What Information Is EPA Particularly Interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits

comments and information to enable it to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What Should I Consider When I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date and **Federal Register** citation.

What Information Collection Activity or ICR Does This Apply to?

Affected entities: Entities potentially affected by this action are those which own, operate or regulate community water systems including, but not limited to, owners/operators of community water systems, State environmental water quality agencies, and State departments of health.

Title: 2007 Drinking Water Infrastructure Needs Survey.

ICR numbers: EPA ICR #2234.01, OMB Control No. 2040.New.

ICR status: This ICR is for a new information collection activity. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The purpose of this information collection is to identify the infrastructure needs of community public water systems for the 20-year period from January 2007 through December 2027. EPA's Office of Ground Water and Drinking Water (OGWDW) will collect these data to comply with Sections 1452(h) and 1452(i)(4) of the Safe Drinking Water Act (42 U.S.C. 300j-12).

EPA will use a questionnaire to collect capital investment need information from large (serving more than 100,000 people) and medium (serving more than 3,300 people but less than 100,000) community water systems. The questionnaire will also be used by EPA survey teams in visits to 400 to 600 statistically-selected small (serving less than 3,300 people) community water systems to ascertain their infrastructure needs. Participation in the survey is voluntary. The data from the questionnaires will provide EPA with a basis for estimating the nationwide infrastructure needs of community water systems. Also, as mandated by section 1452(a)(1)(D)(ii) of the Safe Drinking Water Act, EPA uses the results of the latest survey to allocate Drinking Water State Revolving Fund (DWSRF) monies to the States. Under the allotment formula, each State receives a grant of the annual DWSRF appropriation in proportion to its share of the total national need—with the proviso that each State receives at least one percent of the total funds available.

Burden Statement: Over the entire survey effort, the annual public reporting and recordkeeping burden for this collection of information is estimated to average 3.74 hours per response for states and water system respondents combined. However, nearly all of the responses from water systems

will occur in the single year of 2007. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

- *Estimated total number of potential respondents:* 3,470.
- *Frequency of response:* On occasion.
- *Estimated total average number of responses for each respondent:* 1 per system.
- *Estimated total annual burden hours:* 12,984 hours.
- *Estimated total annual costs:* \$1,345,677. This includes an estimated burden cost of \$1,345,677 and an estimated cost of \$0.00 for capital investment or maintenance and operational costs.

What is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: May 26, 2006.

Cynthia Dougherty,

Director, Office of Ground Water and Drinking Water.
