SUPPLEMENTARY INFORMATION:

Title: George Washington Birthplace National Historic Site, Visitor Transportation Survey.

Background: The transportation related data that is collected is used for management decisions that affect visitor access and mobility, including estimates of the facility's future highway needs and assessments of highway system performance. The information is used by the FHWA to develop and implement legislation and by State and Federal transportation officials to adequately plan, design, and administer effective, safe, and efficient transportation systems in and around the subject facility. This data is essential to the FHWA and Congress in evaluating the effectiveness of the Federal-Lands Highway Program (FLHP). The data that is required by the FLHP is continually reassessed and streamlined by the FHWA.

Respondents: General public visitors to the National Historic Site.

Estimated Average Burden Per Response: The estimated average reporting burden per response is 10 minutes.

Estimated Total Annual Burden: The estimated total annual burden for all respondents is 17 hours.

Electronic Access: Internet users may access all comments received by the U.S. DOT Dockets, Room PL-401, by using the universal resource locator (URL) <http://dms.dot.gov>, 24 hours each day, 365 days each year. Please follow the instructions online for more information and help.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: June 29, 2006.

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

**Town of Newbury, Massachusetts
(Docket Number FRA-2006-25058)**

The Town of Newbury has petitioned on its own behalf for a temporary waiver of compliance from the requirements of the regulations governing Use of Locomotive Horns at Highway-Rail Grade Crossings (49 CFR part 222), which generally require that the locomotive horn be sounded at each public crossing unless certain exceptions are met. The Town of Newbury has had in place an intermediate quiet zone and seeks relief from the following requirements of the regulations:

1 Section 222.42, which limits the continuation of an intermediate quiet zone to one year ending June 24, 2006 and requires conversion of the intermediate quiet zone into a new quiet zone by that date; and

2 Section 222.15, which requires joint submission of petitions for waiver of any requirement contained in 49 CFR part 222.

The petition also, in effect, asks that the petitioner be treated as if qualified for a pre-rule quiet zone under § 222.41(c), specifically with respect to the application of the 66.8% excess risk factor and the opportunity to take advantage of an 8-year continuation period within which to implement necessary quiet zone improvements. In support of this request, the petitioner asserts that there have been no relevant collisions in the prior 5-year period and that it has a quiet zone risk index of less than two times the Nationwide Significant Risk Threshold. The petition also notes that the petitioner has active grade crossing warning devices and advance warning signs at each grade crossing within the quiet zone.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in

connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number FRA-2006-25058) and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PL-401, Washington, DC 20590-0001.

Communications received within 30 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.-5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 of the Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

**North County Transit District
(Supplement to Waiver Petition Docket
Number FRA-2002-11809)**

As a supplement to the North County Transit District (NCTD) Petition for Approval of Shared Use and Waiver of Certain Federal Railroad Administration Regulations (the waiver was granted by the FRA on June 24, 2003), NCTD seeks a permanent waiver of compliance from additional sections of Title 49 of the CFR for operation of its SPRINTER rail

line between Oceanside, CA, and Escondido, CA. *See Statement of Agency Policy Concerning Jurisdiction Over the Safety of Railroad Passenger Operations and Waivers Related to Shared Use of the Tracks of the General Railroad System by Light Rail and Conventional Equipment*, 65 FR 42529 (July 10, 2000). *See also Joint Statement of Agency Policy Concerning Shared Use of the Tracks of the General Railroad System by Conventional Railroads and Light Rail Transit Systems*, 65 FR 42626 (July 10, 2000).

On February 3, 2005, NCTD submitted an additional request for relief from the following elements of Part 223 (Safety Glazing Standards—Locomotive, Passenger Cars and Caboose) and Part 229 (Railroad Locomotive Safety Standards). On April 18, 2006, FRA gave conditional relief concerning Part 233 but denied NCTD's request under part 229 concerning headlight intensity.

The NCTD has further advanced the design of the SPRINTER cars and is requesting relief for regulations from which it hereby seeks waivers: 49 CFR Part 229 Railroad Locomotive Safety Standards, § 229.125(a) [headlights] and § 229.125(d)(2) [auxiliary lights]. Since FRA has not yet completed its investigation of NCTD's petition, the agency takes no position at this time on the merits of NCTD's stated justifications.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings because two public hearings concerning NCTD's waiver requests have been held to date. If any interested party desires an opportunity for oral comment, they should notify FRA in writing within 15 days of the date of this notice, and must specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number 2002-11809) and must be submitted to the Docket Clerk, DOT Docket Management Facility, Room PL-401 (Plaza Level), 400 7th Street, SW., Washington, DC 20590. Communications received within 30 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. Notification of Extension of Comment Period

In accordance with 49 Code of Federal Regulations (CFR) 236.913(e)(1), the Federal Railroad Administration (FRA) gave notice that it had received a petition for approval of a Product Safety Plan (PSP) from BNSF Railway Company (BNSF), submitted pursuant to 49 CFR part 236, subpart H. 71 FR 11014. FRA placed the PSP and supporting documentation in Docket Number FRA-2006-23687. FRA also gave notice that it would accept comments on the petition for approval for the PSP, as required by 49 CFR 236.913(e)(2) for 90 days subsequent to the publication of the notice. That comment period ended on May 31, 2006. FRA is reopening the docket for comment to allow the public time to analyze and comment on revisions to that PSP and supporting documents recently submitted by BNSF in response to the FRA letter of March 8, 2006 (Docket Number FRA-2006-23687-7).

Interested parties are invited to participate in this safety review by providing written information or comments pertinent to FRA's consideration of the above petition for approval of a Product Safety Plan. All communications concerning this safety review should identify the appropriate docket number (e.g., Petition for Approval Docket Number FRA-2006-23687) and must be submitted to the Docket Clerk, DOT Central Docket Management Facility, Room PL-401, Washington, DC 20590-0001.

Communication received within 30 days of the date of this notice will be considered by FRA to the extent practicable. All written communications concerning this safety review are available for examination during regular business hours (9 a.m.–5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at <http://dms.dot.gov>.
