

SUPPLEMENTARY INFORMATION: EKPC proposes to construct a 345 kV transmission line between a source substation at the J.K. Smith Power Station in Clark County and a proposed switching station located near Lancaster, Kentucky. The proposed line would be constructed within one of several corridors under consideration. The proposed corridors are located in Clark, Madison, and Garrard counties. The proposed corridors extend southwesterly from the J.K. Smith Power Station near Trapp, KY. From Trapp, the corridors will extend towards the communities of Union City, Redhouse, and White Hall to the north side of Richmond. From Richmond the corridors head in the southwesterly direction near communities such as Roundhill, Kirksville, Ruthton, Teatersville, McCreary, Nina, and Three Forks towards the proposed location of a 345kV switching station. The proposed switching station would be located west of the community of Lancaster. The transmission line would require a right-of-way of 150 feet. Depending on which route is chosen the approximate length of the transmission line would be from 35–37 miles. It is anticipated that this transmission line would be in service in late spring to early summer of 2009.

Alternatives considered by USDA Rural Development and EKPC include: (a) No action, (b) alternative transmission improvements, and (c) alternative transmission line corridors.

An Electric Alternative Evaluation and Macro Corridor Study Report, prepared by EKPC will be presented at the public scoping meeting. The Report is available for public review at the addresses provided in this notice.

Government agencies, private organizations, and the public are invited to participate in the planning and analysis of the proposed project. Representatives from USDA Rural Development and EKPC will be available at the scoping meeting to discuss USDA Rural Development's environmental review process, describe the project, the need for the project, the macro corridors under consideration, and discuss the scope of environmental issues to be considered, answer questions, and accept oral and written comments.

Questions and comments should be received by USDA Rural Development in writing by August 10, 2006 to ensure that they are considered in this environmental impact determination.

The comments received will be incorporated into the environmental analysis EKPC will submit to USDA Rural Development for review. USDA

Rural Development will use the environmental analysis to determine the significance of the impacts of the project and may adopt it as its environmental assessment of the project. USDA Rural Development's environmental assessment of the project would be available for review and comment for 30 days. Should USDA Rural Development determine, based on the EA of the project, that the project would not have a significant environmental impact, it will prepare a finding of no significant impact. Public notification of a finding of no significant impact would be published in the **Federal Register** and in newspapers with a circulation in the project area. Any final action by USDA Rural Development related to the proposed project will be subject to, and contingent upon, compliance with environmental review requirements as prescribed by the Council on Environmental Quality and USDA Rural Development environmental policies and procedures.

Dated: June 22, 2006.

BILLING CODE 6335-01-P

DEPARTMENT OF COMMERCE

Census Bureau

[Docket No. 060606154-6154-01]

Privacy Act of 1974: System of Records

AGENCY: U.S. Census Bureau, Commerce.

ACTION: Notice of New Privacy System of Records: COMMERCE/CENSUS-10, American Community Survey.

SUMMARY: In accordance with the Privacy Act of 1974, as amended, 5 U.S.C. 552a(e)(4) and (11), the Department of Commerce is issuing notice of intent to establish a new system of records under COMMERCE/CENSUS-10, American Community Survey.

DATES: To be considered, written comments must be submitted on or before July 31, 2006. Unless comments are received, the amendments to the system of records will become effective as proposed on the date of publication of a subsequent notice in the **Federal Register**.

ADDRESSES: Written comments may be sent to Gerald W. Gates, Chief Privacy Officer, U.S. Census Bureau, Washington, DC 20233. Comments may be submitted electronically to the following electronic mail address: *Dir.Privacy.Office@Census.Gov*.

FOR FURTHER INFORMATION CONTACT: Gerald W. Gates, Chief Privacy Officer, U.S. Census Bureau, Washington, DC 20233, 301-763-2515.

SUPPLEMENTARY INFORMATION: This notice announces the Department's proposal for a new system of records under the Privacy Act. The system is entitled "American Community Survey." The American Community Survey (ACS) testing (demonstration period) occurred between 1996-2004. During that time period, the survey was conducted under the authority of Title 13, Section 182 (Periodic Censuses and Surveys), and therefore is considered to

be covered under the Privacy Act system of records, CENSUS-3, Individual and Household Statistical Surveys and Special Studies Records. In 2004, the ACS was fully implemented as a Decennial Census production activity and as such, was conducted under the authority of Title 13, Section 141 (Decennial Census Activities). An amendment was issued to include the ACS in the existing Privacy Act system of records, CENSUS-5, Population and Housing Census Records of the 2000 Census. Although the production version is being conducted under Decennial Census authority Title 13, Section 141, the Census Bureau has determined that the ACS should have a separate systems notice, CENSUS-10, American Community Survey. The American Community Survey is an ongoing monthly survey of about 250,000 households and an annual sample of approximately 3 million residential addresses in the 50 states and District of Columbia; and another 36,000 residential addresses in Puerto Rico each year.
