Identification of Vehicles: Oregon Department of Transportation Tax Credentials; Petition for Determination

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

SUPPLEMENTARY INFORMATION:

Background

Section 4306 of SAFETEA-LU prohibits States from requiring motor carriers to display in or on commercial motor vehicles any form of identification other than forms required by the Secretary of Transportation [49 U.S.C. 14506(a)]. However, § 14506(b)(3) provides, in part, that "a State may continue to require display of credentials that are required * * * under a State law regarding motor vehicle license plates or other displays that the Secretary determines are appropriate."

ODOT requests that FMCSA make a determination that the State's weight-mile tax credentials are appropriate in the context of 49 U.S.C. 14506(a). Oregon has been requiring motor carriers to obtain weight-mile tax credentials since 1947.

Oregon Revised Statutes (ORS) 825.454 authorize ODOT to require the use of identification devices, such as cab cards, stamps or carrier identification numbers, to identify, and be carried in or placed upon, each motor vehicle authorized to be operated in Oregon. ODOT may require annual application for identification devices and it may charge a fee not to exceed \$8 for each device issued on an annual basis. ORS 825.450 requires ODOT to issue a permanent credential and ORS 825.470 authorizes issuance of temporary credentials. Until 2001, ODOT required out-of-state carriers to display a special Oregon license plate on each truck registered to operate in the State. State legislation passed in 2001 eliminated the need for out-of-state based vehicles to display the Oregon license plate and substituted the simpler requirement to carry a permanent or temporary paper credential.

ODOT states the current weight-mile tax credentials identify a motor carrier's Oregon account, facilitate reporting and payment of the tax, and assist in tracking vehicle-miles traveled over Oregon highways. ODOT also believes truck drivers want to have the credential at hand when fueling in Oregon, because fuel providers use it to verify that a vehicle is exempt from Oregon fuel tax. ODOT advises that approximately 15,000 out-of-state based carriers operate 283,000 trucks that carry a permanent Oregon tax

credential. It also advises that approximately 10,000 trucks with a 10-day temporary credential operate within the State at any given time. A copy of ODOT's petition for determination is available for review in the docket for this notice.

Request for Comments

FMCSA requests public comment on ODOT's request that the Agency determine whether the State may continue to require commercial motor carriers to display weight-mile tax credentials. Interested parties are requested to limit their comments to the display of weight-mile tax credentials, as FMCSA has no authority to review the tax for which the credential is issued. FMCSA will consider all comments received by close of business on July 13, 2006. Comments will be available for examination in the docket at the location listed under the **ADDRESSES** section of this notice. FMCSA will file comments received after the comment closing date in the public docket and will consider them to the extent practicable. In addition to late comments, FMCSA will also continue to file in the public docket relevant information that becomes available after the comment closing date. Interested persons should monitor the public docket for new material.

Issued on: June 7, 2006.

SUPPLEMENTARY INFORMATION:

Stagecoach is a public limited company organized under the laws of Scotland. It is one of the world's largest providers of passenger transportation services and had annual revenues for the fiscal year ending April 30, 2005, of over \$3.3 billion. Stagecoach, and certain intermediate subsidiaries, acquired control of Coach in September 1999.¹ Coach, a Delaware corporation, controls numerous federally regulated motor carriers. The motor carriers controlled by Coach had gross operating revenues for the 12-month period ending with the date of this application greater than the \$2 million threshold required for Board jurisdiction.

Megabus USA is currently a noncarrier, but plans to seek authorization from the Federal Motor Carrier Safety Administration to operate as a motor common carrier of passengers. Once authorization is granted, Megabus USA will utilize a fleet of approximately 18 motorcoaches to provide scheduled express bus service over regular routes between Chicago and several Midwestern cities. These routes, and the motorcoaches and drivers, are currently used by Independent under the name "Megabus.com," which holds federally issued authority under MC-168548.
