

**DEPARTMENT OF LABOR****Employment Standards Administration****Proposed Collection; Comment Request****ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment Standards Administration is soliciting comments concerning the proposed collection: Authorization for Release of Medical Information (CM-936). A copy of the proposed information collection request can be obtained by contacting the office listed below in the **ADDRESSES** section of this Notice.

**DATES:** Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before July 31, 2006.

**ADDRESSES:** Ms. Hazel M. Bell, U.S. Department of Labor, 200 Constitution Ave., NW., Room S-3201, Washington, DC 20210, telephone (202) 693-0418, fax (202) 693-1451, e-mail [bell.hazel@dol.gov](mailto:bell.hazel@dol.gov). Please use only one method of transmission for comments (mail, fax, or e-mail).

**SUPPLEMENTARY INFORMATION:**

I. *Background:* The Black Lung Benefits Act, as amended 30 U.S.C. 901 *et seq.*, and 20 CFR 725.405 require that all relevant medical evidence be considered before a decision can be made regarding a claimant's eligibility for benefits. The CM-936 is a form that gives the claimant's consent for release of information required by the Privacy Act of 1974, and contains information required by medical institutions and private physicians to enable them to release pertinent medical information. This information collection is currently approved for use through November 30, 2006.

II. *Review Focus:* The Department of Labor is particularly interested in comments which:

- \* Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- \* Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- \* Enhance the quality, utility and clarity of the information to be collected; and

- \* Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

III. *Current Actions:* The Department of Labor seeks approval for the extension of this information collection in order to obtain the claimant's consent for medical institutions and private physicians to release medical information to the Division of Coal Mine Workers' Compensation as evidence to support their claim for benefits. Failure to gather this information would inhibit the adjudication of black lung claims because pertinent medical data would not be considered during the processing.

*Type of Review:* Extension.

*Agency:* Employment Standards Administration.

*Title:* Authorization for Release of Medical Information.

*OMB Number:* 1215-0057.

*Agency Number:* CM-936.

*Affected Public:* Individual or households.

*Total Respondents:* 1,200.

*Total Responses:* 1,200.

*Time per Response:* 5 minutes.

*Frequency:* Once.

*Estimated Total Burden Hours:* 100.

*Total Burden Cost (capital/startup):* \$0.

*Total Burden Cost (operating/maintenance):* \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: May 25, 2006.

Unrestricted Release**

**AGENCY:** Nuclear Regulatory  
Commission (NRC).

**ACTION:** Notice of License Termination  
and Site Release for Unrestricted Use.

**SUPPLEMENTARY INFORMATION:**

**I. Introduction**

Pursuant to 10 CFR 2.106, the Nuclear  
Regulatory Commission (NRC) is  
providing notice that it is terminating  
license 19-10306-02 for the U.S.  
Department of the Army, (Army or  
licensee), and releasing the Building  
7304 (Vault) property in Fort Belvoir,  
Virginia, for unrestricted use. The  
Army's request for an amendment to  
authorize decommissioning of its former  
radioactive waste storage facility in Fort  
Belvoir, Virginia, was previously  
noticed in the **Federal Register** on  
December 28, 2004 (69 FR 77779), with  
a notice of an opportunity to request a  
hearing.

The Army provided a final  
radiological status survey to  
demonstrate the site meets the license  
termination criteria in subpart E of 10  
CFR part 20. In addition, NRC staff  
conducted independent in-process  
measurements of residual  
contamination remaining at the site.

The NRC staff has evaluated the  
Army's request, has reviewed the results  
of the final radiological survey, has  
performed in-process confirmatory  
measurements throughout the site  
property, and has determined that the  
site cleanup meets the unrestricted  
release dose criteria in 10 CFR 20.1402.  
The Commission has concluded that the  
site is suitable for release for  
unrestricted use, and has terminated the  
license for the Fort Belvoir, Virginia  
property. The staff prepared a Safety  
Evaluation Report (SER) to support the  
proposed action.

**II. Further Information**

In accordance with 10 CFR 2.790 of  
the NRC's "Rules of Practice," details  
with respect to this action, including the  
SER, are available electronically at the

**SUPPLEMENTARY INFORMATION:**

**I. Introduction**

The Nuclear Regulatory Commission  
(NRC) staff is considering the issuance  
of a license amendment to Materials  
License SNM-124, to Nuclear Fuel  
Services, Inc. (NFS) (the licensee), to  
exempt it from certain safety  
requirements when shipping low-level  
radioactive waste. The NRC has  
prepared an Environmental Assessment  
(EA) in support of this amendment in  
accordance with the requirements of 10  
CFR part 51. Based on the EA, the NRC  
has concluded that a Finding of No  
Significant Impact (FONSI) is  
appropriate and, therefore, an  
Environmental Impact Statement (EIS)  
will not be prepared.
