

54. Former defaulters—i.e., applicants, including any of its affiliates, any of its controlling interests, or any of the affiliates of its controlling interests, that in the past have defaulted on any Commission construction permit or license or been delinquent on any non-tax debt owed to any Federal agency, but that have since remedied all such defaults and cured all of their outstanding non-tax delinquencies—are eligible to bid in Auction No. 85, provided that they are otherwise qualified. However, former defaulters are required to pay upfront payments that are fifty percent more than the normal upfront payment amounts.

55. In contrast, an applicant is not eligible to participate in competitive bidding in Auction No. 85 if the applicant, any of its affiliates, any of its controlling interests, or any of the affiliates of its controlling interests, is in default on any payment for any Commission construction permit or license (including a down payment) or is delinquent on any non-tax debt owed to any Federal agency as of the filing deadline for applications to participate in this auction.

56. Applicants are encouraged to review the Wireless Telecommunications Bureau's previous guidance on default and delinquency disclosure requirements in the context of the auction short-form application process. Further information is provided in the *Auction No. 85 Filing Window Public Notice*.

57. The Commission considers outstanding debts owed to the United States Government, in any amount, to be a serious matter. Under the red light rule, the Commission will not process applications and other requests for benefits filed by parties that have outstanding debts owed to the Commission. Prospective applicants in Auction No. 85 should note that any long-form applications filed after the close of competitive bidding will be reviewed for compliance with the Commission's red light rule, and such review may result in the dismissal of a winning bidder's long-form application. Further, applicants that have their long-form applications dismissed will be deemed to have defaulted and will be subject to default payments under 47 CFR 1.2104(g) and 1.2109(c).

58. The Commission explicitly declared, however, that the Commission's competitive bidding rules are not affected by the red light rule. As a consequence, the Commission's adoption of the red light rule does not alter the applicability of any of the Commission's competitive bidding rules, including the provisions and

certifications of 47 CFR 1.2105 and 1.2106, with regard to current and former defaults or delinquencies. Applicants are reminded that the Commission's Red Light Display System, which provides information regarding debts owed to the Commission, may not be determinative of any auction applicant's ability to comply with the default and delinquency disclosure requirements of 47 CFR 1.2105. Thus, while the red light rule may ultimately prevent the processing of long-form applications filed by auction winners, an auction applicant's red light status is not necessarily determinative of its eligibility to participate in this auction or its upfront payment obligation.

#### G. Other Information

59. Applicants owned by minorities or women, as defined in 47 CFR 1.2110(c)(2), may identify themselves in filling out their short-form applications regarding this status. This applicant status information is collected for statistical purposes only and assists the Commission in monitoring the participation of designated entities in its auctions.

#### H. Minor Modifications to Short-Form Applications

60. Following the deadline for filing short-form applications on June 30, 2006, applicants in Auction No. 85 are permitted to make only minor changes to their applications. Pursuant to 47 CFR 1.2105, applicants are not permitted to make major modifications to their applications. Examples of major modifications include, but are not limited to, a major change to an applicant's engineering proposal, a change in control of the applicant, or an increase of a previously-claimed bidding credit. No applicant will be allowed to change its noncommercial educational (NCE) election after the application filing deadline on June 30, 2006.

61. Any application amendment and related statements of fact must be certified by: (1) The applicant, if the applicant is an individual, (2) one of the partners if the applicant is a partnership, (3) by an officer, director, or duly authorized employee, if the applicant is a corporation, (4) by a member who is an officer, if the applicant is an unincorporated association, (5) by the trustee if the applicant is an amateur radio service club, or (6) a duly elected or appointed official who is authorized to do so under the laws of the applicable jurisdiction, if the applicant is a governmental entity.

62. An applicant must make permissible minor changes to its short-form application, as defined by § 1.2105(b), on-line. Applicants must click on the SUBMIT button in the FCC Auction System for the change to be submitted and considered by the Commission.

63. In the event that changes cannot be made immediately in the FCC Auction System for any reason, an applicant must submit a letter, briefly summarizing the changes and subsequently update their short-form applications in the FCC Auction System as soon as possible. Any letter describing changes to applicant's short-form application must be submitted by electronic mail to the following address: [auction85@fcc.gov](mailto:auction85@fcc.gov).

#### I. Maintaining the Accuracy of Short-Form Application Information

64. Each applicant, pursuant to 47 CFR 1.65, must maintain the accuracy and completeness of information furnished in its pending application and notify the Commission within 30 days of any substantial change that may be of decisional significance to that application. Changes that cause a loss of or reduction in eligibility for a new entrant bidding credit must be reported immediately. For example, if ownership changes result in the attribution of new interest holders that affect the applicant's qualifications for a new entrant bidding credit, such information must be clearly stated in the applicant's notification.

65. If an amendment reporting substantial changes is a major amendment as defined by 47 CFR 1.2105, the major amendment will not be accepted and may result in the dismissal of the short-form application. Applicants must report section 1.65 modifications to their short-form application by electronic mail and submit a letter briefly summarizing the changes to the following address: [auction85@fcc.gov](mailto:auction85@fcc.gov).
