### Federal Energy Regulatory Commission

[Docket Nos. EL06-61-000, EL06-71-000]

**Before Commissioners: Joseph T. Kelliher, Chairman; Nora Mead Brownell, and Suedeen G. Kelly; Associated Electric Cooperative, Inc., Complainant v. Southwest Power Pool, Inc., Respondent; Order Denying Complaint and Instituting Section 206 Proceeding**

Issued May 19, 2006.

1. Associated Electric Cooperative, Inc. (Associated Electric) filed a

complaint against Southwest Power Pool, Inc. (SPP), arguing that SPP violated its Open Access Transmission Tariff (OATT) in granting a rollover request by American Electric Power Service Corporation, as agent for the subsidiaries of the American Electric Power Company, Inc. d/b/a AEP (collectively, AEP) for 250 megawatts (MW) of long-term firm point-to-point transmission service from the Union Electric Company d/b/a Ameren UE (Ameren UE) transmission system to the Central and South West Services, Inc. (CSW) transmission system. In this order, the Commission denies Associated Electric's complaint. In this order, the Commission also institutes a proceeding pursuant to section 206 of the Federal Power Act (FPA)<sup>1</sup> to determine whether certain language in section 2.2 of SPP's existing OATT may be unjust, unreasonable, or unduly discriminatory or preferential. SPP is directed to file comments on this matter within 30 days of the issuance date of this order.

#### Associated Electric's Complaint

2. Associated Electric contends that it is not possible for SPP to grant AEP's rollover request for 250 MW of long-term firm service to begin on June 1, 2005, because SPP no longer has the rights to the underlying contract path needed to provide such service. Associated Electric states that the preceding AEP service arrangements to be rolled over relied on a contract path provided by an Interchange Agreement dated September 22, 1971, as amended December 31, 1996, among Associated Electric, Kansas Gas and Electric Company, Public Service Company of Oklahoma, and Union Electric Company for the Missouri-Kansas-Oklahoma 345kV interconnection (MoKanOk Line), which agreement was terminated effective June 1, 2005,<sup>2</sup> the same day AEP's requested service was to begin.

3. Associated Electric states that without the MoKanOk Line available to SPP to support AEP's rollover request, SPP should not have granted AEP's request without first determining if sufficient Available Flowgate Capacity (AFC) existed to continue to provide the service.<sup>3</sup> Associated Electric further states that, alternatively, SPP should

<sup>1</sup> 16 U.S.C. 824e (2000).

<sup>2</sup> See *Union Electric Co.*, 112 FERC ¶ 61,089, order denying clarification, 113 FERC ¶ 61,320 (2005).

<sup>3</sup> Associated Electric argues that the initial 1998 Transmission Agreements for the 250 MW of service and subsequent service requests plainly indicate that SPP's grant of AEP's requested rollover is dependent upon the MoKanOk Line. Complaint at 13-17.

have considered AEP's request for a new transmission service request and processed it pursuant to the procedures for handling new service requests under SPP's OATT.

4. Associated Electric states that SPP was obliged under section 15.2 (Determination of Available Transmission Capability), section 19.1 (Additional Study Procedures for Firm Point-to-Point Transmission Service Requests—Notice of Need for System Impact Study), and Attachment D (Methodology for Completing a System Impact Study) of SPP's OATT, to perform a study to determine whether sufficient transmission capability existed to accommodate AEP's service request. Associated Electric contends that by rolling over AEP's service without first determining the sufficiency of AFC, SPP has adversely affected the reliability of Associated Electric's system and neighboring systems. Associated Electric, however, is unable to quantify the financial impact of SPP's action.<sup>4</sup>

5. Associated Electric alleges that SPP's reliance on section 2.2 (Reservation Priority for Existing Firm Service Customers) of its OATT was misplaced because the cost of Associated Electric's portion of the MoKanOk Line was not included as part of the SPP firm transmission service rates that AEP had been paying.

6. Associated Electric requests that the Commission (1) determine it was inappropriate for SPP to grant AEP's rollover request without studying the AFC in the region; (2) order SPP to conduct a study of the AFC on SPP and neighboring transmission systems, including Associated Electric, to determine if there is sufficient AFC to support AEP's request; (3) order SPP to rescind AEP's service and treat it as a new request, if SPP is unable to demonstrate sufficient AFC; and (4) order SPP to coordinate with the neighboring transmission system owners with respect to all future awards of transmission capacity under its OATT that may effect neighboring systems.

#### Notice of Filing and Responsive Pleadings

7. Notice of the complaint was published in the **Federal Register**, 71 FR 16,137 (2006), with comments, interventions, and protests due on or before April 10, 2006. Lafayette Utilities System, Ameren Services Company, Western Farmers Electric Cooperative, and AEP filed timely motions to intervene. Xcel Energy Service Inc.
