Mandatory Use of Simplified Network Application Processing System

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Proposed rule—withdrawal.

SUMMARY: The Bureau of Industry and Security (BIS) is withdrawing a proposed rule that would have made use of the Simplified Network Application Process (SNAP) mandatory and that would have comprehensively revised the provisions of the Export Administration Regulations (EAR) that govern electronic filing. BIS is continuing to work on improvements to its on-line application system and will issue new rules as needed to implement those improvements.

DATES: The proposed rule is withdrawn as of July 13, 2006.

William Arvin, Office of Exporter Services, Regulatory Policy Division; e-mail warvin@bis.doc.gov, telephone (202) 482-2440.

SUPPLEMENTARY INFORMATION:

Background

On November 12, 2003 (68 FR 64009), the Bureau of Industry and Security published a proposed rule that would have required that all applications for export licenses, reexport licenses, license exception AGR submissions, classification requests and encryption review requests be submitted via a to-be-instituted revised Simplified Network Application Process unless certain enumerated exceptions applied, and that would have extensively revised the requirements for electronic filing of certain applications (the November 2003 proposed rule). The November 2003 proposed rule would also have allowed organizations that use the system, once

registered, to add, remove and adjust the authority level of individual users authorized to file applications and notices on behalf of that organization. The November 2003 proposed rule would have permitted the electronic filing of attachments, and required that all attachments to applications and notices be in text searchable pdf format.

The original comment period expired on January 12, 2004, but was extended to February 12, 2004 (69 FR 1685, January 12, 2004). BIS received 16 comments on the proposed rule. Although a number of commenters generally favored expanded electronic filing in principle, many were opposed to the requirement that attachments be in text searchable pdf format, generally citing the cost of producing such documents, particularly if the source documents had to be scanned from poor quality, oversized or bound originals. Other commenters opposed making electronic filing mandatory, and still others, although not opposed to mandatory electronic filing in principle, stated that no mandatory filing rule should be imposed until after the improved system had been deployed and was operating reliably.

Since the publication of the November 2003 proposed rule, BIS has reassessed its efforts to improve electronic filing of license applications and as a result of that reassessment, determined to release improvements and modifications to its electronic filing system in small installments rather than in the single complete restructuring that the November 2003 proposed rule contemplated. BIS may at times find it necessary to amend the Export Administration Regulations to conform with some of those installments. However, BIS has concluded that a single rule comprehensively rewriting the EAR provisions relating to electronic filing as it proposed in the November 2003 proposed rule no longer is consistent with the manner in which it plans to modernize its electronic filing process. In addition, BIS agrees with the commenters to the November 2003 proposed rule who stated that any revised electronic system should be put into place and be operating reliably before any rule making its use mandatory is published.

Accordingly, BIS is withdrawing the November 2003 proposed rule. BIS is continuing to work on improvements to its on-line application system and will issue new rules as needed to implement those improvements.

Dated: June 30, 2006.

Matthew S. Borman,

Deputy Assistant Secretary for Export Administration.

Notice of Agenda, Panelists and Questions

As announced on April 21 and June 16, 2006, the Federal Energy Regulatory Commission (Commission) will hold a technical conference and workshop in

the above-referenced proceeding on July 18, 2006, in the Commission Meeting Room. The meeting will begin at 9 a.m. (Eastern Daylight Savings Time) and conclude at approximately 1:30 p.m. All interested persons are invited to attend. There is *no* registration fee to attend this conference.

Nine comments were filed in response to the proposed Uniform System of Accounts for Centralized Service Companies, the proposed records retention requirements for holding companies and service companies, and the revised FERC Form No. 60.¹ These comments raise a number of issues. We request that the panel members address the following issues raised by commentors:

1. Is a separate Uniform System of Accounts necessary for service companies?
2. Are the proposed accounting and reports too burdensome to comply with? What parts cause the most burden?
3. Should a structured reporting format be required for service companies?
4. If a separate Uniform System of Accounts and structured reports are adopted, what are the most significant modifications to what was proposed in the NOPR that should be considered?
5. What should the effective date be for the new requirements?

Transcripts of the meeting will be available immediately for a fee from Ace Reporting Company ((202) 347-3700 or 1-(800) 336-6646). They will be available for free on the Commission's eLibrary system and on the events calendar about two weeks after the conference. There will be open microphones for conference attendees to present their questions to the panelists and Commission staff.
