

SUMMARY: On June 2, 2006, we published in the **Federal Register** (71 FR 32195) a notice of final priorities for the Disability and Rehabilitation Research Projects and Centers Program—Disability Rehabilitation Research Projects (DRRPs). The notice contained incorrect information about the number of outcomes a DRRP must meet under the priority on Rehabilitation of Children with Traumatic Brain Injury. The information on page 32202 is corrected to read as follows:

Rehabilitation of Children With Traumatic Brain Injury (TBI)

Priority

The Assistant Secretary for Special Education and Rehabilitative Services establishes a priority for the funding of a Disability Rehabilitation Research Project (DRRP) on the Rehabilitation of Children with Traumatic Brain Injury (TBI). Under this priority, the DRRP must be designed to contribute to one or more of the following outcomes:

(a) Improved physical, cognitive, social/behavioral, family, educational, or employment outcomes for children with TBI by developing or testing rehabilitation interventions, the measures needed to assess the effectiveness of rehabilitation interventions, or both.

(b) Improved transition of children from health care facilities to school and community by developing or testing effective transition strategies, the measures needed to assess the effectiveness of transition strategies, or both.

(c) Improved TBI screening and special education services for children by developing or testing methods and procedures for use in school settings.

SUPPLEMENTARY INFORMATION:

Description

The information collection submitted for OMB review contains the following:

1. *Collection of Information:* FERC-544 "Gas Pipeline Rates: Rate Change (Formal)."
2. *Sponsor:* Federal Energy Regulatory Commission.
3. *Control No.* 1902-0153.

The Commission is now requesting that OMB approve and extend the expiration date for an additional three years with no changes to the existing collection. The information filed with the Commission is mandatory.

4. *Necessity of the Collection of Information:* Submission of the information is necessary for the Commission to carry out its responsibilities in implementing the statutory provisions of sections 4, 5, and 16 of the Natural Gas Act (U.S.C. 717c-717o, Pub. L. 75-688). The Commission implements FERC-544 filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 154.

General rate change applications filed under section 4(e) of the Natural Gas

Act reflect changes in rates based generally upon changes in the pipeline company's overall costs of providing service. Staff analyses are performed to determine whether the proposed rates and charges are consistent with the Commission's statutory responsibilities, policies, conditions. A preliminary review and report to the Commission of all changes filed under the NGA must be made by staff. Based upon the report, the Commission determines whether the filing should be accepted or suspended and set for hearing and investigation. 18 CFR 154.301–154.313 govern the filing requirements for rate changes and define the statements and schedules pipeline companies must file in support of their proposed rates and changes. 18 CFR 154.205 governs the filing requirements for changes relating to suspended tariffs, executed agreements or parts thereof. 18 CFR 154.206 permits the proposed change in rate, charge, classification or service to go into effect upon motion of the jurisdictional gas pipeline at the expiration of the suspension period or upon receipt of the motion, whichever is later.

Formal rate change filings (FERC–544) are suspended and set for hearing. When the NGA Section 4(e) filing is suspended, the rate becomes the subject of a hearing process and may go into effect subject to refund with interest. All suspended filings that go through the hearing process are considered formal cases and an investigation is instituted to determine the reasonableness of the rate filing. If the rates and charges are deemed unjust, unreasonable or unduly discriminatory, the appropriate rate, charge or service condition is ascertained. The formal proceeding is terminated by the issuance of a final Commission order.

5. *Respondent Description:* The respondent universe currently comprises 11 companies (on average) subject to the Commission's jurisdiction.

6. *Estimated Burden:* 50,413 total hours, 11 respondents (average), 1 response per respondent, and 4,583 hours per response (average).

7. *Estimated Cost Burden to respondents:* 50,413 hours/2080 hours per years × \$117,321 per year = \$2,843,511. The cost per respondent is equal to \$258,501.

Statutory Authority: Statutory provisions of sections 4, 5, and 16 of the Natural Gas Act (U.S.C. 717c–717o, Pub. L. 75–688). The Commission implements FERC–544 filing

requirements in the Code of Federal Regulations (CFR) under 18 CFR part 154.

Magalie R. Salas,

Secretary.
