SUPPLEMENTARY INFORMATION:

Background

On March 7, 2006, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on low enriched uranium from France for the period February 1, 2004, through January 31, 2005. See *Low Enriched Uranium from France: Preliminary Results of Antidumping Duty Administrative Review* (71 FR 11386). The current deadline for the final results of this review is July 5, 2006.

Extension of Time Limit for Final Results of Review

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act) requires the Department to issue the final results in an administrative review within 120 days after the date on which the preliminary results were published. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the final results to 180 days from the date of publication of the preliminary results.

The Department finds that it is not practicable to complete the review within the original time frame due to the complex nature of the case. As this case involves a unique cost calculation methodology and the consideration of requested cost information received after the issuance of the preliminary results, completion of this review is not practicable within the original time limit of July 5, 2006. Consequently, in accordance with section 751(a)(3)(A) of the Act and section 351.213(h)(2) of the Department's regulations, the Department is extending the time limit for the completion of the final results of the review until no later than August 21, 2006, which is within 180 days from the publication of the preliminary results.

This notice is issued and published in accordance with section 751(a)(3)(A) of the Act.

Dated: June 30, 2006.

Deputy Assistant Secretary for Import
Administration.
