

modifications, as a proposed regulation. (15 U.S.C. 1262(g)(1)).

3. *Reliance on Voluntary Standard.* The Commission is required to consider voluntary standards in its mandatory rulemaking. Specifically, the Commission is required to invite any person to submit to the Commission a statement of intention to modify or develop a voluntary standard to address a risk of injury together with a description of a plan to modify or develop the standard. (15 U.S.C. 1262(f)(6)). If the Commission determines that compliance with a standard submitted to it in response to this invitation is likely to result in the elimination or adequate reduction of the risk of injury identified in the notice, and it is likely that there will be substantial compliance with such standard, then the Commission must terminate the proceeding to promulgate a regulation and publish a notice in the **Federal Register** which includes the determination of the Commission and notifies the public that the Commission will rely on the voluntary standard to eliminate or reduce the risk of injury. Before relying upon any voluntary standard, the Commission must afford interested parties a reasonable opportunity to submit written comments regarding such standard. The Commission must consider such comments in making any determination regarding reliance on the involved voluntary standard.

4. *Corrective Actions Under Section 15 of the FHSA.* The Commission has authority under section 15 of the FHSA, 15 U.S.C. 1274, to pursue corrective actions on a case-by-case basis if the Commission determines that a product constitutes a banned hazardous substance.

G. Request for Information and Comments

In accordance with section 3(f) of the FHSA, the Commission solicits:

1. Written comments with respect to the risk of injury identified by the Commission.

2. Written comments regarding the regulatory alternatives being considered and other possible alternatives for addressing the risk.

3. Any existing standard or portion of a standard which could be issued as a proposed regulation.

4. A statement of intention to modify or develop a voluntary standard to address the risk of injury discussed in this notice, along with a description of a plan (including a schedule) to do so.

In addition, the Commission is interested in receiving information about the testing that is conducted on

fireworks before they are distributed, the costs associated with testing, and the impact that testing has on both compliance with the CPSC mandatory fireworks device regulations and on injuries.

Comments should be e-mailed to cpsc-os@cpsc.gov and should be captioned "FIREWORKS ANPR." Comments may also be mailed, preferably in five copies, to the Office of the Secretary, Consumer Product Safety Commission, Room 502, 4330 East-West Highway, Bethesda, MD 20814, or delivered to the same address (telephone (301) 504-0800). Comments also may be filed by telefacsimile to (301) 504-0127. All comments and submissions should be received no later than September 11, 2006.

Dated: July 5, 2006.

Todd A. Stevenson,
Secretary, Consumer Product Safety Commission.
