishery-independent relative abundance indices, a stock assessment was recently completed for the dusky shark. Results from the models used were very similar with all models showing the stock has been heavily exploited. The baseline analyses using surplus production models indicate that current depletions are over 80 percent of virgin biomass. The age-structured model provided the most optimistic results and indicated that the dusky shark population has been depleted by 62 to 80 percent of the unfished virgin biomass. The stock assessment summarizes the relevant biological data, discusses the fisheries affecting the species, and details the data and methods used to assess stock status. Some recommendations were also made regarding future avenues of research and issues to consider in future stock assessments.

Authority: 16 U.S.C. 971 *et seq.* and 1801 *et seq.*

Dated: May 22, 2006.

James P. Burgess,

BILLING CODE 3510-22-S

DEPARTMENT OF DEFENSE

Department of the Army

Record of Decision for the Clinical and Biological Defense Program (CBDP) Final Programmatic Environmental Impact Statement (FPEIS)

AGENCY: U.S. Army Medical Research and Materiel Command (USAMRMC), Department of the Army, DoD.

ACTION: Notice of Availability.

SUMMARY: The U.S. Army, as executive agent for the CBDP, announces that a Record of Decision (ROD) has been signed documenting the decision to execute an integrated CBDP designed to

protect our Soldiers, Sailors, Marines, and Airmen from the evolving chemical and biological (CB) threats they may encounter on the battlefield. The CBDP does not pursue effective CB weapon capability and its execution is in full compliance with both international and domestic law including, but not limited to, the *Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction and the Biological Weapons Antiterrorism Act*. The FPEIS evaluates the potential environmental impacts associated with the execution of the DoD CBDP. The No Action Alternative, continuation of current CBDP operations, was also evaluated. No other alternatives were identified during the public scoping process. Neither the selected action nor the No Action Alternative would result in the occurrence of significant adverse environmental impacts.

ADDRESSES: Requests for copies of the ROD may be made to Ms. JoLane Souris, Command Environmental Coordinator, U.S. Army Medical Research and Materiel Command, Office of Surety, Safety, and Environmental, 504 Scott Street, Fort Detrick, MD 21702-5012 or by visiting the CBDP PEIS Web site at <http://chembioeis.detrack.army.mil>.

FOR FURTHER INFORMATION CONTACT: Ms. JoLane Souris, by calling (301) 619-2004; or by fax at (301) 619-6627.

SUPPLEMENTARY INFORMATION: Prior to 2003, the mission of the DoD CBDP was to provide CB defense capabilities to allow the military forces of the United States to survive and successfully complete their operational missions in battle space environments contaminated with CB warfare agents. Now this mission has expanded to cover military capability to operate in the face of threats in homeland security missions, as well as warfighter missions. If our military forces are not fully and adequately prepared to meet these threats, the consequences could be devastating. The CBDP to support this mission comprises research, development, and acquisition activities. Each of the Military Services, the Joint Program Executive Office for Chemical and Biological Defense, and the Defense Advanced Research Projects Agency conduct CBDP activities. Some of these CBDP activities necessarily involve the use of hazardous chemicals or infectious disease agents for research, development, and production purposes. The controls on and the potential environmental consequences of such use for both the proposed action and the alternative were primary focuses of the

CBDP FPEIS that can be found at <http://chembioeis.detrick.army.mil>.

Although numerous environmental documents dating back to the Biological Defense Research and Development Program Final Programmatic Environmental Impact Statement (April 1989) have been prepared analyzing the potential environmental consequences of various elements of the CBDP, no one document analyzes the potential environmental impacts of the full range of CBDP activities. In keeping with the purposes of the National Environmental Policy Act, DoD prepared such a document in the form of the CBDP FPEIS. This document creates an overarching framework that will continue to ensure fully informed government decisionmaking within the CBDP and will provide a single, up-to-date information resource for the public.

Dated: May 19, 2006.

Addison D. Davis, IV

*Deputy Assistant Secretary of the Army,
(Environment, Safety and Occupational
Health) OASA (I&E).*

BILLING CODE 371-08-M

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The IC Clearance Official, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before July 24, 2006.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The IC Clearance Official, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each

proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.

Dated: May 19, 2006.

Angela C. Arrington,

IC Clearance Official, Regulatory Information Management Services, Office of Management.

Office of Planning, Evaluation and Policy Development

Type of Review: Revision.

Title: National Evaluation of the Voluntary Public School Choice Program.

Frequency: Annually.

Affected Public: State, Local, or Tribal Gov't, SEAs or LEAs; Federal Government.

Reporting and Recordkeeping Hour Burden:

Responses: 967.

Burden Hours: 1,106.

Abstract: The Voluntary Public School Choice (VPSC) Program is helping selected school districts to establish or expand public school choice initiatives, to provide options for parents to secure a high quality education for their children, and especially options for students in low-performing schools to transfer to higher performing schools.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, by selecting the "Browse Pending Collections" link and by clicking on link number 3081. When you access the information collection, click on "Download Attachments" to view. Written requests for information should be addressed to U.S. Department of Education, 400 Maryland Avenue, SW., Potomac Center, 9th Floor, Washington, DC 20202-4700. Requests may also be

electronically mailed to ICDocketMgr@ed.gov or faxed to 202-245-6623. Please specify the complete title of the information collection when making your request.

Comments regarding burden and/or the collection activity requirements should be electronically mailed to ICDocketMgr@ed.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP97-168-006]

Alliance Pipeline L.P.; Notice of Application

May 19, 2006.

Take notice that on May 9, 2006, Alliance Pipeline L.P. (Alliance), 6385 Old Shady Oak Road, Suite 150, Eden Prairie, Minnesota 55344, filed, in Docket No. CP97-168-006, an application pursuant to section 7 of the Natural Gas Act and Part 157 of the Commission's regulations requesting amended certificate authority to increase the maximum allowable operating pressure of its pipeline system, located in North Dakota, Minnesota, Iowa, and Illinois, without significantly increasing the capacity of the system, all as more fully set forth in the application which is on file with the Commission and open for public inspection. These filings are available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding this application should be directed to Michael L. McGonagill, Vice President-U.S. Operations, Alliance Pipeline L.P., 6385 Old Shady Oak Road, Suite 150, Eden Prairie, Minnesota, at Phone: (952) 983-1003, or FAX: (952) 944-9167.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party
