BILLING CODE 4510-29-P

DEPARTMENT OF LABOR

Office of the Secretary

Submission for OMB Review: Comment Request

June 29, 2006.

The Department of Labor (DOL) has submitted the following public information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35). A copy of this ICR, with applicable supporting documentation, may be obtained by contacting Ira Mills at the Department of Labor on 202-693-4122 (this is not a toll-free number) or e-mail: Mills.Ira@dol.gov. This ICR can also be accessed online at <http://www.doleta.gov/OMB/OMBControlNumber.cfm>.

Comments should be sent to Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for ETA, Office of Management and Budget, Room 10235, Washington, DC 20503, 202-395-7316 (this is not a toll free number), within 30 days from the date of this publication in the **Federal Register**.

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Employment and Training Administration (ETA).

Type of Review: New.

Title: Plan for Evaluation of the Trade Adjustment Assistance Program.

OMB Number: 1205-0NEW.

Frequency: Other; one time collection.

Affected Public: Individuals or households; State, Local, or Tribal Government.

Type of Response: Reporting.

Number of Respondents: 9,490.

Annual Responses: 9,490.

Average Response Time: 95 minutes for respondents.

Total Annual Burden Hours: 11,962.

Total Annualized Capital/Startup Costs: 0.

Total Annual Costs (operating/maintaining systems or purchasing services): 0.

Description: This data collection plan is for a six-year evaluation of the Trade Adjustment Assistance program. The evaluation is comprised of an impact analysis using a comparison group methodology. A process study is also included to determine what programmatic and administrative features may affect performance. Data collection includes: Baseline and follow-up surveys of TAA participants and comparison group members, site visits to states and local areas, and an internet/phone survey of local TAA coordinators.

Ira L. Mills,

Departmental Clearance Officer/Team Leader.

BILLING CODE 4510-30-P

DEPARTMENT OF LABOR

Office of the Secretary

Job Corps: Preliminary Finding of No Significant Impact (FONSI) for the Proposed Job Corps Center located at 6767 North 60th Street, Milwaukee, WI

AGENCY: Office of the Secretary, Department of Labor.

ACTION: Preliminary Finding of No Significant Impact (FONSI) for the proposed Job Corps Center to be located at 6767 North 60th Street, Milwaukee, Wisconsin.

SUMMARY: Pursuant to the Council on Environmental Quality Regulations (40 CFR part 1500-08) implementing procedural provisions of the National Environmental Policy Act (NEPA), the Department of Labor, Office of the Secretary (OSEC) in accordance with 29 CFR 11.11(d), gives notice that an Environmental Assessment (EA) has been prepared for a proposed new Job Corps Center to be located in Milwaukee, Wisconsin, and that the

proposed plan for a new Job Corps Center will have no significant environmental impact. This Preliminary Finding of No Significant Impact (FONSI) will be made available for public review and comment for a period of 30 days.

DATES: Comments must be submitted by August 7, 2006.

ADDRESSES: Any comment(s) are to be submitted to Michael F. O'Malley, Office of the Secretary (OSEC), Department of Labor, 200 Constitution Avenue, NW., Room N-4460, Washington, DC 20210, (202) 693-3108 (this is not a toll-free number).

FOR FURTHER INFORMATION CONTACT: Copies of the EA are available to interested parties by contacting Michael F. O'Malley, Architect, Unit Chief of Facilities, U.S. Department of Labor, Office of the Secretary (OSEC), 200 Constitution Avenue, NW., Room N-4460, Washington, DC 20210, (202) 693-3108 (this is not a toll-free number) or by visiting the Milwaukee Public Library, Mill Road Branch, 6431 North 76th Street, Milwaukee, Wisconsin 53223—Viewing Hours: M.—Th. 10:30 a.m.—8:30 p.m. & F.—S. 10 a.m.—5 p.m. or by visiting the City of Milwaukee Department of City Development, 809 North Broadway, Milwaukee, Wisconsin 53202—Viewing Hours: M.—F. 8 a.m.—4:45 p.m.

SUPPLEMENTARY INFORMATION: This EA summary addresses the proposed construction of a new Job Corps Center in Milwaukee, Wisconsin. The site for the proposed Job Corps Center is a 23-acre undeveloped parcel of land owned by James Cape & Sons Company.

The new center will require construction of approximately eight new buildings. The proposed Job Corps Center will provide housing, training, and support services for approximately 300 students. The current facility utilization plan includes new dormitories, a cafeteria building, administration offices, recreation facilities, and classroom facilities.

The construction of the Job Corps Center on this proposed site would be a positive asset to the area in terms of environmental and socioeconomic improvements, and long-term productivity. The proposed Job Corps Center will be a new source of employment opportunity for people in the Milwaukee metropolitan area. The Job Corps program provides basic education, vocational skills training, work experience, counseling, health care and related support services. The program is designed to graduate students who are ready to participate in the local economy.

The proposed project will not have any significant adverse impact on any natural systems or resources. No state or Federal threatened or endangered species (proposed or listed) have been identified on the subject property.

The Job Corps Center construction will not affect any existing historic structures, as there are no historic or archeologically sensitive areas on the proposed property parcel.

Air quality and noise levels should not be affected by the proposed development project. Due to the nature of the proposed project, it would not be a significant source of air pollutants or additional noise, except possibly during construction of the facility. All construction activities will be conducted in accordance with applicable noise and air pollution regulations, and all pollution sources will be permitted in accordance with applicable pollution control regulations.

The proposed Job Corps Center is not expected to significantly increase the vehicle traffic in the vicinity.

The proposed project will not have any significant adverse impact on the surrounding water, sewer, and storm water management infrastructure. The new buildings to be constructed for the proposed Job Corps Center will be tied in to the existing City of Milwaukee Water Works system. The new buildings to be constructed for the proposed Job Corps Center will also be tied in to the existing Milwaukee Metropolitan Sewerage District wastewater treatment system.

We Energies will provide the electricity for the site. This is not expected to create any significant impact to the regional utility infrastructure.

The Job Corps Center is not expected to result in a significant increase in vehicular traffic, since many of the Job Corps Center residents will either live at the Job Corps Center or use public transportation. While some Job Corps Center students and staff may use personal vehicles, their number would not result in a significant increase in vehicular traffic in the area. However, the proposed Job Corps Center entrance would be from North 60th Street. North 60th Street is a well-used, two-lane thoroughfare. Milwaukee County Transit System will provide public transportation. Bus Route 76 travels along North 60th Street past the location of the proposed Job Corp Center. There are a number of connecting bus routes within walking distance of the site.

No significant adverse affects to local medical, emergency, fire and police services are anticipated. The primary medical provider located closest to the

proposed Job Corps parcel is the Northwest General Hospital, approximately 3.5 miles from the proposed Job Corps Center. Security services at the Job Corps will be provided by the center's security staff. Law enforcement services are provided by the City of Milwaukee Police Department—District 4, located approximately 1.6 miles from the proposed project site. The City of Milwaukee Fire Department will provide fire protection. Milwaukee Fire Department #9 which operates 24 hours a day is located approximately 1.2 miles from the site.

The proposed project will not have a significant adverse sociological effect on the surrounding community. Similarly, the proposed project will not have a significant adverse effect on demographic and socioeconomic characteristics of the area.

The alternatives considered in the preparation of this FONSI were as follows: (1) No Action; and (2) Continue Project as Proposed. The No Action alternative was not selected. The U.S. Department of Labor's goal of improving the Job Corps Program by improving the learning environment at Job Corps Centers would not be met under this alternative. Due to the suitability of the proposed site for establishment of a new Job Corps Center, and the absence of any identified significant adverse environmental impacts from locating a Job Corps Center on the subject property, the "Continue Project as Proposed" alternative was selected.

Based on the information gathered during the preparation of the EA, no environmental liabilities, current or historical, were found to exist on the proposed Job Corps Center site. The construction of the Job Corps Center at 6767 North 60th Street, Milwaukee, Wisconsin will not create any significant adverse impacts on the environment.

Dated: June 28, 2006.

Esther R. Johnson,

National Director of Job Corps.

[FR Doc. E6-10631 Filed 7-6-06; 8:45 am]

BILLING CODE 4510-23-P

DEPARTMENT OF LABOR

Workforce Investment Act: Job Corps Program; Selection of Sites for Centers

AGENCY: Office of Job Corps, Office of the Secretary, Labor.

SUMMARY: The Department of Labor requests assistance in identifying sites for locating new Job Corps Centers. This notice specifies the requirements and criteria for selection.

DATES: Proposals are requested by September 30, 2006.

ADDRESSES: Proposals shall be addressed to the National Director, Office of Job Corps, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N4463, Washington, DC 20210.

FOR FURTHER INFORMATION CONTACT: Esther R. Johnson, National Director, Office of Job Corps. Telephone: (202) 693-3000 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION: The Department of Labor (DOL) is soliciting proposals for sites to establish new Job Corps centers. The Job Corps program is designed to serve disadvantaged young women and men, 16 through 24, who are in need of additional educational, career technical (vocational), and other support services in order to acquire the skills to begin a career, return to school or enter the Armed Forces. The program is primarily a residential program operating 24 hours per day, 7 days per week with non-resident enrollees limited by legislation to 20 percent of national enrollment. While the 20 percent level should be used as a guideline, the percentage of non-residents can vary from center to center, depending upon local needs.

Job Corps currently offers a comprehensive, integrated Career Development Services System which provides services for students from the time they apply through enrollment, career preparation and career development activities, and post-center career transition services. Career preparation and career development activities occur primarily on-center and include academic, career technical (vocational), information technology and social skills training; personal and career counseling; medical care; meals and housing; and related support services. Career transition services begin towards the end of the training period and continue for up to two years after a student leaves the center and returns home. These services include career search, job placement and transitional support to meet individual students' needs, such as housing, transportation and child care after they leave the Job Corps center.

Job Corps will be implementing a new framework for building a 21st century system of excellence. The components envisioned for a new program delivery model include high-growth, high-demand industry/occupational clusters; aligning program content with 21st century workplace requirements, and involving industry, education and workforce partners as an integral part of the Job Corps system. Training for each
