

FOR FURTHER INFORMATION CONTACT:

Inquire in writing to M. Denise Doetzer, State Conservationist, Natural Resources Conservation Service (NRCS), 1606 Santa Rosa Road, Suite 209, Richmond, Virginia 23229-5014; Telephone number (804) 287-1665; Fax number (804) 287-1736. Copies of the practice standards will be made available upon written request to the address shown above or on the Virginia NRCS Web site <http://www.va.nrns.usda.gov/technical/draftstandards.html>.

SUPPLEMENTARY INFORMATION: Section 343 of the Federal Agriculture Improvement and Reform Act of 1996 states that revisions made after enactment of the law to NRCS State technical guides used to carry out highly erodible land and wetland provisions of the law shall be made available for public review and comment. For the next 30 days, the NRCS in Virginia will receive comments relative to the proposed changes. Following that period, a determination will be made by the NRCS in Virginia regarding disposition of those comments and a final determination of change will be made to the subject standards.

Dated: June 12, 2006.

W. Ray Dorsett,

*Assistant State Conservationist (Operations),
Natural Resources Conservation Service,
Richmond, Virginia.*

BILLING CODE 3410-16-P

DEPARTMENT OF COMMERCE**Bureau of Industry and Security****Materials Processing Equipment Technical Advisory Committee; Notice of Open Meeting**

The Materials Processing Equipment Technical Advisory Committee (MPETAC) will meet on July 6, 2006 at 9 a.m. in Room 3884 of the Herbert C. Hoover Building, 14th Street between Pennsylvania and Constitution Avenues, NW., Washington, DC. The Committee advises the Office of the Assistant Secretary for Export Administration with respect to technical questions that affect the level of export controls applicable to materials processing equipment and related technology.

Agenda

1. Opening Remarks and Introductions.
2. Presentation of Papers and Comments by the Public.
3. Report on Wassenaar Experts Meeting.

4. MPETAC Future Activities.

5. Report on Proposed Changes to the Export Administration Regulation.

6. Other Business.

The meeting will be open to the public and a limited number of seats will be available. Reservations are not accepted. To the extent that time permits, members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting. However, to facilitate distribution of public presentation materials to Committee members, the Committee suggests that presenters forward the public presentation materials two weeks prior to Yvette Springer at Yspringer@bis.doc.gov.

For more information, please contact Ms. Sprigner at 202-482-4814.

Dated: June 13, 2006.

Yvette Springer,

Committee Liaison Officer.

BILLING CODE 3510-JT-M

DEPARTMENT OF COMMERCE**National Oceanic and Atmospheric Administration**

[I.D.061306B]

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permit (EFP)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notification of a proposal for an EFP to conduct experimental fishing; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Northeast Region, NMFS (Assistant Regional Administrator) has made a preliminary determination that the subject EFP application submitted by Truex Enterprises contains all the required information and warrants further consideration. The proposed EFP would test the safety and efficacy of harvesting surfclams and ocean quahogs from the Georges Bank Closure Area using a harvesting protocol developed by the U.S. Food and Drug Administration. The Assistant Regional Administrator has also made a preliminary determination that the activities authorized under the EFP would be consistent with the goals and objectives of the Atlantic Surfclam and Ocean Quahog regulations and Fishery

Management Plan (FMP). However, further review and consultation may be necessary before a final determination is made to issue the EFP. Therefore, NMFS announces that the Assistant Regional Administrator proposes to recommend that an EFP be issued that would allow one commercial fishing vessel to conduct fishing operations that are otherwise restricted by the regulations governing the fisheries of the Northeastern United States. The EFP would allow for an exemption from the Atlantic surfclam and ocean quahog Georges Bank (GB) Closure Area.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

DATES: Comments on this document must be received on or before July 19, 2006.

ADDRESSES: Comments on this notice may be submitted by e-mail.

The mailbox address for providing e-mail comments is DA6114@noaa.gov. Include in the subject line of the e-mail comment the following document identifier: "Comments on GB PSP Closed Area Exemption." Written comments should be sent to Patricia A. Kurkul, Regional Administrator, NMFS, Northeast Regional Office, 1 Blackburn Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on GB PSP Closed Area Exemption." Comments may also be sent via facsimile (fax) to (978) 281-9135.

FOR FURTHER INFORMATION CONTACT:

Tobey Curtis, Fishery Management Specialist, phone 978-281-9273.

SUPPLEMENTARY INFORMATION: Truex Enterprises of New Bedford, MA submitted an application for an EFP on March 30, 2006. Additional information was received on April 19, 2006, completing the application. The experimental fishing application requests authorization to allow the catch and retention for sale of Atlantic surfclams and ocean quahogs from within the Atlantic surfclam and ocean quahog GB Closure Area. This area, located east of 69°00 W. long. and south of 42°20 N. lat., was closed on May 25, 1990. This closure was implemented based on the advice from the U.S. Food and Drug Administration (FDA) after samples of surfclams from the area tested positive for the toxins (saxotoxins) that cause Paralytic Shellfish Poisoning (PSP). These toxins are produced by the algae *Alexandrium fundyense* that can form blooms commonly referred to as red tides. Red tide blooms, also known as harmful
