

U.S. affiliate are fewer and less complex than the selling functions VMB performs for either LOT in the home market. Compared to U.S. sales, the chain of distribution in the home market is at a level much more advanced. For example, many sales to distributors go through unaffiliated warehouses and VMB provides after-sales services to end-users. In contrast, VMB's selling functions for U.S. sales end with delivery at the port of entry.

Accordingly, because the data available do not provide an appropriate basis for making a LOT adjustment, but the LOT in the home market is at a more advanced stage of distribution than the LOT of the CEP transactions, we preliminarily determine that a CEP offset adjustment is appropriate, in accordance with section 773(a)(7)(B) of the Act.

Currency Conversion

We made currency conversions into U.S. dollars, in accordance with section 773A(a) of the Act, based on the exchange rates in effect on the dates of the U.S. sales, as certified by the Federal Reserve Bank.

Preliminary Results of Review

As a result of our review, we preliminarily determine the weighted-average dumping margin for the period August 1, 2004, through July 31, 2005, to be as follows:

Manufacturer / Exporter	Margin (percent)
V & M do Brasil, S.A.	0.00

The Department will disclose calculations performed in connection with these preliminary results of review within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b). Interested parties may submit case briefs and/or written comments no later than 30 days after the date of publication of these preliminary results of review. Rebuttal briefs and rebuttals to written comments, limited to issues raised in the case briefs and comments, may be filed no later than 35 days after the date of publication of this notice. Parties who submit argument in these proceedings are requested to submit with the argument: 1) a statement of the issue, 2) a brief summary of the argument, and (3) a table of authorities. An interested party may request a hearing within 30 days of publication. *See* section 351.310(c) of the Department's regulations. Any hearing, if requested, will be held 37 days after the date of publication, or the first business day thereafter, unless the Department alters

the date. The Department will issue the final results of these preliminary results, including the results of our analysis of the issues raised in any such written comments or at a hearing, within 120 days of publication of these preliminary results.

Assessment Rates

Upon completion of this administrative review, the Department will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.212(b)(1), we have calculated an importer-specific *ad valorem* rate for merchandise subject to this review. The Department will issue appropriate assessment instructions directly to CBP within 15 days of publication of the final results of review. If these preliminary results are adopted in the final results of review, we will direct CBP to liquidate entries subject to this review without regard to antidumping duties.

The Department clarified its "automatic assessment" regulation on May 6, 2003. *See Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003). This clarification will apply to entries of subject merchandise during the POR produced by the company included in these preliminary results for which the reviewed company did not know their merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company involved in the transaction.

Cash Deposit Requirements

The following deposit requirements will be effective upon completion of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(1) of the Act: (1) The cash deposit rate will be the rate established in the final results of this review; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will be the company-specific rate established for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the less than fair value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the subject merchandise; and (4) if

neither the exporter nor the manufacturer is a firm covered in this review, any previous reviews, or the LTFV investigation, the cash deposit rate will be 124.94 percent, the "all others" rate established in the LTFV investigation. *See Notice of Antidumping Duty Order and Amended Final Determination: Certain Small Diameter Seamless Carbon and Alloy Steel Standard, Line and Pressure Pipe from Brazil*, 60 FR 39707 (August 3, 1995). These deposit rates, when imposed, shall remain in effect until publication of the final results of the next administrative review.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: May 19, 2006.

David M. Spooner,
Assistant Secretary for Import
Administration.

DEPARTMENT OF COMMERCE

International Trade Administration

[A-489-807]

Notice of Initiation of New Shipper Antidumping Duty Review: Certain Steel Concrete Reinforcing Bars from Turkey

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) has received a request to conduct a new shipper review of the antidumping duty order on certain steel concrete reinforcing bars (rebar) from Turkey published on April 17, 1997 (62 FR 18748). In accordance with section 751(a)(2)(B) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.214(d), we are initiating an antidumping new shipper review of Kroman Celik Sanayii A.S., a producer of subject merchandise, and its affiliated export trading company, Yucelboru

Ihracat Ithalat ve Pazarlama A.S.
(collectively "Kroman").

EFFECTIVE DATE: May 26, 2006.

FOR FURTHER INFORMATION CONTACT: Irina Itkin or Alice Gibbons, AD/CVD Operations, Office 2, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC, 20230; telephone (202) 482-0656 or (202) 482-0498, respectively.

SUPPLEMENTARY INFORMATION: The Department received a timely request from Kroman, in accordance with 19 CFR 351.214(c), for a new shipper review of the antidumping duty order on rebar from Turkey. *See Antidumping Duty Order: Certain Steel Concrete Reinforcing Bars from Turkey*, 62 FR 18748 (April 17, 1997).

Pursuant to 19 CFR 351.214(b), Kroman certified that it is both the exporter and producer of the subject merchandise, that it did not export subject merchandise to the United States during the period of the investigation (POI) (January 1, 1995, through December 31, 1995), and that it was not affiliated with any exporter or producer that exported the subject merchandise to the United States during the POI. Kroman also submitted documentation establishing the date on which its shipment of subject merchandise first entered for consumption, the volume shipped, and the date of its first sale to an unaffiliated customer in the United States.

Scope of the Order

The product covered by this order is all stock deformed steel concrete reinforcing bars sold in straight lengths and coils. This includes all hot-rolled deformed rebar rolled from billet steel, rail steel, axle steel, or low-alloy steel. It excludes (i) plain round rebar, (ii) rebar that a processor has further worked or fabricated, and (iii) all coated rebar. Deformed rebar is currently classifiable under subheadings 7213.10.000 and 7214.20.000 of the *Harmonized Tariff Schedule of the United States* (HTSUS). The HTSUS subheadings are provided for convenience and customs purposes. The written description of the scope of this proceeding is dispositive.

Initiation of Review

In accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214(d), we are initiating a new shipper review of the antidumping duty order on rebar from Turkey produced and exported by Kroman. *See the Memorandum from the Team to the File*

through Irene Darzenta Tzafolias, Acting Office Director, entitled "Initiation of AD New Shipper Review: Certain Steel Concrete Reinforcing Bars from Turkey," dated May 22, 2006. Normally, we would issue the preliminary results of this review not later than 180 days after the date on which the review is initiated. However, on May 15, 2006, Kroman agreed to waive the time limits in order that the Department, pursuant to 19 CFR 351.214(j)(3), may conduct this review concurrently with the ninth administrative review of this order for the period April 1, 2005, through March 31, 2006, which will be conducted pursuant to section 751(a)(1) of the Act. Therefore, we intend to issue the final results of this review not later than 245 days after the last day of the anniversary month.

Pursuant to 19 CFR 351.214(g)(1)(i)(A), the period of review (POR) for a new shipper review, initiated in the month immediately following the anniversary month, will be the 12-month period immediately preceding the anniversary month. Therefore, the POR for the new shipper review of Kroman is April 1, 2005, through March 31, 2006.

We will instruct U.S. Customs and Border Protection to suspend liquidation of any unliquidated entries of the subject merchandise from Kroman and allow, at the option of the importer, the posting, until completion of the review, of a bond or security in lieu of a cash deposit for each entry of the merchandise exported by Kroman in accordance with 19 CFR 351.214(e). Because Kroman certified that it both produced and exported the subject merchandise, the sale of which is the basis for this new shipper review request, we will permit the bonding privilege only for those entries of subject merchandise for which Kroman is both the producer and the exporter.

Interested parties may submit applications for disclosure under administrative protective order in accordance with 19 CFR 351.305 and 351.306.

This initiation and notice are in accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214(d).

Dated: May 22, 2006.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

National Institute of Standards and Technology

Jointly Owned Inventions Available for Non-Exclusive, Royalty-Free Licensing

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice of Jointly Owned Inventions Available for Non-Exclusive, Royalty-Free Licensing.

SUMMARY: The inventions listed below are jointly owned by the U.S. Government, as represented by the Department of Commerce, and the University of Colorado. The Department of Commerce's interest in the inventions is available for non-exclusive, royalty-free licensing, in accordance with 35 U.S.C. 207 and 37 CFR part 404 to achieve expeditious commercialization of results of federally funded research and development.

FOR FURTHER INFORMATION CONTACT: Technical and licensing information on these inventions may be obtained by writing to: National Institute of Standards and Technology, Office of Technology Partnerships, Attn: Mary Clague, Building 820, Room 213, Gaithersburg, MD 20899. Information is also available via telephone: 301-975-4188, fax 301-869-2751, or e-mail: mary.clague@nist.gov. Any request for information should include the NIST Docket number or Patent number and title for the invention as indicated below.

The inventions available for licensing are:

[Patent Number 6,831,522 Issued: 12/14/2004]

Title: Method of Minimizing the Short-Term Frequency Instability of Laser-Pumped Atomic Clocks.

Abstract: A method is provided for optimizing the performance of laser-pumped atomic frequency references with respect to the laser detuning and other operating parameters. This method is based on the new understanding that the frequency references short-term instability is minimized when (a) the laser frequency is tuned nominally a few tens of MHz away from the center of the atomic absorption line, and (b) the external oscillator lock modulation frequency is set either far below or far above the inverse of the optical pumping time of the atoms.

[Patent Number: 6,806,784 Issued: 10/19/2004]

Title: Miniature Frequency Standard Based on All-Optical Excitation and a Micromachined Containment Vessel.
