² **Note:** 4 quarterly reports × 11 states = 44

³ **Note:** 1 tribe × 12 monthly vouchers = 12 and 7 tribes × 4 quarterly vouchers = 28

Estimated Annual Reporting and Recordkeeping "Non-hour" Cost Burden:

Due to more current information, we have identified no "non-hour cost" burden for this information collection.

Public Disclosure Statement: The PRA (44 U.S.C. 3501 et seq.) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Comments: Section 3506(c)(2)(A) of the PRA requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *." Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, we published a notice in the **Federal Register** on October 25, 2005 (70 FR 61631), announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. We received no comments in response to the notice.

If you wish to comment in response to this notice, you may send your comments to the offices listed under the **ADDRESSES** section of this notice. The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days.

Therefore, to ensure maximum consideration, OMB should receive public comments by August 11, 2006.

Public Comment Policy: We will post all comments in response to this notice on our Web site at http://www.mrm.mms.gov/Laws_R_D/InfoColl/InfoColCom.htm. We will also make copies of the comments available for public review, including names and addresses of respondents, during regular business hours at our offices in Lakewood, Colorado. Upon request, we will withhold an individual respondent's home address from the public record, as allowable by law. There also may be circumstances in which we would withhold a respondent's identity, as allowable by law. If you request that we withhold your name and/or address, state your request prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

Agency Information Collection Activities: Submitted for Office of Management and Budget (OMB) Review; Comment Request

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Notice of extension of an information collection (1010-0137).

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), we are notifying the public that we have submitted to OMB an information collection request (ICR) to renew approval of the paperwork requirements for the Notice to Lessees (NTL) on the Historical Well Data Cleanup (HWDC) Project. This notice also provides the public a second opportunity to comment on the paperwork burden of these regulatory requirements.

DATES: Submit written comments by August 11, 2006.

ADDRESSES: You may submit comments on this information collection directly to the Office of Management and Budget (OMB), Office of Information and Regulatory Affairs, OMB, Attention: Desk Officer for the Department of the Interior via OMB e-mail: (OIRA_DOCKET@omb.eop.gov); or by fax (202) 395-6566; identify with (1010-0137).

Submit a copy of your comments to the Department of the Interior, MMS, via:

- MMS's Public Connect on-line commenting system, <https://occonnect.mms.gov>. Follow the instructions on the Web site for submitting comments.

- E-mail MMS at rules.comments@mms.gov. Use Information Collection Number 1010-0137 in the subject line.

- Fax: 703-787-1093. Identify with Information Collection Number 1010-0137.
- Mail or hand-carry comments to the Department of the Interior; Minerals Management Service; Attention: Rules Processing Team (RPT); 381 Elden Street, MS-4024; Herndon, Virginia 20170-4817. Please reference "Information Collection 1010-0137" in your comments.

FOR FURTHER INFORMATION CONTACT:

Cheryl Blundon, Rules Processing Team, (703) 787-1600. You may also contact Cheryl Blundon to obtain a copy, at no cost, of the ICR, the regulations, and the NTL that require the subject collection of information.

SUPPLEMENTARY INFORMATION:

Title: Historical Well Data Cleanup (HWDC) Project.

OMB Control Number: 1010-0137.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve

and maintain free enterprise competition.

Section 1332(6) states that "operations in the [O]uter Continental Shelf should be conducted in a safe manner by well trained personnel using technology, precautions, and other techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control, fires, spillages, physical obstructions to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property or endanger life or health." These responsibilities are among those delegated to the Minerals Management Service (MMS).

To carry out these responsibilities, MMS issues regulations to ensure that operations in the OCS will meet statutory requirements; provide for safety and protect the environment; and result in diligent exploration, development, and production of OCS leases. In addition, we issue Notices to Lessees and Operators (NTLs) that provide clarification, explanation, and interpretation of our regulations. These NTLs are also used to convey purely informational material and to cover situations that might not be addressed in our regulations. The latter is the case for the information collection required in the attached NTL. Because of the unusual nature of this information collection, issuing an NTL is the appropriate means to collect the information.

The subject of this information collection request is the "Historical Well Data Cleanup (HWDC) Project." It

needs to be stressed that the information we are collecting is information that respondents are required to submit under regulations at 30 CFR part 250 subpart D. However, in the past we did not always enforce this regulatory requirement for certain wellbores for several reasons. We did not foresee the value of this information for all wellbores, nor did we anticipate that not having the information would later create problems for the agency and others. We also did not have a sophisticated electronic database that could handle the information. We have instituted procedures designed to correct this problem, and we now collect all of the required information on a current basis (under 30 CFR part 250, subpart D, OMB Control Number 1010-0141). Prior assurance to respondents that providing the information in connection with this project will not subject them to the penalties for not providing the information is still in place. We are requesting a renewal for the approval of this collection to allow operators more response time over a longer period to provide the missing or corrected data.

Frequency: On occasion.

Estimated Number and Description of Respondents: Approximately 130 Federal OCS oil, gas, and sulphur lessees.

Estimated Reporting and Recordkeeping "Hour" Burden: The estimated annual "hour" burden for this information collection is a total of 15,000 hours for the remaining 6,000 wells based on:

| | |
|--|--------------------------------|
| 0.5 hours to locate/copy scout tickets for each well | 0.5 hrs × 6,000 wells = 3,000 |
| 2 hours to retrieve/analyze each well file | 2 hours × 6,000 wells = 12,000 |
| Total | 15,000 |

Estimated Reporting and Recordkeeping "Non-Hour Cost" Burden: We have identified no paperwork "non-hour cost" burdens associated with the collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed

collection of information * * *" Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, on February 10, 2006, we published a **Federal Register** notice (71 FR 7064) announcing that we

would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, § 250.199 provides the OMB control number for the information collection requirements imposed by the 30 CFR part 250 regulations. The regulation also informs the public that they may comment at any time on the collections of information and provides the address to which they should send comments. We received two comments in response to these efforts, but they were not relevant to the information collection request.

If you wish to comment in response to this notice, you may send your comments to the offices listed under the **ADDRESSES** section of this notice. OMB has up to 60 days to approve or

disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by August 11, 2006.

Public Comment Procedures: MMS's practice is to make comments, including names and addresses of respondents, available for public review. If you wish your name and/or address to be withheld, you must state this prominently at the beginning of your comment. MMS will honor the request to the extent allowable by the law; however, anonymous comments will not be considered. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR part 250, subpart O, Well Control and Production Safety Training.

OMB Control Number: 1010-0128.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations to administer leasing of the OCS. Such rules and regulations will apply to all operations conducted under a lease. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development

with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

Section 1332(6) of the OCS Lands Act (43 U.S.C. 1332) requires that "operations in the [O]uter Continental Shelf should be conducted in a safe manner by well trained personnel using technology, precautions, and other techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control, fires, spillages, physical obstructions to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property or endanger life or health." This authority and responsibility are among those delegated to the Minerals Management Service (MMS). To carry out these responsibilities, MMS issues regulations governing oil and gas or sulphur operations in the OCS.

Regulations at 30 CFR part 250, subpart O, implement these safe operation requirements. The MMS uses the information collected under subpart O to ensure that workers in the OCS are properly trained with the necessary skills to perform their jobs in a safe and pollution-free manner. In some instances, MMS will conduct oral interviews of offshore employees to evaluate the effectiveness of a company's training program. The information collected is necessary to verify personnel training compliance with the requirements.

Frequency: Primarily on occasion.

Estimated Number and Description of Respondents: Approximately 130 Federal OCS lessees.

Estimated Reporting and Recordkeeping "Hour" Burden: The estimated annual "hour" burden for this information collection is a total of 2,106 hours. The following chart details the individual components and estimated hour burdens. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.
