The Commission adopted and released a Second Report and Order (R&O) in FCC 04-167, WT Docket No. 00-230, which set out regulations and procedures that removed unnecessary barriers that inhibited the development of secondary markets in spectrum usage rights. Specifically, the R&O promoted the wider use of "spectrum leasing" by facilitating the ability of licensees in the Wireless Radio Services that hold "exclusive" authority to lease some or all of their spectrum usage rights to third parties for any amount spectrum and in any geographic area encompassed by the license, for any period of time within the terms of the license. In essence, the Commission has replaced the existing standard for assessing *de facto* control with an updated standard applicable for spectrum leasing that better accommodates evolutionary developments in the Commission's spectrum policies, technological advances, and marketplace trends. In the interest of administrative efficiency, the Commission now has created FCC Form 608 (formerly FCC Form 603-T) that pertains specifically to spectrum

leasing arrangements. We recognize that, due to the transaction costs associated with leasing or other market factors, licensees and other parties may wish to utilize other types of arrangements involving opportunistic use of licensed spectrum. To that end, we adopt a "private commons" option distinct from either spectrum leases or other existing arrangements. The private commons option may be particularly well suited to meet the unique needs of market participants that incorporate "smart" or "opportunistic" use technologies within their bands.
