To any State and local governmental agency that employs the services of others and that pays their wages or salaries, where the employee owes a delinquent non-tax debt to the United States for the purpose of garnishment.

To the Department of the Treasury, Financial Management Service, for the purpose of collecting delinquent debts owed to the U.S. Government via administrative offset.

Note: Rediscovery of a mailing address from the IRS may be made only for the purpose of debt collection, including to a debt collection agency in order to facilitate the collection or compromise of a Federal claim under the Debt Collection Act of 1982, except that a mailing address to a consumer reporting agency is for the limited purpose of obtaining a commercial credit report on the particular taxpayer. Any such address information obtained from the IRS will not be used or shared for any other Navy purpose or disclosed to another Federal, State or local agency which seeks to locate the same individual for its own debt collection purpose.

The DoD "Blanket Routine Uses" that appear at the beginning of the Navy's compilation of systems notices also apply to this system.

The purpose of the disclosure is to aid in the collection of outstanding debts owed to the Federal Government; typically, to provide an incentive for debtors to repay delinquent Federal Government debts by making these debts part of their credit records.

The disclosure is limited to information necessary to establish the identity of the individual, including name, address, and taxpayer identification number (Social Security Number); the amount, status, and history of the claim; and the agency or program under which the claim arose.

SUPPLEMENTARY INFORMATION:

- I. Background
- II. Current Actions
- III. Request for Comments

I. Background

The Federal Energy Administration Act of 1974 (Pub. L. 93-275, 15 U.S.C. 761 et seq.) and the DOE Organization Act (Pub. L. 95-91, 42 U.S.C. 7101 et seq.) require the EIA to carry out a centralized, comprehensive, and unified energy information program. This program collects, evaluates, assembles, analyzes, and disseminates information on energy resource reserves, production, demand, technology, and related economic and statistical information. This information is used to assess the adequacy of energy resources to meet near and longer term domestic demands.

The EIA, as part of its effort to comply with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. Chapter 35), provides the general public and other Federal agencies with opportunities to comment on collections of energy information conducted by or in conjunction with the EIA. Any comments received help the EIA to prepare data requests that maximize the utility of the information collected, and to assess the impact of collection requirements on the public. Also, the EIA will later seek approval by the Office of Management and Budget (OMB) under section 3507(a) of the Paperwork Reduction Act of 1995.

The weekly petroleum supply surveys (Forms EIA-800, EIA-801, EIA-802, EIA-803, EIA-804, and EIA-805) are

designed to highlight information on petroleum refinery operations, inventory levels, and imports of selected petroleum products in a timely manner. The information appears in the publications listed below and is also available electronically through the Internet at <http://www.eia.doe.gov/>.

Publications: Internet only publications are the *Weekly Petroleum Status Report*, *Short-Term Energy Outlook*, and *This Week in Petroleum*. Hardcopy and Internet publications are the *Monthly Energy Review* (DOE/EIA-0035) and the *Annual Energy Outlook* (DOE/EIA-0383).

The monthly petroleum supply surveys (Forms EIA-810, EIA-811, EIA-812, EIA-813, EIA-814, EIA-815, EIA-816, EIA-817, and EIA-819) are designed to provide statistically reliable and comprehensive information not available from other sources to EIA, other Federal agencies, and the private sector for use in forecasting, policy making, planning, and analysis activities. The information appears in the publications listed below and is also available electronically through the Internet at <http://www.eia.doe.gov/>.

Publications: Internet only publications are the *Weekly Petroleum Status Report*, *Petroleum Supply Monthly*, *Petroleum Supply Annual*, and *Short-Term Energy Outlook*. Hardcopy and internet publications are the *Monthly Energy Review* (DOE/EIA-0035), the *Annual Energy Review* (DOE/EIA-0384), and the *Annual Energy Outlook* (DOE/EIA-0383).

The annual petroleum supply survey (Form EIA-820) provides data on the operations of all operating and idle petroleum refineries (including new refineries under construction), blending plants, refineries shutdown with useable storage capacity, and refineries shutdown during the previous year. The information appears in the *Petroleum Supply Annual* and is available electronically through the Internet at <http://www.eia.doe.gov/>.

II. Current Actions

The EIA will request a three-year extension of the collection approval for each of the above-referenced surveys with no changes to previously approved collections.

III. Request for Comments

Prospective respondents and other interested parties should comment on the actions discussed in item II. The following guidelines are provided to assist in the preparation of comments. Please indicate to which form(s) your comments apply.

General Issues

A. Is the proposed collection of information necessary for the proper performance of the functions of the agency and does the information have practical utility? Practical utility is defined as the actual usefulness of information to or for an agency, taking into account its accuracy, adequacy, reliability, timeliness, and the agency's ability to process the information it collects.

B. What enhancements can be made to the quality, utility, and clarity of the information to be collected?

As a Potential Respondent to the Request for Information

A. What actions could be taken to help ensure and maximize the quality, objectivity, utility, and integrity of the information to be collected?

B. Are the instructions and definitions clear and sufficient? If not, which instructions need clarification?

C. Can the information be submitted by the due date?

D. Public reporting burden for this collection is estimated to average:

Estimated Hours Per Response in 2007

EIA-800, "Weekly Refinery and Fractionator Report,"—1.58 hours
EIA-801, "Weekly Bulk Terminal Report,"—0.95 hours
EIA-802, "Weekly Product Pipeline Report,"—0.95 hours
EIA-803, "Weekly Crude Oil Stocks Report,"—0.50 hours
EIA-804, "Weekly Imports Report,"—1.58 hours
EIA-805, "Weekly Terminal Blenders Report,"—0.58 hours
EIA-810, "Monthly Refinery Report,"—4.74 hours
EIA-811, "Monthly Bulk Terminal Report,"—2.21 hours
EIA-812, "Monthly Product Pipeline Report,"—2.85 hours
EIA-813, "Monthly Crude Oil Report,"—1.50 hours
EIA-814, "Monthly Imports Report,"—2.53 hours
EIA-815, "Monthly Terminal Blenders Report,"—1.15 hours
EIA-816, "Monthly Natural Gas Liquids Report,"—0.95 hours
EIA-817, "Monthly Tanker and Barge Movement Report,"—2.21 hours
EIA-819, "Monthly Oxygenate Report,"—0.63 hours
EIA-820, "Annual Refinery Report"—2.30 hours

The estimated burden includes the total time necessary to provide the requested information. In your opinion, how accurate is this estimate?

E. The agency estimates that the only cost to a respondent is for the time it

will take to complete the collection. Will a respondent incur any start-up costs for reporting, or any recurring annual costs for operation, maintenance, and purchase of services associated with the information collection?

F. What additional actions could be taken to minimize the burden of this collection of information? Such actions may involve the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

G. Does any other Federal, State, or local agency collect similar information? If so, specify the agency, the data element(s), and the methods of collection.

As a Potential User of the Information To Be Collected

A. What actions could be taken to help ensure and maximize the quality, objectivity, utility, and integrity of the information disseminated?

B. Is the information useful at the levels of detail to be collected?

C. For what purpose(s) would the information be used? Be specific.

D. Are there alternate sources for the information and are they useful? If so, what are their weaknesses and/or strengths?

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of the forms. They also will become a matter of public record.

Statutory Authority: Section 3507(h)(1) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. Chapter 35).
