

estimated to average 109 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Owners or operators of wood building products surface coating operations.

Estimated Number of Respondents: 232.

Frequency of Response: Initially, semiannually, on occasion.

Estimated Total Annual Hour Burden: 75,771.

Estimated Total Annual Cost: \$6,695,525, includes \$0 capital/startup costs, \$278,000 annualized O&M costs and \$6,417,525 annualized labor costs.

Changes in the Estimates: There is an increase of 73,595 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. The increase in burden is due to the actions taken by the facilities to comply with 40 CFR part 63, subpart QQQQ. The previous ICR included only the burden incurred by facilities initiating activities related to compliance in advance of the compliance date. The increase in burden reflects the need for facilities to fully comply with the rule requirements. The increase in O&M costs is due to maintenance of equipment used to verify compliance with the rule requirements.

Title: State and Federal Emission Guidelines for Hospital/Medical/ Infectious Waste Incinerators (Renewal).

ICR Numbers: EPA ICR Number 1899.03, OMB Control Number 2060-0422.

ICR Status: This ICR is scheduled to expire on May 31, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Respondents subject to subparts Ce and HHH are owners or

operators of hospital, medical, or infectious waste incinerators. Subpart Ce was promulgated on September 15, 1997, and requires states or tribes to develop plans to implement the Emission Guidelines. If approvable state or tribal plans were not developed, EPA was required to develop a Federal plan to implement the Emission Guidelines in such states or tribes. The Federal plan, subpart HHH was promulgated on September 14, 2000.

Subparts Ce and HHH require initial notifications, performance tests, and annual and semi-annual reporting. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance. Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least five years following the date of such measurements, maintenance reports, and records. All reports are sent to the state or tribal authority with an approved plan. In the event that there is no such approved plan, the reports are sent directly to the EPA regional office.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 320 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of hospital, medical, or infectious waste incinerators.

Estimated Number of Respondents: 72.

Frequency of Response: Initially, on occasion, semiannually and annually.

Estimated Total Annual Hour Burden: 69,067.

Estimated Total Annual Cost: \$5,705,702 includes \$0 annualized capital startup costs, \$130,000 annualized O&M costs and \$5,575,702 annualized labor costs.

Changes in the Estimates: There is a decrease of 36,161 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. The decrease in burden from the most recently approved ICR is due to an adjustment. The decrease in burden from the most recently approved ICR is due to a decrease in the number of sources. Our estimate is based on a facility and emissions index of Hospital/Medical/Infectious Waste Incinerator sources developed by the Office of Air Quality Planning and Standards. The data in the index was collected directly from industry and updated March 2006. The previous estimate of 189 respondents was derived from approximated state agency data. In addition, the standard applies only to facilities which commenced construction on or before June 20, 1996. Hence, the current estimate of 72 sources represents a source-by-source count and takes into account those sources which have shutdown. Therefore, we have adjusted the number of respondents from 189 to 72. The decrease in Operations and Maintenance cost from \$295,407,000 to \$130,000 is primarily due a typographical error in the last approval.

California State Nonroad Engine and Vehicle Pollution Control Standards; Amendments to the California Small Offroad Emission Standards; Opportunity for Public Hearing and Request for Written Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of opportunity for public hearing and comment.

SUMMARY: The California Air Resources Board (CARB) has notified EPA that it has adopted revised exhaust emissions standards and test procedures and new evaporative emissions standards and test procedures (and certification procedures) for small offroad engines. By letter dated April 11, 2005, CARB

requested that EPA confirm that its exhaust emission standards and test procedures are within the scope of prior authorizations issued by EPA, and requested a new authorization for the evaporative emission standards, test procedures and certification procedures. This notice announces that EPA has tentatively scheduled a public hearing concerning California's requests and that EPA is accepting written comment on the requests.

DATES: EPA has scheduled a public hearing concerning CARB's requests on June 29, 2006 beginning at 10 a.m. Any party may submit written comments by August 1, 2006.

ADDRESSES: EPA will make available for public inspection at the Air and Radiation Docket and Information Center materials submitted by CARB, written comments received from interested parties, in addition to any testimony given at the public hearing. The official public docket is the collection of materials that is available for public viewing at the Air and Radiation Docket in the EPA Docket Center, (EPA/DC) EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the Air and Radiation Docket is (202) 566-1743. The reference number for this docket is EPA-HQ-OAR-2005-0133. Parties wishing to present oral testimony at the public hearing should provide written notice to David Dickinson at the address noted below. EPA will hold the public hearing in room 1153 at EPA's "East Building" located at 1201 Constitution Avenue, NW., Washington, DC.
