

include (1) whether the information will have practical utility; (2) the accuracy of the Department's estimate of the burden of the proposed information collections; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Through the Integrity Management Program (49 CFR 195.452), PHMSA requires operators to develop and follow integrity management programs to assess, evaluate, repair, and validate pipeline segments that could impact high consequence areas in the event of leak or failure. The programs must provide for continual assessment of pipeline segments that could affect populated areas, areas unusually sensitive to environmental damage and commercially navigable waterways. Pipeline operators must keep updated written records associated with their programs and have them available for inspection, and submit relevant notices to PHMSA as specified by the regulation.

As used in this notice, the term "information collection" includes all work related to preparing and disseminating information related to this recordkeeping requirement including completing paperwork, gathering information, and conducting telephone calls.

Type of Information Collection Request: Renewal of Existing Collection.

Title of Information Collection: Pipeline Integrity Management in High Consequence Areas (Operators with

more than 500 Miles of Hazardous Liquid Pipelines).

Respondents: 71 hazardous liquid pipeline operators with more than 500 miles of pipes.

Estimated Total Annual Burden on Respondents: 57,510 hours.

Issued in Washington, DC on June 9, 2006.

Florence L. Hamm,

Director of Regulations, Office of Pipeline Safety.

Pipeline and Hazardous Materials Safety Administration

Office of Hazardous Materials Safety; Notice of Applications for Modification of Special Permit

AGENCY: Pipeline and Hazardous Materials Safety Administration, DOT.

ACTION: List of applications for modification of special permit.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, special permits from the Department of Transportation's Hazardous Material Regulations (49 CFR part 107, subpart B), notice is hereby given that the Office of Hazardous Materials Safety has received the application described herein. This notice is abbreviated to expedite docketing and public notice. Because the sections affected, modes of transportation, and the nature of application have been shown in earlier **Federal Register** publications, they are

not repeated here. Request of modifications of special permits (e.g., to provide for additional hazardous materials, packaging design changes, additional mode of transportation, etc.) are described in footnotes to the application number. Application numbers with the suffix "M" denote a modification request. These applications have been separated from the new applications for special permits to facilitate processing.

DATES: Comments must be received on or before July 3, 2006.

Address Comments to: Record Center, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate. If confirmation of receipt of comments is desired, include a self-addressed stamped postcard showing the special permit number.

FOR FURTHER INFORMATION CONTACT: Copies of the application are available for inspection in the Records Center, Nassif Building, 400 7th Street, SW., Washington, DC or at <http://dms.dot.gov>.

This notice of receipt of applications for modification of special permits is published in accordance with part 107 of the Federal hazardous materials transportation law (49 U.S.C. 5117(b); 49 CFR 1.53(b)).

Issued in Washington, DC, on June 12, 2006.

R. Ryan Posten,

Chief, Special Permits Program, Office of Hazardous Materials, Special Permits & Approvals.
