

existing plans and policies of adjacent local, state, and Federal agencies, to the extent possible.

8. A collaborative approach to public and agency participation will be used throughout the planning process. The Taos RMP Revision planning team will work collaboratively with county, municipal and Tribal governments; other Federal, state and local agencies; interested individuals and groups; and other BLM staff groups.

9. The Economic Profile System (EPS) will be used as one source of demographic and economic data for the planning process. EPS data will provide important baseline data and contribute to estimates of existing and future (projected) social and economic conditions. Socio-cultural and economic analysis will subsequently be performed to identify impacts of the potential management alternatives on the diverse populations within the planning area.

10. As required in the Land Use Planning Handbook H-1610-1, EPS workshops will be conducted with community participants from Santa Fe and Rio Arriba Counties. These workshops will be held to foster strong working relationships with county residents and to share information and perspectives about local economic conditions.

11. The RMP Revision process will foster participation of Native American tribal governments and will provide strategies for protection of cultural resources and traditional cultural practices on public lands.

12. The RMP Revision process will emphasize focused, collaborative work with communities to identify public lands and resources upon which they currently rely and/or will rely in the future. This work will center on identifying current and future land use and land ownership patterns that support communities while meeting BLM's overarching mission and goals, and identifying areas with potential for a modified or new special designation status and associated benefits to local communities, the general public and BLM.

13. The RMP Revision will recognize valid existing rights related to the use of public lands.

The BLM will use an interdisciplinary approach to develop the plan revision in order to consider the variety of resource issues and concerns identified.

Specialists with expertise in the following disciplines will be involved in the planning process: sociology and economics; archaeology; paleontology; lands and realty; outdoor recreation; visual resource management; transportation management; minerals

and geology; vegetation management (including forest and fire ecology); hydrology; soils; wildlife and Threatened and Endangered species management; and fisheries.

## INTERNATIONAL TRADE COMMISSION

### Proposed Agency Information Collection; Comment Request

**AGENCY:** United States International Trade Commission.

**ACTION:** Notice of proposed information collection and request for comment.

**DATES:** *Effective Date:* May 19, 2006.

**SUMMARY:** Pursuant to the Paperwork Reduction Act of 1995, the U.S. International Trade Commission intends to seek approval from the Office of Management and Budget for a three-year extension of the currently approved DataWeb user registration form (OMB No.: 3117-0190) in connection with the ITC DataWeb. The user registration form is required to accurately analyze usage and data reports generated by user sectors and to save user product and country lists for user reference during future logins.

Comments concerning the proposed information collection are requested in accordance with 5 CFR 1320.8(d).

**DATES:** To be assured of consideration, written comments must be received not

later than 60 days after publication of this notice.

**ADDRESSES:** Signed comments should be submitted to Marilyn Abbott, Secretary, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. All comments should be specific, indicating which part of the form is objectionable, describing the concern in detail, and including specific suggested revisions or language changes.

**FOR FURTHER INFORMATION CONTACT:** A copy of the proposed form is available on the internet at [http://dataweb.usitc.gov/scripts/user\\_set.asp](http://dataweb.usitc.gov/scripts/user_set.asp) under "Create New Account". A copy of the draft Supporting Statement to be submitted to the Office of Management and Budget may be obtained from Peg MacKnight, Office of Operations, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436 (telephone no. 202-205-343; e-mail [peggy.macknight@usitc.gov](mailto:peggy.macknight@usitc.gov)).

### Request for Comments

Comments are solicited as to (1) whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed information collection, including the validity of the methodology and assumptions used; (3) the quality, utility, and clarity of the information to be collected; and (4) minimization of the burden of the proposed information collection on those who are to respond (including through the use of appropriate automated, electronic, mechanical, or other forms of information technology, e.g., permitting electronic submission of responses).

### Summary of the Proposed Information Collection

The forms are for use by the Commission in connection with the ITC DataWeb. The ITC DataWeb provides on-line, rapid and customized retrieval of U.S. trade and tariff data and has been an Internet tool primarily for government users. The user registration forms are required to accurately track usage, data reports generated, and costs by user sectors and to save user product and country lists for user reference during future logins. The forms appear on the ITC DataWeb internet site (<http://dataweb.usitc.gov>) and need to be filled out only once.
