[Docket No. FAA-2006-24813; Airspace Docket No. 06-AAL-16]

**Modification of Legal Description of Class D and E Airspace; Fairbanks, Fort Wainwright Army Airfield, AK**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Direct final rule Correction; request for comments.

**SUMMARY:** The U.S. Army will soon be changing the name of Fort (Ft.) Wainwright Army Airfield (AAF) to Ladd AAF. This action amends the airport name accordingly for each of the Class D and Class E airspace descriptions in FAA Order 7400.9N. This action also amends an altitude omission which currently does not exist in the FAA Order 7400.9N. This action also redefines the airspace description

to account for recent updates to the airfield coordinates.

**DATES:** This direct final rule is effective on 0901 UTC, November 23, 2006. Comments for inclusion in the Rules Docket must be received on or before August 16, 2006.

**ADDRESSES:** Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590-0001. You must identify the docket number FAA-2006-24813/ Airspace Docket No. 06-AAL-16, at the beginning of your comments. You may also submit comments on the Internet at <http://dms.dot.gov>. You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Docket Office between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Docket Office (telephone 1-800-647-5527) is on the plaza level of the Department of Transportation NASSIF Building at the above address.

**FOR FURTHER INFORMATION CONTACT:** Gary Rolf, Federal Aviation Administration, 222 West 7th Avenue, Box 14, Anchorage, AK 99513-7587; telephone number (907) 271-5898; fax: (907) 271-2850; e-mail: [gary.ctr.rolf@faa.gov](mailto:gary.ctr.rolf@faa.gov). Internet address: <http://www.alaska.faa.gov/at>.

**SUPPLEMENTARY INFORMATION:** The coordinates for this airspace docket are based on North American Datum 83. The Class D airspace and Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 5000 and 6005 respectively, in FAA Order 7400.9N, *Airspace Designations and Reporting Points*, dated September 1, 2005, and effective September 15, 2005, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document would be published subsequently in the

Order. Additionally, the present exclusionary clause listed in the Class E5 description is removed. The exclusionary language is redundant and therefore, unnecessary.

**The Direct Final Rule Procedure**

The FAA anticipates that this regulation will not result in adverse or negative comment and therefore, is issuing it as a direct final rule. Previous actions of this nature have not been controversial and have not resulted in adverse comments or objections. Unless a written adverse or negative comment, or written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. After the close of the comment period, the FAA will publish a document in the **Federal Register** indicating that no adverse or negative comments were received and confirming the date on which the final rule will become effective. If the FAA does receive, within the comment period, an adverse or negative comment, or written notice of intent to submit such a comment, a document withdrawing the direct final rule will be published in the **Federal Register**, and a notice of proposed rulemaking may be published with a new comment period.

**Comments Invited**

Interested parties are invited to participate in this rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both

docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2006-24813/Airspace Docket No. 06-AAL-16." The postcard will be date/time stamped and returned to the commenter.

#### Agency Findings

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) Is not "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle 1, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart 1, Section 40103, Sovereignty and use of airspace. Under that section, the FAA is charged with prescribing regulations to ensure the safe and efficient use of the navigable airspace. This regulation is within the scope of that authority because it follows the U.S. Army's actions in renaming Wainwright AAF to Ladd AAF and thereby changes the Class E airspace description in FAA Order 7400.9N and represents the FAA's continuing effort to safely and efficiently use the navigable airspace.

### 17 CFR Part 30

#### Foreign Futures and Options Transactions

**AGENCY:** Commodity Futures Trading Commission.

**ACTION:** Amended Supplemental Order for Expanded Relief.

**SUMMARY:** The Commodity Futures Trading Commission ("Commission or CFTC") is issuing an Amended Supplemental Order for expanded relief, authorizing members of the Sydney Futures Exchange ("Exchange or SFE") to solicit and accept orders from U.S. customers for otherwise permitted transactions on all non-U.S. and non-Australian exchanges ("foreign exchanges") where such members are authorized by the regulations of the SFE to conduct futures business for customers. The Amended Supplemental Order supercedes the prior Supplemental Orders, relating to expanded relief, issued to SFE in 1997 and 1993. This Amended Supplemental Order is issued pursuant to Commission
